MONTENEGRO IN TERRIBLE STRAITS

PARIS, June 19. (By Mail).—The Ministry of Foreign Affairs of Montenegro maintained in Paris by Nicholas, formerly King of that country, has issued an official communique, quoting the newspaper "Republique" of Belgrade concerning the Serbian occupation of Montenegro. The article says:

"The people of Montenegro are naked and have no shoes. They are too weak to work and earn a living because a majority of the population has had little to eat for the last eight months or more. Many infants are dying and the children in many cases have been unable to go to school because of weakness. This economic misery which is indescribable is aggravated by the regime of the authorities of occupation, maintained by force and corruption. The oppressors, sent by the government of Belgrade, excite the people to anger, then kill them. Those who are not killed are thrown into prison."

Queen Elizabeth of England was very fond both of receiving and giving gloves as presents.

Cork was used by the Roman sandal-makers for soles, and they sometimes applied it very thick to increase the stature of those ladies who wished to be thought taller than they really were.
