

MACK PERFORMANCE COUNTS

Features You Get Exclusively in Mack Trucks

THE HEAVY-DUTY CLUTCH

The Mack truck models having a capacity of over three tons are known as the AC type. Ruggedness and power feature these models, as they are designed and built to be genuine burden bearers.

Every one knows that to "pick up" a heavy load requires a sturdy clutch. The clutch used on MACK AC models is designed and built especially for MACK heavy-duty trucks in the Mack factories.

There could hardly be a simpler efficient clutch. It is of the single disc type and entirely inclosed within the flywheel. It is oilless and without adjustment.

Instead of a disc the full diameter of the clutch faced on both sides, as is the usual construction, in the MACK AC clutch the facing, made of thermoid, is attached at its inner circumference to the disc, which is of flexible metal and riveted to a splined hub carried loosely on the clutch shaft end. The friction surface of the friction ring is therefore perfectly smooth, being without rivets.

STONES KEEP THEIR SECRET

Restoration of Stonehenge Has Revealed Nothing New of Interest to the Antiquarian.

The restoration of Stonehenge has revealed fresh evidence as to the original building of the famous circle. There are indications that the entire monument was surrounded by a circle of at least 40 stones, not one of which remains today.

The office of works, in conjunction with the society of antiquaries, is overhauling the monument, replacing the fallen stones and exploring the site. Excavations have revealed sockets for a number of stones that are no longer in existence, but history cannot account for their absence.

During the excavations a number of hammer stones, chisels and burnt bones were found, also many articles of more modern origin, scraps of Roman remains, pennies and farthings of varying date even up to the present time. The places where these coins were found are a problem in themselves. Why, for example, should a half-penny of George III be found deeper in the earth than a farthing of James I?

A new map of the monument is to be drawn and preserved in the Antiquaries museum, but the object of the excavations, the discovery of the origin and purpose of the famous monument, is still unsolved by the recent work.—London Times.

CENTER OF HUN WAR POWER

Ruhrort, With Its Splendid River Harbor, Really the Most Important City of Germany.

Ruhrort, which had the largest river harbor in Europe, and which included the Ruhr basin, was the power plant of Germany's former industrial machine and military war engine.

Between the Rhine and Ruhr is Duisburg, city of rolling mills, foundries and factories. This beehive of industry was once a university town, but the school was supplanted by factories. Duisburg is connected with the Ruhr by a canal.

Further up the Ruhr is Witten, important not only for its steel, but also for beer, soap and chemicals. The Ruhr basin coal fields not only were important to Germany because of their heavy production, but because they alone were accessible for water importation of ores. A canal connected Dortmund, a city of the Ruhr basin, with the Ems river, thus affording an outlet to the North sea at Emden. The Ruhr was made navigable from the Rhine to Witten, some 35 miles, by means of locks.

Connoisseur of Feminine Beauties.

An extraordinary request from a professor of anthropology in Vienna was received by the Western Australian minister for education, Mr. Colebatch. This Austrian professor appeals to the minister "as a connoisseur of feminine beauties" for photographs of several hundreds of the most beautiful women in Western Australia. He intends to publish these photographs in an illustrated catalogue of the beauties of all countries. While Mr. Colebatch's sense of humor has come to his assistance and prevented him from sending the extremely blunt replies vouchsafed trade letters from Austria and Germany, it may be understood without fear of contradiction that the Viennese professor will not publish the Western Australia reply. If a selection of press comments on the professor were forwarded to him he would recognize that Western Australia girls have the knack of saying the right thing in the right way at the right time.

It Followed.

When Aunt Helen kept company with a young lieutenant in the army she prevailed on her ten-year-old nephew to wear a soldier overcoat. The young lieutenant was succeeded by a boy scout executive, and Bobby received a boy scout uniform, which he had to wear to please auntie.

But the boy scout executive and Aunt Helen have disagreed and Bobby has been much interested in knowing who will be his successor in winning Aunt Helen's attentions. The other day he made a discovery, and came running in the house to tell mother about it.

"Oh, mother," he began, "you might as well get me a Prince Albert coat, a white vest and a tie. Aunt Helen is beginning to warm up to the minister." —Indianapolis News.

Sidetracked.

Fire runs have always been my pet worry when driving a car, so when I heard the excited clanging of a bell while riding through one of the city parks recently I pulled over to the curb, almost running into a lamp post in my rush. Then I turned around to watch the engines and discovered two small boys on a pushmobile holding the center of the boulevard and working a large bell overtime while a Sunday crowd laughed at the joke which was certainly on me.—Exchange.

Aluminium Shoe Sales.

One of the newest uses for aluminium is its employment in making the soles of shoes to be used by workmen employed in wet and damp places. The aluminium-soled shoe lasts much longer than an ordinary shoe, and is said to be impervious to damp.

Church Valuation.

All denominations in the United States own a little over 200,000 church edifices valued at about \$1,700,000,000.

Goodyear Skill—as Represented in Tires for Small Cars

The high relative value built into Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, results directly from the extraordinary skill and care applied to their manufacture.

To make their quality available widely, Goodyear operates the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking one of these sizes, you can equip it with Goodyear Tires at our nearest Service Station.

Go there for the exceptional value in these tires, made possible by Goodyear's resources, experience and demonstrated expertness in tire manufacture.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread, \$23.50

30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread, \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size in \$4.50 waterproof bag.

GOODYEAR

CHINESE COOLIES IN LABOR MOVEMENT

SHANGHAI, June 17. (By Mail.)—China's embryo labor unions are seeking an alliance with the National student body.

These labor unions are still in a nebulous state. The first of them came into being in Shanghai a few months ago in a loosely welded organization of coolies back from war work in France. Then were formed the Wharf Coolies' Association, the Electricians Union, the China Labor Union, the China Industrial Work-

ers' Union, the National Union of Laborers and several others.

Organizers of these unions attempted to hold the first Labor Day celebration in China on May 1, but when they undertook to parade in the native quarter they encountered two companies of Chinese troops and a machine gun detachment, ordered out by General Ho Fungting, acting defense commissioner, who forbade any form of demonstration.

WORTH WEIGHT IN PURE GOLD

Willhide Was So Run Down That His Wife and Friends Were Greatly Alarmed at His Condition. Tanlac Builds Him Up.

"Tanlac has been worth its weight in gold to me," said Walter S. Willhide, a well-known employe of the Federal Rubber Co., Cudahy, Wis., and who lives at 75 Howell Ave., Milwaukee. "My wife and friends were really alarmed about me, but now I never felt better in my life."

"I don't believe anyone ever suffered more from stomach trouble than I did for five years," he said. "After every meal gas would form and I had such sharp pains across my heart I could scarcely breathe. Dull heavy, dizzy headaches would come on me and I had to lie right down or I would fall over. My back and stomach hurt so bad I could hardly bear my clothes to touch them. I was nervous as a cat and the least noise at night would excite me. The muscles in my legs would cramp at night until I would have to get up and walk the oor to get relief; I lost fifteen pounds, my appetite was completely gone and I was so weak I could hardly do my work."

"Only two bottles of Tanlac have rid me of every one of my troubles. I eat anything and never have an uncomfortable feeling in my stomach, my nerves are like steel and I never have a headache, dizzy spell or pain of any sort. My friends are congratulating me on how well I look and I certainly feel fine."

Tanlac is sold in Klamath Falls by the Star Drug Co., in Lorella by the James Merc. Co., and in Merrill by the Southern Oregon Drug Co. Adv.

Women students are to be admitted to the far-famed Catholic University of Louvain, provided they live either with their own families or in one of the religious institutions of Louvain.

As evidence of the increased cost of living on the borders of Uganda and the Congo, it is reported that, whereas a wife cost four spearsheads in pre-war days, she now costs eight spearsheads.

PENNSYLVANIA TOWN CLAIMS GREATNESS

WASHINGTON, Pa., July 14.—If Warren G. Harding is elected president of the United States, this pretty little university city in the hills of Western Pennsylvania will be bound up closer than ever with the White House, for not only did Senator Harding's ancestors live here but the father of President Wilson also was a resident of Washington. Senator Harding's great-grandfather, William Van Kirk, was one of the early settlers of Franklin township and he and his wife are buried in the family graveyard on the Charles Van Kirk farm near Point Lookout. Senator Harding is honorary president of the Van Kirk family society and frequently has attended the annual reunion here. President Wilson's father, Rev. Joseph Ruggles Wilson, was born at Stanburville, O., not far from here and in 1848 became pastor of the
