All of the above described lands constitute a contiguous body of swamp; wet and overflowed lands now in process of reclamation.

III. The total acreage included in said lands and to be included in the district aforesaid is 5,000 acres all in Klamath County, Oregon.

IV. The names of the owners of the above described land to be included in said district, as shown by the records of the county, and the acreage owned by each of such owners respectively are as follows:

(a) Geary Investment Company (a corporation) is the owner of one-half of the acreage described above as included in the proposed district.

(c) J. C. Elliott King is the owner of one-fourth of the acreage described above as included in the proposed district.

V. Said district is to be organized for the construction, operation and maintenance of a drainage and irrigation system and the reclamation of said lands and protection thereof from the overflow of the Upper Klamath Lake and the natural drainage from the surrounding hills upon said land, and the proposed reclamation and protection aforesaid is for agricultural purposes and will be conducive to the public welfare and will be of public benefit.

VI. All the lands above described and to be included in said proposed district are and should be properly included therein, and will be beneficially affected by the operation of the proposed district.

VII. VIII. The formation of a drainage district under the provisions of the act aforesaid is a proper and advantageous method of accomplishing the reclamation and protection of the lands aforesaid to be included therein.

IX. The proposed plan of reclamation and protection is to provide where necessary, proper and suitable dikes to prevent the overflow of waters of Upper Klamath Lake, and to drain the lands by ditches or otherwise, supplementing said works by pumping plants or other methods affording drainage; to provide by canals, intakes and headgates and pumps, a more systematic, economical and efficient means of irrigation; and to provide protection as may be best suited to accomplish the purpose. Said lands in general are partially reclaimed swamp and overflow lands. Said lands are now protected from overflow by dikes, and an improved system of drainage and irrigation is in process of construction, and the proposed plan will include such additional dikes, drainage and irrigation canals and works as will be deemed necessary.

X. All of the undersigned petitioners have agreed, and do hereby agree,

that they will pay any and all expenses incurred and any tax or taxes that may be levied against their lands respectively, for the purpose of paying the expense of organizing or attempting to organize the proposed district.

WHEREFORE your petitioners pray that the lands herein described, or such part of them as may be found by the court to be properly included in the proposed district aforesaid, either permanently or until further investigation and surveys may permit elimination shall be declared organized into a drainage district, and that such and other and further proceedings be had as may be necessary and proper.
