## HEALTH BUREAU HELPS HEBREWS

LONDON, July 24.—Nathan Straus of New York, told the International Zionist Conference here recently that the Straus health bureau in Palestine had supplied a need that had been ignored for hundreds of years by a criminally indifferent government and that it had become a "stronghold in the life of the Holy Land." The bureau was established by Mr. Straus in 1912.

The only problem which took precedence over the health question was the feeding of the hungry for which he said he established a free soup kitchen in Jerusalem which up to now, has been feeding 700 to 1,000 persons daily. Members of committees returning from Palestine, he said, had told him that his soup kitchen was "the brightest spot in the Holy city." The health bureau, Mr. Straus said, was established to improve health conditions generally and particularly to eradicate malaria and trachoma, the two diseases which were endemic there. It was intended to serve all inhabitants of Palestine irrespective of creed, race or color and, since the Jews number less than one-sixth of the total population, its work has accrued largely to the benefit of non-Jews.

Mr. Straus reviewed the fight conducted against malaria by the health bureau in and around Jerusalem in 1916 and 1917, which he said "nipped the cholera epidemic in the bud." Clinics were opened in five districts and injections of anti-malaria lymph were given to all comers, while school children were inoculated by nurses sent by the health bureau into districts. In all 39,750 persons were given preventive injections against cholera. Typhus lymph also was prepared and administered. More than 38,000 persons were examined to ascertain if they were affected with malaria and where the reaction was positive, quinine was given free of cost. The water in cisterns used for drinking purposes was examined and a museum of hygiene was established.

In combatting trachoma, Mr. Straus said, the health bureau treated 441,874 cases and an attempt was made to examine the eyes of all children who could be reached so as to identify that disease which was prevalent in Palestine. A hospital for eye diseases was opened and the campaign was extended into the towns and colonies outside of Jerusalem, nurses being sent to various places. Aid was also given to refugees when the Jewish population was expelled from Jaffa. Mr. Straus said that the health bureau had proved its efficiency and that he hoped its services would increase and become greater in the rehabilitation of the Holy Land, a blessing to the people irrespective of race, color or religion.

No one enjoyed the love and friendship of the late Empress Eugenie more than did her goddaughter, the present Queen Victoria Eugenie of Spain. Notwithstanding the great difference in their ages, the two were friends, confidantes, sympathizers since the childhood days of Princess Ena of Battenberg, as she was before her marriage to the King of Spain. The Queen has stores of knick-knacks, valuable jewels, books and gifts of all kinds from the one-time Empress of the French, and will, it is believed, inherit a large part of her enormous fortune.

## AN INSIDE BATH MAKES YOU LOOK AND FEEL FRESH

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, declaring this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the alimentary canal before eating more food. Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who have bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to show the value of

## If the Wood Dealer Sold Service

We do not sell current; we sell service. That sounds odd doesn't it?

Well, suppose the wood dealer sold service instead of wood, he would tend to your furnace and your range, take away the ashes and clean the flues. You would buy so much heat.

Now you buy so much light, although you pay according to the current you consume. But the service is performed for you by this company at the substations and power plants.

That is what we want to give you—efficient service. It is the aim of this company to have none but satisfied customers. No matter what it is, if you have a grievance, or are dissatisfied about your bill or do not understand our rates, please come in and see us or write us about it.

If you have any suggestions to make, we will gladly avail ourselves of them as our aim is constantly to improve our service to you as fast as the development of science and human ability permit.
