

**Resists the Sun**

Roofings don't wear out—they dry out. Good roofing like Ru-ber-oid resists the sun and gives protection for years. This requires the very best materials and a knowledge of how to properly combine them.

Ru-ber-oid is low in cost because it lasts long and needs few repairs. Made in three thicknesses for various purposes. Each roll contains complete materials and directions for laying.

Also, ask us about Ru-ber-oid Shingles—red and green
