### POOR PUBLICITY

Weed, Cal., July -Editor Evening Herald: "I beard that Klamath Falls has had a terrible fire. Please send we a copy of your paper with the explanation of the fire. Don't

Sincerely,

This is a sample of inquiries that have been coming in from various points during the last few days, not all of them to the Herald. The Western Union office has had several inquiries from Weed and other points in the last day or two, in investigation of a rumor that the town has been more or less wiped out by flames

All of this, of course is traceable to the current talk of the last few days in regard to an invasion of I. W. W. firebugs. It's bad advertis-ing for the community, tending to keep nervous persons away from here and every effort should be made to counteract it by plain dealing with the situation and full publication of facts.

As a matter of fact never has the community had less fires than during the present summer. It might be prudent to "knock on wood," as the children say, in making this statement. That there have been I. W. W, threats of incendiarism is unquestionable, but there has been no overt act and the I. W. W. colony here is apparently no more active now than it has been for months. There are members of the organization here and they are adding new members as fast as posible, without doubt. Their organization work must necessarily be secret but there is evidence that they are actively

Weed and other California towns are having fires. The evidence seems to point to incendiary origin too strongly to leave much question of fact. That Klamath Falls might suffer from the same source is conceivable and too evidently convelyable to be comfortable, but if all citizens know the facts and are on guard the possibility of trouble will be reduced to a minimum.

It is a time when cool-headedness and care in avoiding giving currency deter tourists and workingmen from coming here are the part of good citizenship. Swashbuckling street talk of IRISH DEMAND harsh treatment that will be given the "wobblies" if they "start anything" does no good and it alarm the tingid. ### HARDING'S **AMERICANISM**

"America does not propose to hold aloof, chooses no isolation and shuns no duty, but we arrogate to ourselves the keeping of the American continent and every concept of our moral obligation. It is very practical to make sure our own house is in perfect order before we attempt the miracle of old world stabilization.
