## SUGAR IS NOT NECESSARY WHEN CANNING FRUIT

### BIDS WANTED

Bids will be received at the rectory of Sacred Heart church, eighth and High street, until 7 p. m. Wednesday, August 11, 1920, for the erection of the building for the Sacred Heart Academy. Each bid must be accompanied by a certified check for five percent of the amount of the bid. Plans and specifications may be had from Rev. H. J. Marshall. The right to reject any and all bids is reserved. By order of the building committee.  
31-19 JOHN DREHER, Chairman.

# IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

# WOOD

The wise buyer has his slab for the heater in the back yard drying, and has placed an order for his winter needs of blockwood. Our prices are right and our wood is the best to be had.

Note our new location.

## AT THE THEATERS

A storm at sea, the crash of the big ship on the shoals, the waters pounding it to pieces, and death in the deep, with only a single survivor. This is one of the big scenes in "Girl of the Sea," which will be the feature attraction at the Liberty for today.

Betty Hilburn, the beautiful sixteen-year-old screen artist is the featured player in the production which was made by the Submarine Film Corporation, owners of the Submarine Tube, an apparatus which enables them to take photographs beneath the ocean, not without dangers as several encounters with sharks and giant devil fish have attested.

Exteriors for "Girl of the Sea" were made on a small island in the West Indies known as "Devil's Reef." Here the survivor from the shipwreck, a mere child, is washed ashore and for a number of years lives alone in a cavern or in the waters surrounding the reef. When a rescuing party finally reaches the island they find her a primitive being, who knows nothing of the outside world.

Drama enters the story and provides a series of thrilling situations both above and beneath the waves, and Miss Hilburn is called upon to perform some hazardous aquatic stunts. The story is unfolded in a beautiful panorama of life in the tropics and among the botanical gardens beneath the southern waters.

One of the big scenes in the play is a fight between the hero and a giant octopus who gets the man in its tentacles. This scene grows in interest when the girl dives to the rescue of her sweetheart, and helps him vanquish the big fish.

A capable cast supports Miss Hilburn and the scenic investiture is said to be wonderful and entirely different from anything of a similar nature.

## FOUR OHIOANS, ALL PRINTERS, IN RACE

CLEVELAND, Ohio, Aug. 2.—Ohio, "the mother of Presidents," now has four nominees on four tickets in the presidential and vice-presidential derby. Three are editors and publishers and the fourth is the head of a book publishing house. Two candidates for vice-president are Clevelanders.

In addition to James M. Cox, Dayton, Democratic nominee for president, editor and publisher of the Dayton News and Springfield News, and Warren G. Harding, Marion, Republican nominee for president, editor and publisher of the Marion Star, the new additions to Ohio's list are:

Max S. Hayes, Cleveland farmer, Labor Party's nominee for vice-president, editor and publisher of the Cleveland Citizen, a weekly labor paper, and Richard C. Barnum, Cleveland, Single Tax Party's nominee for vice-president. He is head of a book publishing company and is regarded here as the tallest candidate who has ever aspired to that office. He stands six feet eight inches in his stocking feet. He was born in Texas 39 years ago.

A Classified Ad will sell it.

# SUMMER NAVAL COURSES OPEN

WASHINGTON, Aug. 2.—Summer schools for the training of youths between the ages of 16 and 20 years have been opened at the Hampton Roads and Great Lakes naval training stations. Enrollments for the schools were received at the naval recruiting stations and the applicants were required to pass the ordinary qualifications for enlistment in the navy.

Provision for these schools was made in the last annual appropriation bill. Those attending are required to enroll for three months in the naval reserve force. They will receive the pay of apprentice seamen for the six weeks' course, amounting in all to about \$50 and also transportation back to their homes. In addition, the navy furnishes all subsistence, uniform and equipment.

While the schools will observe a naval routine in outdoor drills and exercises, there will be no "book" and it is proposed, officials said, to conduct them as much as possible on the lines of a "summer camp." Physical development, "education of character" and cultivation of naval traditions are set forth as the principal objectives. About 40 commissioned and non-commissioned officers have been assigned as instructors at each school.

While no actual cruises for attendants are planned, there will be numbers of small naval vessels available for their inspection and training in addition to yachts and other small craft for recreation purposes.

## MONTANA FREE FROM BAD FOREST FIRES

MISSOULA, Mont., Aug. 2.—Aided by more favorable weather than has been experienced in connection with forest fire fighting in the first district for a number of seasons, local headquarters officials have been able thus far to keep the damage done by the flames to a minimum.

A report made for 10 consecutive days recently showed that of 291 fires reported, only 13 burned an area of 10 acres each, and only five were on a larger area than that. The district includes Montana and northern Idaho. There are about 28,000,000 acres of national forest in the district.

The majority of the fires thus far have been caused by lightning, the district's campaign of education among sportsmen evidently having begun to show effects in the small number of fires caused by disregarded campfires or discarded cigarettes or matches.

There are 1,400 men in the forests of the district, of which 175 are rangers, 900 are smoke chasers and patrolmen and 325 are improvement men. The patrolmen, on horseback and foot, patrol the roads, trails, streams, lakes and railroads, covering regularly the beats assigned them. The rangers have charge of districts, comprising 100,000 to 400,000 acres. The improvement men, comprising the second line of defense, look after the telephone lines, improve the trails and are always accessible to the call of the patrolmen or smoke chasers when a fire assumes proportions such that they cannot fight it alone.

## RURAL CREDIT PLAN GROWS, MANITOBA

WINNIPEG, Man., Aug. 2.—(By Canadian Press)—Manitoba's rural credit scheme, now in its fourth year of operation, is to be investigated by a government commission from Ontario. The visiting commission will find that Manitoba has 55 local rural credit societies in full operation, having started out with one society in 1917, which had grown to 10 in 1918 and 39 in 1919.

Seventy societies are chartered at this time, but 15 have not commenced operations. About \$3,300,000 has been advanced in the four years to Manitoba farmers as loans to increase production, and the societies it is declared have yet to record their first bad debt.

In Geneva glass blocks are used to pave the streets. They are made of the refuse from the glass factories and give great satisfaction. They are pleasant to the eye and very durable.

In China, twelve and a half miles from the village of Lion-Chok, there is a mountain of alum, which, in addition to being a natural curiosity, is a source of wealth to the inhabitants of the country.

# SAGE TEA TURNS GRAY HAIR DARK

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses 'Wyeth's' Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

## FRANCE RECOVERING FROM WAR EFFECTS

PARIS, July 19. (By Mail).—"France is on the way to recovery," Eugene Schneider, the ironmaster told the delegates to the International Chamber of Commerce at its dedicatory session in the Sorbonne. He supported his optimism with figures on the reconstruction of the devastated regions. These showed that 2,412 factories employing 235 persons were operating in the invaded departments. This, however, was compared to 3,363 factories employing 668,000 before the war.

He gave two general indications of growing industrial force, first, the diminishing excess of imports over exports with a marked increase in the exportation of manufactured articles and second, the increasing excess in various taxes over the receipts estimated by the government.

Reclamation of the war-torn farmland, necessary to reduce the country's onerous importations of foodstuffs, was said by M. Loucheur to be encouraging. He said the devastated regions would produce two-thirds of a normal crop this year.

Several phases of Germany's failure to fulfill treaty requirements to France were cited by M. Loucheur. He said that instead of the minimum delivery of one and two-third million tons of coal monthly, France had received in seven months only an average of 671,300 tons.

### NOTICE

Notice is hereby given that sealed proposals will be received by the Board of Supervisors of the Klamath Drainage District of Klamath County, Oregon, for the construction of the works for the reclamation of the lands within the boundaries of said District according to the plans and specifications approved by the Board of Supervisors and which are now on file at the office of the Engineer of the District who is Mr. Don J. Zumwalt at No. 111 S. Fourth Street, Klamath Falls, Oregon.

Said proposals will be received up to the hour of two o'clock in the afternoon of the 14th day of August, A. D. 1920, at the office of the undersigned in the Court House in the City of Klamath Falls, Oregon.

Proposals are desired, on a cash basis and also on a basis of acceptance of the Bonds of said District at par.

The Board of Supervisors reserve the right to reject any or all bids not satisfactory to the Board of Supervisors.

The successful bidder will be required to deposit a satisfactory bond in the amount of twenty-five per cent of the Contract price conditioned that he or they will complete the said contract as agreed. Bids to be opened August 14th, 1920.

C. R. DELAP, Secretary Klamath Drainage District, Klamath Falls, Oregon, July 19-Aug. 12

### NOTICE TO CREDITORS

In the County Court of the State of Oregon for Klamath County. In the Matter of the Estate of Edna E. Kerns, Deceased.

Notice is hereby given by the undersigned, administrator of the estate of Edna E. Kerns, deceased, to the creditors of, and to all persons having claims against the said deceased, to present the same, properly verified, within six months after the first publication of this notice, to-wit: the 13th day of July, 1920, to said administrator at the office of C. F. Stone at Klamath Falls, Klamath County, Oregon, the same being the place for the transaction of the business of said estate.

H. J. MATTOON, Administrator of the Estate of Edna E. Kerns, Deceased, July 13-19-20-24.
