

## WIDOW'S MITE STARTS \$100,000 BUILDING FUND

The widow's mite was the first contribution during the intensive drive towards the \$100,000 goal set by the greater Sacred Heart academy and gymnasium campaign which was launched yesterday.

This good old widow woman who saved and sacrificed what she possibly could from her county allotment exemplified the fullest measure of charity, which is being made manifest in this noble work of education and enlightenment of the rising generation.

Promptly at 11 o'clock yesterday, a meeting of the women workers who were to canvass the Klamath Falls territory was called. Pamphlets of instructions, telling them of the part they were to play, and pledge cards for obtaining subscriptions were distributed. Many of these women have had previous experience on local drives, and entered into the undertaking with a seriousness of purpose and good-will that gives the organizers every assurance that the full amount will be realized in record time.

A committee of local business men will be formed in the near future to canvass the business district of the city.

The list of women workers follows: Mrs. A. J. Adams, Mrs. John Brett, Mrs. J. Bamberg, Mrs. G. A. Bellman, Mrs. Paul Bogardus, Mrs. N. H. Bogue, Mrs. M. A. Callahan, Mrs. W. Corners, Mrs. V. Daly, Mrs. Emil Dreher, Mrs. L. B. Hardenbrook, Mrs. Fred Houston, Mrs. M. P. Lavenik, Mrs. G. C. Lorenz, Mrs. C. P. Maguire, Miss M. McMahon, Mrs. M. Motebenbacher, Miss Ida Mochetta, Mrs. E. J. Murray, Mrs. Byron Noud, Miss Leota Noud, Mrs. John Noud, Mrs. G. Ott, Mrs. C. B. Otey, Mrs. F. B. Patty, Mrs. O. W. Robertson, Miss Viola Santamau, Mrs. M. Tighe, Mrs. Van Kralingen.

These women will act as chairmen of assigned sections and choose workers who will swing a network over these districts and call on each and every wage earner before the local campaign will be considered complete.

Due to the amount of preliminary detail work necessary on the initial day of the drive the women did not get under way until late in the afternoon, and some were unable to cover their allotted territory. The incomplete reports of the first day's pledges are: Mrs. A. Beck, (N. Y.), \$10; Mrs. W. C. Davenport, \$100; Mrs. N. E. Dennis, \$5; Mrs. J. Derivan, \$10; Mrs. J. H. Enright, San Jose, \$25; Mrs. Fred Houston, \$25; J. P. Kelley, \$100; John Kington, Rochester, N. Y., \$20; J. F. McGrath, \$500; E. E. McAndrews, \$25; Nellie McAndrews, \$25; Catherine McAndrews, \$25; Mrs. M. M. McAndrews, \$25; Mr. and Mrs. M. Motebenbacher, \$500; Mr. and Mrs. E. J. Mur-

## FIFTEEN NEW PASSENGER SHIPS FOR PACIFIC LINES

WASHINGTON, Aug. 5.—At location of 15 large passenger vessels, now building in Pacific coast yards, for service between Pacific coast ports and the Orient, was announced today by the shipping board.

Five will go to the Pacific Mail Steamship company, operating from San Francisco, and five to the Pacific Steamship company, operating from Seattle. The other five will be operated between San Francisco and Honolulu by the Matson Navigation company.

## R. R. BUILDER IS VISITOR

J. W. Kendrick, railway builder and an engineer of national reputation, accompanied by Mrs. Kendrick, are here in a private car for a view of Klamath county scenic wonders. Mr. Kendrick is a disciple of Walton and is trying out the reputation of Klamath waters as a lurking place of trout of extraordinary size and gameness. With his party he spent a day at Crater Lake.

The Kendrick party are touring the scenic spots of America. They leave tomorrow for San Francisco where Mr. Kendrick expects to have a pleasant visit with Charles S. Fee, the general passenger agent, with whom he started his railroad career. Both men have progressed far in their profession since their friendship formed, but it is current report that both started from the bottom.

Mr. Kendrick is consulting engineer for several leading eastern roads, and an expert in the railway building problems whose advice is widely sought. Last year he had charge of the building of a large South American railway.

## DARE DEVIL FLYER KILLED IN DROP

LOS ANGELES, Aug. 5.—Lieutenant Omer Locklear, noted "stunt" aviator, and Lieutenant Milton Elliott, his aide, were killed Tuesday when their plane crashed from a distance of 1000 feet.

Lieutenant Locklear was 27 years old and was born at Como, Tex. He leaves a widow, residing at Fort Worth, Tex.

Locklear, who had gained the sobriquet "Dare-Devil" because of his many thrilling stunts in the air, was engaged with Lieutenant Elliott in performing a feat for a moving picture concern. The accident occurred in the midst of huge oil tanks in the La Brea oil field near here.

At a distance of 1000 feet in the air he was given a signal by the motion picture director and started a nose dive. A battery of searchlights was playing on the machine and fireworks were being set off from the plane by Lieutenant Elliott. When he had dropped to within 200 feet of the earth Locklear was seen to attempt to straighten his plane out. He was too low, however, and crashed to the earth. Both aviators were instantly killed.

## TARRED KAISER'S IMAGE

GENEVA, Switzerland, July 17. (By Mail.)—Four students charged with tarring and feathering a statue of the former German Emperor have been sentenced by a Bonn court, according to a Basel dispatch, to terms of two years imprisonment and ordered to pay the costs of their trials.

ray, \$500; James Pelton, \$100; Mrs. George R. Phinegar, \$5; Mrs. E. Scanlan, \$50; Mrs. W. D. Stagg, \$10; William Tighe, \$100; John E. Tighe, \$100; Mr. and Mrs. Martin Tighe, \$100.

A get-together luncheon was held today for the volunteer campaigners at the Rex cafe. Yesterday's experiences were gone over and many little hitches were straightened out. The remainder of the afternoon was taken up with the matter of reorganizing the forces and tomorrow morning bright and early the workers will again take the field with renewed energy.

## CONSTRUCTION OF LINK RIVER DAM IS STARTED

A construction camp has been established by the California-Oregon Power company on the Link River dam site and work preliminary to the erection of the dam will start at once. The construction crew will number 100 at maximum and it is expected to keep it at that figure during the working season this year and until the dam is completed next year. The company's contract with the government calls for completion before the close of next year. Construction is in charge of John Boyle, the company's assistant engineer.

J. C. Thompson, division manager of the power company, said today that all conflicting interests had been reconciled. The only opposition that had progressed to the point of litigation, that of the Geary Investment company, land owners on the Upper lake who feared that the dam would raise the lake level and inundate their lands, has been stayed by stipulation. Mr. Thompson has held conferences with mill operators, personally or through attorneys and assured them that their interests will not be adversely affected by the dam building, and he says they will be no attempt from any quarter to hinder construction.

"We realize," he said, "that our interests and the interests of the lumber manufacturers are bound closely together. Should we interfere with their industry through either an abnormal lowering or raising of the lake level, we would not only probably become the immediate target for several heavy damage suits, but if the operation of the mills was curtailed or stopped we would lose valuable customers who consume much of our stock in trade, electric current.

"The installation of the dam will not change the lake level from its natural levels of the past. We neither intend to raise it to the maximum nor lower it to the minimum levels provided in the government contract. In other words, the status quo will remain unchanged."

The dam, it is estimated will cost \$80,000. It is comparatively a small undertaking, the top being 14 feet above the river bed at the highest point. It will consist of a series of concrete piers, with removable gates between, so that in periods of flood as much of the face of the dam can be removed as is required to keep the lake level normal.

The first work to be done is the clearing of the channel above and below the dam site, which with some foundation excavation will be one this year. The reef that extends across the river and forms a natural dam will not be removed until the dam is put in—that is next year.

During the construction the river will be shifted to one side of the channel and the dam built half across on the dry bed. Then the work will move to the other side, the river will be shifted back through the completed half and the other half completed.

## SERVICES SUNDAY ON CRATER LAKE RIM

A special meeting will be held on the rim of Crater lake next Sunday night, August 8, at 8 p. m., conducted by Rev. John W. Hoyt, Presbyterian Sunday school missionary for southern Oregon. This is the third annual service of song and preaching conducted on the rim by Mr. Hoyt, and the meeting will be held as in previous years, in the large reception room of the lodge. It is possible that one of the prominent ministers of the valley will be present to assist in the service. So far as possible christian people are asked to make a special trip to Crater lake at this time, and all who can sing or play a musical instrument are asked to make themselves known to Mr. Hoyt before the service, that a choir may be organized to lead in the singing.

## WEATHER REPORT

OREGON—Tonight and Friday, fair in the west unsettled in east portion; probably thunderstorms in the mountains; moderate westerly winds.

## 'REDS' CRUSH POLISH LINES ABOUT WARSAW

LONDON, Aug. 5.—Officials say the Polish situation is a grave one. It is said the situation is as grave as in 1914.

WARSAW, Aug. 5.—The Soviet armies, driving against the Poles defending Warsaw, are maintaining an average progress of six miles daily. The southern end of the line is the only place that they are being held, the Poles have retaken Brody, near the Galician frontier, and forced the Bolsheviks to retreat in that region. American aviators are fighting with the Kozziusko squadron and doing wonderful work, battling against the "Red" cavalry and infantry near Ikkize. The enemy losses are heavy.

WARSAW, August 5.—Poland's council of defense today dispatched a wireless message to Moscow informing the Bolsheviks that Poland was ready to send a peace delegation to Minsk. But two conditions are laid down by the council, one that the delegates be allowed to communicate freely with the Warsaw government, and the second that the Soviet agrees to accept in principle the terms that Poland proposes.

LONDON, Aug. 5.—Leo Kamenef, president of the Moscow Soviet, is reported to have sent a message to his government asking that Russia accept immediately the original British proposals for an armistice with Poland.

PARIS, Aug. 5.—England has taken steps to mobilize rapidly two divisions for service in Poland, according to the Matin, which adds that plans for transporting and arming this force are prepared.

## MEMBERSHIP CAMPAIGN OF C. OF C. STARTED

An active membership campaign was launched by the Klamath county chamber of commerce at their weekly luncheon yesterday, with the organization of a Ten O'clock club, the ten members of which are expected within ten days to bring in ten new members each. When each member of the club has secured ten new members he graduates and appoints a successor, on whom falls the duty of getting the next ten members. This member in turn, if successful, graduates and appoints a successor. The campaign is kept up until all membership prospects are exhausted.

The campaign is to begin next Tuesday at 10 o'clock. The club will meet weekly at this hour and the two hours before noon will be devoted to chasing down "prospects." At noon the campaigners will gather at luncheon for discussion with the general membership of the chamber the problems that have been encountered.

The club started off with enthusiasm, 16 members volunteering for charter membership in the Ten O'clock club. Ten were chosen to start the campaign and the others will get their chance to work when the first ten "graduate."

## SUSANVILLE-KLAMATH FALLS STAGE RUNNING AGAIN

The Susanville-Klamath Falls stage run, which was suspended temporarily not long ago, has been re-established, the route passing through Bieber and Pittsview. The trip is being made in one day, without stop-over privileges. This stage run was a source of much convenience to the traveling public, especially among the logging fraternity, and its re-establishment is expected to restore it to public favor, with a substantial increase in patronage.

## CANTU'S UNCONDITIONAL SURRENDER IS DEMANDED

LOS ANGELES, Cal., Aug. 5.—Representatives of the Mexican federal government today announced that unconditional surrender was demanded of Governor Cantu of the northern district of Lower California at the Mexicali conference recently. They said that Cantu was promised that he would receive concessions if he ceased his activities against the provisional government.

## IN LITIGATION OVER CONTRACT

Suit for \$14,660 damages has been filed in the circuit court by E. J. Jenkins against Louis and Edith Rahn of Swan Lake. Plaintiff alleges that through forcible prevention he has been unable to carry out a logging contract and will suffer loss of the amount asked.

According to the complaint Mr. and Mrs. Rahn last February entered into a contract with H. E. Crane of this city for the manufacture of the timber on their property, known as the Edgewood ranch. Crane was to put up a mill and defendants to furnish the timber, sharing the profits.

On July 14 last Crane executed a contract with Jenkins to cut the timber on the ranch. In pursuance of this contract plaintiff claims he purchased \$8000 worth of stock and logging equipment, but defendants have by forcible means prevented him from cutting or hauling any timber on their property. He says that he is losing money at the rate of \$240 a day and has lost \$2160 since the execution of the contract through this enforced idleness. He has been deprived of a season's work and by the end of the season will have lost most of the benefits of his contract he says, estimating this feature of loss to total \$10,000. His equipment damage and depreciation he figures at \$2160.

## FIRST SUNDAY MASS IN FORT KLAMATH

Mass will be celebrated at Fort Klamath next Sunday, Rev. H. J. Marshall officiating. This is the first time mass has been celebrated on Sunday in Fort Klamath and it is expected that there will be a large attendance at the services, which will be held in the town hall at 11 o'clock. Special singing has been prepared for the occasion.

## S. F. ATTORNEY FORMS LOCAL PARTNERSHIP

Augustine Donovan has arrived from San Francisco and has joined the legal fraternity of Klamath Falls. He will be associated with W. C. Van Emon. Mr. Donovan is a young man who already has made quite a reputation in San Francisco as a criminal lawyer and comes here only after months of negotiation and urging upon the part of Mr. Van Emon. He will look after the court practice for himself and associate.

## TEN I. W. W.'S IN JAIL, SEATTLE

SPOKANE, Wash., Aug. 5.—Ten men, said to be delegates from Industrial Workers of the World locals in Washington, Oregon and Idaho, were arrested today by county, federal and city officers, who dispersed a gathering of alleged members of the organization at a point seven miles northeast of here shortly before noon. They were placed in the county jail here.

## S. P. MEN LEAVE

James E. Kenyon and Bernard Answalt, of the Southern Pacific company, who have been on an official business trip to Kirk for the past three days, left this morning for San Francisco.

## POPULATION OF CITY IS 4,800 SAYS CENSUS

WASHINGTON, August 5.—The population of Klamath Falls, Oregon, was placed at 4,801 in figures issued this morning at 10:30 o'clock by the census bureau. This is a gain of 2,043 over the census of 1910, or 74 per cent.

WASHINGTON, Aug. 5.—Census reports give Klamath county a population of 11,413, and increase of 2,859, or 36.46 per cent since 1910. Bonanza is given a population of 77 and Merrill shows 237. The population of Klamath Falls by wards is not given.

WASHINGTON, Aug. 5.—Census figures issued today give Oregon 783,285, an increase of 110,520 or 16.4 per cent. In 1910 Oregon's population was 672,765, ranking it as the 35th most populous state. The new gain is the largest number yearly in its history, the number being almost double that of any previous decade.

In area, Oregon ranked as the ninth largest state in 1910 with a land area of 95,697 square miles, making its population average seven per square mile.

Klamath Falls' population is 4,801, an increase of 2,043 or 74 per cent.

Multnomah county's population, including Portland, is 275,898, an increase of 49,637 or 21.9 per cent.

The census figures will probably be unacceptable to a majority of Klamath Falls citizens who are interested in any degree in the census report. There were few who expected the report to show less than 6,000, and some persons had let their hopes run higher. Inquiries by the Herald have shown the percentage of persons who expected the census to run as low as 5,000 run about two in ten.

Doubtless the census does not show the present population of the city, as it was taken at a season when the industrial plants were idle or running only part capacity, and much of the summer population was in California or elsewhere. A census now would, of course, show more people.

## LEGION DELEGATES BACK FROM ASTORIA

Dr. Fred Westerfeld was the first legion delegate to return home from the state convention of the American legion at Astoria. He arrived Tuesday and reports that a lot of work was done there but only one that bore particularly upon problems in Klamath county—the resolution asking that all government lands for lease be opened first to ex-service men.

Dr. Westerfeld attended a dental convention in Portland just before going to Astoria and he finds it necessary to say "which convention," when one asks him what happened while he was away.

Coleman O'Loughlin has not yet returned having decided to visit in Seattle a few days, and Fred Nicholson arrived last night, as a day's stop in Portland delayed him.

The three delegates, led by Dr. Westerfeld, will give a full report of the convention at the next regular meeting of the legion.

## CHRISTIAN SERVICES IN BAPTIST CHURCH

Arrangements have been made by Rev. C. F. Trimble, pastor of the Christian church to hold services for his congregation in the Baptist church on Eleventh street, between Main and Pine streets. This arrangement was made because of the decision of the Christian congregation to build a new church. The structure heretofore used has been sold and the ground is to be cleared at once and the foundation laid for the new building. Work on the superstructure will not be undertaken until next year, but it is planned to utilize the basement for services until construction work is resumed. In the meantime the Baptist church will be used.

## MICKIE SAYS

HESSIE! THIS BUSINESS OF MAKING A BIG DRIVE ABOUT CHRISTMAS TIME IS U.O.—BUT TH' PELLER AT RUNS HIS LIL OL' AD STEADY ALL TH' YEAR ROUND IS TH' BIRD THAT REALLY KNOWS HOW T' ADVERTISE!
