HOME WITH THEIR DIPLOMAS

Miss Myrtle Griffin and Miss Anna Metcalf of the Golden Rule have just returned from a week's intensive study at the Gossard School of Cosmetology at San Francisco. They have received the diplomas awarded to graduate cosmeticians.

These diplomas are awarded only after the successful passing of the most rigid examinations in all branches of cosmetology, including, merchandising and other important subjects pertaining to the modern corset department.

Miss Metcalf says that modern hygienic corsetry as originated, developed and perfected in the Gossard Front-Lacing Corsets is a blessing to all womanhood. Miss Griffin is even more enthusiastic about the subject. She says that if more women will buy their corsets with a full appreciation of their importance, there will be fewer female invalids. Medical opinion is almost unreservedly in accord with that statement.

Miss Griffin and Miss Metcalf both say that style is simply a correctly poised body induced by a correctly designed and fitted corset. They affirm that they can give this illusive charm with perfect health and safeguarded health to every type of figure.

AT THE THEATERS

Another delightful comedy for admirers of Constance Talmadge may be viewed at the Star Theatre tonight, when Lewis J. Selznick will present Constance Talmadge in her latest Select Picture, "A Lady's Name."

A succession of amusing and exciting events showing the adventures of an enterprising and whimsical young woman who advertises for a husband is the theme of the story. She is Mabel Vere, a writer, whose reason for the advertisement is to secure material for a new novel. She is engaged to a somewhat priggish young man who naturally objects to her methods. After breaking her engagement with her fiancé, being blackmailed by a butler, and

changing her role from writer to cook she becomes engaged to Noel Corcoran, the third and last applicant to her aid.

POCATELLO, Idaho, Aug. 5.—Waste paper and cast off material of various kinds have provided about 25 youngsters of Downey, a town near here, with a vacation such as many "grown-ups" might envy. The boys, by collecting the waste materials and selling them, raised a fund of about \$500. With this they are defraying expenses of an automobile tour through the Yellowstone Park.

In the pulpwood industry pioneer conditions for the southeastern Alaska region have been met and overcome by the successful establishment of paper mills in nearby British Columbia.

You can make this surprising experiment in our store - The Test of the Two Violins

Violins differ subtly in tone! Test the New Edison Realism by that fact.

We have an "Ave Maria" RE-CREATION played by Albert Spalding with his Guarnerius. This famous violin has a brilliant, singing tone. We have a second "Ave Maria" RE-CREATION played by Carl Flesch with his genuine

Stradivarius. This violin has a rich, mellow tone.

Come in and compare these two RE-CREATIONS—tone for tone. If the New Edison makes clear the distinction between the singing Guarnerius and the mellow Stradivarius, you know it has perfect realism for you.

The NEW EDISON "The Phonograph with a Soul"

Albert Spalding himself recently took part in a test of the New Edison's Realism, at New York City. He played in direct comparison with the RE-CREATION of his performance by the New Edison. Mr. Henry Hadley, one of the jury of the three distinguished musicians who listened from

behind a screen, said: "The RE-CREATION matched Mr. Spalding's performance tone for tone." The New Edison is the only phonograph which has given this conclusive proof of its perfect realism. It has triumphed in 4,000 such comparison-tests.

PRICES! HALT!

Since 1914, the total price-increase in the New Edison has been less than 10%. Mr. Edison has, personally, absorbed more than one half of the increased costs of manufacture. He may not be able to do this much longer, but now—if you want today's prices. Our Budget Plan will help you. It distributes the payment over the months to come.
