FOR SALE—Second hand ice chest and fan. A1. Keep cool. See 1008 Main St. 2-7

MODEST BATHER CAN'T STAND PELICANS

SANTA MONICA, Cal., Aug. 4.—The stare of a large group of pelicans which gather every morning on the beach to watch H. L. Wright of Denver, Col., go through his daily calisthenic exercises has caused the Denver visitor to apply to the police for permission to carry firearms as a means of teaching the sea birds politeness. He declared that no matter what section of the beach he chooses for his exercises the gulls and pelicans congregate in a semi-circle and stare him out of countenance.

"I go down early in the morning so that I can exercise before bathers begin to come," he told the police. "But as soon as I begin my calisthenics all the sea gulls of the Pacific, it seems to me, float down, settle on the sand and watch me from a safe distance.

"Some of them screech at me and one old pelican gazes at me in fascinated silence. I came here to get well but that pelican is making a nervous wreck of me."

A Texan recently wagered a hundred dollars that he would smoke six cigars, twelve cigarettes, and six pipefuls of tobacco in a hundred minutes, and he won his bet with three minutes to spare.

FEW FOLKS HAVE GRAY HAIR NOW

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture, improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR

WORK PROGRAM FOR PALESTINE

JERUSALEM, July 18, (By Mail).—Ten thousand volunteers, chosen from veterans of the world war, the Jewish legion and skilled workmen, to enlist at once for 18 months service in a Jewish industrial army in Palestine, are necessary for the basic reconstruction work of the Jewish national homeland, according to Bernard A. Rosenblatt, president of the American Zion commonwealth, who is now in Palestine in the interests of "Balfouria," the colony of the American Zion commonwealth.

Mr. Rosenblatt recommends a regular army organization with a general staff of three which, as a Jewish industrial commission, will supervise the work of the Jewish labor army in rebuilding the holy land.

"Our biggest task, once the call is issued for volunteers, will be in sifting out the applicants and determining upon the 10,000 to go," he said. "They could all be occupied in the one task of building houses for future immigrants. The army should work only on land belonging to the Jewish nation, lands secured from the Palestine government, from the Jewish national fund, the American Zion commonwealth or other agencies of the Zionist organization."

In addition to the construction of houses, he points out that such an army would be busy in preparing land for immediate settlement, irrigation, afforestation, sanitation and engineering works necessary for the development of industry and commerce.

"The nucleus for such an industrial army is already in Palestine in the co-operative groups, working on the lands of the Jewish national fund and in the group that is developing 'Balfouria,' the first colony of the American Zion commonwealth," he concluded. "I am convinced after two visits to Palestine that only

through such a huge disciplined Jewish labor army, will we be able to reconquer the land of our forefathers."

CHINESE BANDITS TAKE DOLLAR SHIP

SHANGHAI, July 7, (By Mail).—Brigands who have terrorized the upper reaches of the Yangtze river in recent months found a sudden check put upon their activities when American and British gun-boats were dispatched into the upper river from Shanghai, according to reports that have filtered back to Shanghai.

The gun-boats were sent up to Chungking after a band of outlaws took possession of the Robert Dollar II of the Robert Dollar company of Shanghai at Wansien in Szechuen province, and were frightened away only by the timely appearance of the American gun-boat Palos which came in response to distress signals.

The Robert Dollar II, on the maiden voyage of the new up-river service the Dollar company is establishing, was fired upon from shore after the first encounter. Messages to Shanghai said that the bandits vanished into the hills on the appearance of the gun-boats.

Not many years ago Argentina had to import its flour. Today it sells wheat to the world, the value of the annual harvest amounting to more than \$500,000,000.

If the secret of using atomic energy were solved, instead of burning 1,000 tons of coal, the same amount of energy could be obtained from an ounce or two of matter of any kind. Approximately one-half of all the people in the world live in China and India.

Drinking a Glass of Hot Water is a Splendid Habit

Cleanse and sweeten the system each morning and wash away poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before eating more food.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all of the sour fermentations, gases, waste and acidity and gives one a fine appetite for breakfast. A quarter pound of limestone phosphate costs very little at the drug store, but is enough to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism an enthusiast on internal sanitation.
