TWO KILLED IN DENVER RIOTS

DENVER, August 6.—Fear that street car strike rioting which last night resulted in two deaths and injury to 34 persons will be resumed today, is expressed in official circles. The riots started late yesterday when cars manned by strikebreakers passed a parade of strikers and sympathizers.

The mobs partially wrecked the office of the Denver Post, which opposed the strike and attempted to burn the car barns. Every window in the Post building was broken, the presses hammered, and thrown in rollers and the composing room entered.

The fatalities occurred near the car barns. Several street cars were wrecked but the mob's efforts to burn the barns were unsuccessful.

Last night Governor Shoup, Mayor Bailey and other officials held a conference and decided not to call the troops but to rely on volunteers and special police. Up to noon no further attempt to run cars was made.

Two machine guns were turned over to the police by the national guard today.

Those many-colored, handy little motor baskets, which can be seen in the display windows of the Johnson Furniture Company on Main street, are just what you need when you go shopping. 6-11
