HAVE YOU INSURED YOUR HAY?

A spark blown about by a vagrant breeze, an almost unnoticeable smudge, a small blaze which rapidly develops into an uncontrollable fire, and your hay crop, representing months of care and hard work, is reduced to useless ashes. This is a frequent occurrence throughout the country. You can't bring back the hay, but you can recover its equivalent in dollars if you have had it insured, and dollars can buy more hay. If your hay is not insured, you lose heavily and irredeemably. The cost of insurance is nominal. Let us insure your crop in a company that is prompt and reliable. James H. Driscoll, Room 4, Loomis Building. 9
