

# WILL BUILD MUSIC HALL

UNIVERSITY OF OREGON, Eugene, Aug. 19.—Definite decision to erect a \$75,000 brick building to house the school of music of the University of Oregon has been reached by the housing committee of the Eugene chamber of commerce, notwithstanding the opinion of the state attorney-general that the plan to erect the building for university needs would be illegal.

The new plan as worked out by the committee will be to erect the building on ground adjoining the campus and to rent it to the university at a rate that will take care of the interest and annual payments on the property.

Immediate steps to organize a holding company will be taken by citizens of Eugene and it is planned to have the structure well under way when the university classes begin for the fall term in September. It is expected to have it completed by the first of the year.

While no definite site for the new building has yet been selected, a spot just south of the campus is said to meet with the most favor. Besides being convenient to other buildings on the campus, the new structure would be far enough away from other class rooms to practice work in music that would not interfere with other work of the university.

## ENGINEERING FACILITIES ENLARGED AT THE O. A. C.

CORVALLIS, Ore., Aug. 19.—With the completion of the new engineering building at O. A. C. the class room and laboratory space for engineering work will be doubled. The building will be ready for installing equipment the latter part of August, and ready for college opening this fall. The faculty has been increased 25 per cent and much new equipment added. Thus the school redeems its promise of adequate facilities for all Oregon young men that seek engineering education.

## OREGON COW MAKES NEW BUTTER RECORD

CORVALLIS, Aug. 19.—A new high-water mark in production by testing association cows in Oregon has been set by "Pennie," a grade Jersey in the dairy herd of L. A. McCormack of Tillamook. Pennie gave 1896 pounds of milk, 115:66 pounds of fat, in the month of June. About \$70 worth of fat alone in a single month. D. A. Wilbur, tester for the Tillamook association, reports an average yield of 40 pounds of fat. E. B. Fitts, in charge of the association testing for O. A. C. reports 166 cows in all associations for June.

### How She Proposes.

Women do propose though they do not say outright, "Jack, I love you! Will you please be my husband?" They sometimes do as did Alice and her friend Fred. They had been singing, and Alice searched through the music till she found a song entitled, "I am in love with you." Handing it to Fred she said "Do you know it?" Fred looked stunned, and ignoring the song she held out to him, he said, "No, I didn't know it, but I certainly am glad to hear you say so." And shortly Alice was wearing an engagement ring. But sometimes it works the other way. A young man was taking a girl home on a beautiful moonlight evening. Looking into his eyes she said, "Er—I'm not going to get married until you do." He asked why, and she replied "Because so long as you are single there is hope." But alas he took her home and left her there and never saw her again!

### Find Old Petroleum Deposits.

The asphalt springs of Hit, from which Noah probably obtained the "pitch" with which he made the Ark impervious to the "flood of waters," have now been thoroughly examined with a view to their commercial possibilities. The petroleum deposits of the land of Shinar, between the Tigris and the Euphrates, which furnished the "slime" that the descendants of Noah "had for mortar" in building the tower of Babel, have been measured as well as can be until the bit of the oil driller is sent down to prove whether the geologist is right. And the sources of bitumen which archeologists have found was used as cement in constructing the ancient palaces of Babylon and Ninevah have undoubtedly been located.

Notice is hereby given that on or before sixty days from the first day of July, 1920, the County Court of Klamath County, Oregon, will, in open Court, cancel all warrants in the hands of the County Clerk of said County, which have been issued and not protested for a period of seven years or more prior to the first day of July, 1920; also all warrants will be held for naught, and payment thereof stopped, where it appears that same have been protested for a period of seven years prior to the first day of July, 1920, and have been duly called by the County Treasurer but not presented for payment.

The following list shows the names of payees, date, number and amount of warrant as shown by warrants to be acted upon by the County Court as above stated.

**FIRST:**  
 Warrants received from the County Clerk but not protested:

Name	Date	Fund	Number	Amount
L. D. Burke	.....	General	25194	\$36.30
L. Ezell	.....	General	27222	6.80
J. E. Whitlatch	.....	General	27399	8.60
C. A. Arnold	.....	General	28251	75.00
E. J. Casebeer	.....	General	28428	3.50
F. P. Corpening	.....	General	28533	38.00
John Miller	.....	General	29016	4.90
A. Kinney	.....	General	29161	1.20
J. E. Ritter	.....	General	29253	1.00
F. E. Saxer	.....	General	29265	.65
Total				\$176.95

**SECOND:**  
 Warrants protested by the County Treasurer and called:

Name	Date	Fund	Number	Amount
Hiram Bushell	.....	General	27772	\$1.70
Chas. Pattee	.....	General	28155	18.00
Total				\$19.70

**THIRD:**  
 Warrants in the hands of the County Clerk:

Name	Date	Fund	Number	Amount
Abraham Charley	July 6, 1912	General	26392	\$2.20
J. H. Court	Sept. 4, 1912	General	26677	17.50
Frank Pine	Sept. 4, 1912	General	26771	1.70
John Pitt	Sept. 4, 1912	General	26880	8.00
H. M. Daniels	Nov. 7, 1912	General	27323	2.00

**WAS ABLE TO DIGEST STONES**  
 French Historian Has Left Description of Man With a Stomach That Was Remarkable.  
 Theophile Benoit, a French writer and historian, gives the following description of a true lithophagus or stone-eater, whom he encountered in the northern part of France. "This man," states Benoit, "who answered to the name of Brunda, not only swallowed flints an inch and a half long, a full inch broad and half an inch thick, but any stones like marble which he could reduce to powder. I examined this man with all the attention I possibly could, finding his gullet very large, his teeth exceedingly strong, his saliva very corrosive and his stomach lower than usual—a fact which I imputed to the vast number of flints which he had swallowed."  
 "Upon interrogating one of the stone-eater's friends I was told that Brunda had been found three years before in a northern uninhabited island, by the crew of a Dutch ship. 'I can make him eat raw flesh with the stones,' said the man who was acting as his keeper, 'but I could never induce him to swallow bread. He will drink water, wine and brandy, and appears to be very fond of the latter. He sleeps 12 hours a day, but always in a seated posture; with his chin resting on his knees. He smokes almost all the time that he is not asleep or eating.'"

**RUGS USED IN ALL AGES**  
 Ancient Chroniclers Have Left Accounts of Various Remarkable Products of the Loom.  
 In all ages rugs have been used for religious purposes. Up to the present time each member of the Persian and Mohammedan family carries a small rug for prayer. The Mohammedan, by means of a small compass, places the rug where the niche points toward Mecca, where the body of Mohammed lies. He then strips himself of all his jewels, combs his beard carefully, and then, with hands outstretched on either side, he prostrates himself and, with head on the earth, performs his devotions.  
 In Egypt Cleopatra had looms set up in her palaces for the weaving of beautifully designed tapestries. When Cleopatra wished audience with Caesar, she had a bale of rugs shipped via Mediterranean. When this was opened before the Roman emperor, a most superb rug was unrolled, and to

**IF KIDNEYS ACT BAD TAKE SALTS**  
 Says Backache is sign you have been eating too much meat  
 When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them; like you relieve your bowels; removing all the body's urinous waste, else you have a back-ache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.  
 Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.  
 Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.  
 A Classified Ad will sell it.

**Not a Bite of Breakfast til Water**  
 Says a glass of hot water and phosphate prevents illness and keeps us fit.  
 Just as coal, when it burns, leaves behind incombustible ashes, so the food and drink taken day after day leaves in the alimentary canal indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of leftover waste, toxins and ptomainelike poisons are formed and sucked into the blood.  
 Men and women who can't get feeling right must begin to take inside baths. Before breakfast each morning drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash out of the bowels the previous day's poisons and toxins, and to keep the entire alimentary canal clean, pure and fresh.  
 Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of Limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

**SNOW FLAKE SODAS**  
**Crisp, Dainty Crackers**  
 The appealing daintiness of Snow Flakes is due to their crispness, their lightness, their dash of salt! Pure, delicious, wholesome—let the kiddies eat as many as they like.  
 Don't ask for crackers—say SNOW FLAKES
