HYGIENIC SECRETARY SCORES MODERN DRESS

BELMONT, Man., Aug. 20.—"In Winnipeg one cannot tell on a Sunday whether the crowds with their X-ray blouses and cob-web stockings are going to church, to a comic opera or a midnight ball," declared W. J. Battley, general secretary of the Manitoba Social Hygiene association, speaking here recently. He strongly denounced the present day fashions and the modern dances.

"Modern dancing is not only robbing our teen age boys and girls of their morals to a great extent, but is undermining their health in other ways," he said.

TOURISTS BRING B. C. 20 MILLIONS YEARLY

VANCOUVER, B. C., Aug. 20.—Twenty million dollars is the estimated value of the "tourist crop" in British Columbia this year, according to calculations made by J. Reginald Davison, publicity commissioner for the city. He said calculations are figured on a very conservative basis. At least a third of this sum is figured as having come to the city of Vancouver, so that it is doubtful if any industry in the city, not excluding lumber and ship building, puts as much money into circulation in the city as the tourist "industry," according to Mr. Davison.

Fifteen water power projects in Alaska were developing a total of 37,350 horse power in 1917, for the region of southeastern Alaska. These plants furnish power for mining and various other industries. The largest plant in Southeastern Alaska develops 5,700 horse power.

The largest towns in southern Alaska are Juneau and Ketchikan, which lie at the extreme southern end of Alaska, only 670 miles from Seattle, and approximately only one-third of the distance from Seattle to Dawson on the Yukon River.

The forest service is allowed by law to sell stumpage only from the National forests. The purchaser of timber has no cut-over problem, as the government retains title to the land. Any legitimate use of the land incident to the development of the project is allowed at a nominal consideration, or for some uses, free of charge.
