## YANKEE SHIPS GET PREFERENCE IN RAIL RATES

WASHINGTON, D. C., Aug. 19.—

Provisions of the Merchant Marine Act giving preferential rail rates on export and import commodities carried in American bottoms are in line with practices adopted in Germany, Japan, France, Spain and other with practice adopted in Germany, man of the United States shipping board, declared in a letter to Commissioner of the Port, W. T. Christensen, of Seattle, Wash., made public here today.

These provisions were inserted by congress at the request of the shipping board, Admiral Benson said, and are designed to offset "the countless discriminations by other nations against American shipping with which the shipping board ships and privately owned vessels of the United States have had to contend."

"Allowing a differential export rate lower than the domestic rate upon the rail shipments within the country is purely a domestic prerogative," the chairman declared. "Each nation may unquestionably determine for itself that such rates may be made and that they shall be limited in applications to cargo carried in vessels of its nationals. The board of trade report to the British government made in 1918 regarding shipping policies conceded that the control of such practice cannot properly be made the subject of such a treaty."

Chairman Benson's letter was in reply to one from Commissioner Christensen who declared that since the major part of the Oriental commerce with Puget Sound was carried by foreign vessels, the enforcement of the discriminatory features of the merchant marine act might result in the diversion of that commerce to Canadian ports. Admiral Benson said that threats of foreign carriers to transfer their Pacific coast operations to Vancouver, should preferential rates be granted for American ships, were not worthy of consideration.

"Unless American ships be substituted for foreign ships in the carrying of the greater part of our oriental commerce," the chairman said, "the shipyards of Puget Sound which have given employment to many thousands of workmen, bringing abundant prosperity to your community, must close their gates, dismiss their employees and as an industry cease to exist. Few, if any, repairs to foreign shipping are made in American yards, nor does the use in our trade with foreign ships encourage the building of American ships in American yards, the benefits of which should be apparent to the merchants in other business interests of Puget Sound."

Discussing the giving of preferential rates in other countries, the chairman said that France had given a 20 per cent discount upon export freight moving in French vessels to New York and other ports, including those of Great Britain, and that Spain also was using that method along with many other preferentials in the way of subsidies and subventions with Spanish ships.

preferential rates within the United States for our own ships, to control the rail routings within the United States, and they have done so in many instances to the disadvantages of American ships and at times to certain American ports."

## PIGEONS WILL CARRY NEWS

NOGALES, ARIZ., Aug. 20.—An evening newspaper has just established carrier pigeon news service in conjunction with its news department. Thirty-six pigeons are housed in a roomy cot obtained through the local army post and located atop the newspaper building.

The service is intended for use by officers of the law and news men when they go into mountainous districts in Arizona or Mexico, where no telephone or telegraph is available. Arrangements have been made with the Santa Cruz county sheriff's office to carry one or more of the birds when on a man hunt in the mountains.

Private individuals will also use the birds when desiring to send back messages from inaccessible points of their travels.

Five of the pigeons were taken to Patagonia today for a test flight. They were back in their cot on the newspaper plant within 15 minutes of release. Patagonia is a mining camp in the mountains. By road, which winds and turns, the camp is 25 miles from Nogales. By airline, aviators have measured the distance as 15 miles.

This is said to be the first instance in the United States of a like news service being installed by a publisher in a city of this size.

TOKIO, July 18. (By Mail)—The renewal of hostilities in China has affected the Chinese students in this country severely. Many of them have been cut off from all communication with their homes and are in financial difficulties.

## SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs Kidneys, then the Back hurts

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulates them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
