Luxite Hosiery

The Idea That Won Millions

Never forget that hosiery plays a far more conspicuous part in your appearance than many a larger and more costly item of dress. Luxite Hosiery is made with this idea in mind; hence made as shapely as the curves of the figure, and in a texture so wonderfully fine and soft you can draw a pure silk Luxite stocking through your finger ring.

As for serviceability, there is nothing better. That's why we recommend these hose.

SCHOOL CONTRACT BID TIME IS EXTENDED

At a meeting of the school board held last night at the office of Miss Ida B. Moser in the Klamath State bank it was decided to allow the contractors to refigure on the school building for Fairview and the time was extended to a week from next Monday night. Bids were handed in

at a previous meeting but on account of there being no purchasers for the bonds all bids were rejected at that time.

It is rumored that the opening of the baseball season next spring may see Montreal again in the circuit on the International league.

TWO NURSES ADDED TO HOSPITAL STAFF

Miss Edith Swanbon and Miss Borghild Bue, both registered nurses, arrived on the train last night for duty at the Warren Hunt Hospital. Considerable trouble has been experienced throughout the country since the war in obtaining competent nurses, and the local hospital has shared somewhat in the discomfiture. However, the hospital authorities announce that their nursing staff is now complete. Miss Bue and Miss Swanbon are recent arrivals from the east, having graduated from Wisconsin. They have both seen army service, and come to the hospital very highly recommended.

LOCAL BUSINESS MEN UP IN AIR

For a good many years friends of a quartet of local gentlemen have entertained a suspicion that these prominent citizens had inclinations to be "high flyers." "Just give 'em a chance and see where they'll land," was the gist of public opinion.

Yesterday the suspicion became established fact when the four, yielded in a body to blandishments of temptation and were all up in the air for a while. They landed on the Allamont flying field.

Capt. J. W. Siemens, C. F. Stone, H. M. Ackley and L. L. Brownell all took a jaunt with Pilot Harding of the Oregon, Washington & Idaho company's Curtiss plane last evening and all enjoyed the experience. At the highest point in each of the four flights the plane reached an altitude of close to 4,000 feet.

N. R. Evans, representing the airplane company, is considering the formation of a local stock company to develop commercial aviation in the local field and considerable interest has been aroused among local financiers.

While the plane was recalled to Portland this morning by a telegram from the manager of the company, saying it was needed there over the week end, Mr. Evans is confident that it will be back here next week. Mr. Evans will remain here until the first of next week and then go to Lakeview for a few days.

The trip to Portland today will be made with only one interruption, a stop at Eugene. The pilot expected to make the trip in about four hours and a half.

ELECTION DATE FIXED AUSTRIA

VIENNA, July 15, (By Mail).—

It is now settled that elections for a new national assembly will be held the first week in October. Unless another crisis should arise, which is most unlikely in view of the present internal situation, the temporary cabinet that took office last week, will continue in power and carry out the non-partisan program agreed upon at its creation.

The wealth levy and constitutional reform, on which came the deadlock that resulted in the downfall of the Renner ministry, still occupy the leading place as issues. It was agreed upon that their consideration should continue and an effort be made to reach a compromise that will permit of passage in some form. The Social Democrats and the Christian Socialists supported by the Big German party, are so far apart, however, that an acceptable compromise of a workable character is regarded as unlikely.

The Social Democrats are unyielding in their insistence upon a compulsory fortune contribution that shall place the burden of the taxation upon wealth, landed and otherwise, while the conservative parties, united in this, declare that so radical a measure as that proposed shall never become law.

At present all parties are playing for position in the coming campaign and attempting to throw the burden of blame for the failure of the assembly to enact any of the vital measures before it, upon the other.

The Socialists at first attempted to eliminate themselves entirely from the new ministry. For 10 days they held out, wishing to compel the Christian Socialists and Big Germans to shoulder the government alone. The

political move in this was so obvious that the latter refused the trap and the so-called working cabinet resulted. In it the Socialists retain the portfolio of war, giving them control of the army, while the Christian Socialists have the ministry of the interior which means control of the police.

The state of politics in Austria may be judged by the importance attached to these two forces.

The Big Germans, heretofore unrepresented by a portfolio, consented to enter the temporary government and hold the ministry of justice. With elections three months away it is impossible to predict a result. The general belief is, however, that neither

of the dominant parties can secure a working majority. The probabilities are that the Big Germans will make some gains, in view of the persistent agitation for fusion with Germany or Bavaria, and again form a block that will hold the balance of power.
