### AT THE THEATERS

"The Last of the Duanes," is another of those sweeping dramas of the western plains, based on the novels of Samoy, and will be seen at the Liberty theater, tomorrow, Sunday. It runs approximately seven reels, and every foot of it is packed with action of a gripping sort, which keeps the audience in a pleasant state of suspense. It once more brings into play the activities of the Texas rangers, giving a historical background to the splendid panorama of events, all of which have a strong feeling of reality.

But the principal interest centers in the striking figure of the hero, Buck Duane, as impersonated by William Farnum.

Buck is the son of an outlaw, and the blood of the Duanes makes a killer of him in spite of his desire to live a peaceful life. His first offense is the shooting of Cal Bain, who has threatened to get him and thus forced the issue.

Buck flees from his home town, and follows the career of a hunted man along the Valley of the Rio Grande. His adventures with the Bland gang, the saving of Jennie Lee, and his subsequent alliance with the Texas rangers make a story long to be remembered. Buck clears his name and wins a pardon from the governor.

The ending is unusual and brings a laugh, for up to the very last it is not certain whether Buck has come home dead or alive.

John Emerson and Anita Loos, whose efforts for the last six months have been confined to providing Constance Talmadge with unusual screen material, have completed what is probably their most daring adaptation in "Search of a Sinner," which will be shown at the Star theater, commencing Sunday.

Many unusual angles make this play one of the most distinctive offerings to be shown on any screen during the past year.

#### DO GOOD MEN DIE EARLY?

For the first time, Miss Talmadge is shown at the opening of a picture as a married woman. She is young and beautiful and married at the age of twenty. Her husband is twice her age, an old fogey whose goodness bores his lovely wife. The Emerson-Loos collaboration cleverly made this unsatisfactory husband so good that the Lord put him away with the rest of the angels, thus leaving Constance Talmadge as the heroine of the story, free to romp throughout four reels of spicy comedy, searching for a sinner.

"I'm so tired of good men that I never want to see another as long as I live," says the dashing Georgiana as she heads for Central park bent on finding a man who will show her a thrill.

#### Windmill Generates Electricity.

The windmill has not been generally found available for the generation of electricity because of the irregularity of the air currents, but this has been overcome by a Swedish inventor. Instead of being directly connected to the dynamo in the usual manner, the mill-wheel shaft is geared to a hoisting device, which serves to elevate a two-ton weight to the top of a 53-foot steel and wood tower. When the weight reaches the maximum height, it is released, and, as it falls, actuates the dynamo, which is mounted on a bracket at the apex of the tower with the mill wheel. A storage battery and switchboard are housed in the lower portion of the tower.

Just Like an Apple to Marjorie. Little Marjorie, who is three, told her mother, the wife of a Muncie man, the other evening, that while the mother was uptown shopping she had been taken by a servant to call on her father in the latter's office.

"What time did you go?" asked the mother.

"Oh, in the core of the afternoon," replied the little girl.

"Mother doesn't understand what you mean by the 'core' of the afternoon." It was explained to Marjorie.

"Why, I mean the middle," she said simply, as wondering at the ignorance of grown folks.—Indianapolis News.
