SALE OF TIMBER KLAMATH INDIAN RESERVATION LITTLE SPRAGUE UNIT

Sealed bids in duplicate, marked outside "Bid Little Sprague Unit," and addressed to the "Superintendent, Klamath Indian School, Klamath Agency, Oregon," will be received until 2:00 o'clock P. M., Pacific time, Wednesday, October 27, 1920, for the purchase of the merchantable timber on about 3,600 acres on Sprague River in townships 34 and 35 South, Range 8 East, Willamette Meridian. This unit is estimated at 40,000,000 feet B. M., mostly western yellow pine of which about 5,000,000 feet is on about 450 acres of approved allotments, and as to which separate approved contracts with the Indian owners may probably be made. No bid will be accepted for less than \$4.00 for yellow and sugar pine and incense cedar, and \$1.60 for other species during the period of the contract ending March 31, 1924. Prices subsequent to that date will be fixed by the Commissioner of Indian Affairs for three-year periods. Each bid must state the rate per M that will be paid for each kind of timber during the first contract period ending March 31, 1924, and must be accompanied by a certified check on a solvent National Bank drawn in favor of the Superintendent of the Klamath Indian School in the amount of \$10,000.00. The deposit will be returned to unsuccessful bidders, but retained as liquidated damages if the successful bidder shall fail to execute contract and furnish satisfactory bond for \$15,000.00 within 60 days from the acceptance of his bid. The right is reserved to waive technical defects and to reject any or all bids. For copies of contract, regulations, fuller description of the area, and other information, apply to the Superintendent of the Klamath Indian School, Klamath Agency, Oregon.

Washington, D. C., August 10, 1920.

BRAZIL COTTON BUREAU STARTED

RIO DE JANEIRO, Aug. 25. (By Mail)—Increased and improved production of cotton especially in north-eastern Brazil, a great potential producing center which is at present quite undeveloped, is the object of a Cotton Service Bureau recently established by presidential decree.

The bureau will investigate the properties of the soil and climatic conditions, and establish experimental stations to study the culture of cotton and preventative measures against pests and plant diseases. Planters in the cotton zones will be provided with machinery, implements and fertilizers at cost prices, and establishments will be installed for preparing cotton for the market.

A representative of the big English cotton combine is now in the northern states making a special study of conditions.

"SEDITIONIST" FINED BY SINN FEINERS

MONAGHAN, Ireland, Aug. 10. (By Mail)—What is believed to be the first case of "sedition" against the Irish republic to come before a Sinn Fein court has been settled here.

A farmer who had been fined by a Sinn Fein court declined to pay and when visited by volunteers he produced a pitch fork and shouted "To the rotten Republican police."

The volunteers left, but later the farmer was arrested on a charge of sedition and compelled to pay a bigger fine and apologize.

An eminent professor recently stated that it was possible to lengthen one's life and improve the general health merely by tiptoeing for a few minutes every day.

Cheer up, boys! If you can hang on a while longer, maybe you will be nominated for the presidency.

THIS IS THE LESSON: INSURE YOUR HAY

"Ten Thousand Dollar Hay Crop Burned; No Insurance."

How often you have read headlines like the above. Do they mean anything to you? Do they mean like this teach you the value of protection—the necessity for adequately insuring your crop as a safeguard for you and your dependents? Fires start easily, especially in hay stacks, and they are impossible to quench after they have made the slightest headway. Is your hay insured? If not, see me, and let me company in existence. Jas. Driscoll, Room 4, Loomis Bldg., City. Phone 432.
