

**Keep Your Battery Young**

The only tonic any battery needs is a little charging now and then. Square treatment and a drink of water once a week go a long way toward keeping it in tip-top shape.

You can be sure your battery is new when you get it if it has Thru-rod Rubber Insulation—the kind selected by 136 manufacturers of passenger cars and motor trucks.

Now a Klamath Falls Citizen Found Freedom From Kidney Troubles. If you suffer from backache, From urinary disorders—From curable disease of the kidneys, Use a tested kidney remedy. Doan's Kidney Pills have been tested by thousands. Klamath Falls people testify. Ask your neighbor! Can you ask more convincing proof of merit? Mrs. J. A. Harrison, 226 9th St., Klamath Falls, says: "I can certainly recommend Doan's Kidney Pills for I know they are just as represented. My kidneys were weak and I suffered with such backaches that I could hardly keep on my feet. Frequent headaches kept me miserable and my kidneys acted irregularly and unnatural. I used Doan's Kidney Pills and they soon relieved the backaches and other signs of kidney complaint." Price 40c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Harrison had. Foster-Mulburn Co., Mfrs., Buffalo, N. Y.

**SAY NEW RATES SHOULD NOT RAISE PRICES**

Statements of Glenn E. Plumb to the effect that the recent increase in freight rates will mean a big jump in the cost of living for every family in the United States are denied by officials of the Southern Pacific, who asserts that the increase in general commodity prices should not be more than 2 per cent and that the ultimate result of improved railroad facilities would deal a blow at the well-known H. C. L.

Examples were cited to show that the actual increase on commodities with which the family purse ordinarily dealt would be negligible and at the same time the public was warned to beware of unscrupulous dealers who may be tempted to use freight rate increases as the guise for raising their prices more than they should.

Increase in the cost of living, if only the additional expense of direct shipment were to be reckoned with should amount only to about one per cent, in the opinion of the officials, but in such instances as canned goods, the final shipment is not the only one to be considered; there is a primary charge for shipment to the cannery, as well as the cans and box materials. Altogether, the officials believe two per cent is a safe figure for the increased effect upon the family purse.

Upon most of the articles of common day use, the transportation charge is so small as to be almost negligible and will have no effect on the family budget, they declare. On bulky articles, however, like coal, where transportation is an item to be considered in the process of production and distribution, the increase will of necessity mean higher prices. For example, the car load rate on coal moving from Castle Gate, Utah, to San Francisco, which is the ordinary rail haul, the freight charge formerly was \$5.80 and is now \$7.35, an increase of \$1.45 per ton.

The general opinion prevails that one of the reasons for the period of high prices was inadequate railroad facilities and congestion brought about by the demands of war. The freight officials believe that the peak of war inflation has been passed and that the general tendency of prices downward will be accelerated to the extent that transportation facilities are improved by the increased revenues the new rates will yield.

While the increase in passenger rates produce much smaller additional revenue than the new freight rates, they strike more directly at the average man's pocketbook. Even here railroad officials point out that while the man who earned \$4 a day five years ago, paid at the basic rate of 3 cents a mile, the same man today earns from \$7 to \$8 per day and even with an increased basic rate he is able to travel on a day's pay approximately 40 per cent further than five years ago.

**HULA DANCERS WIN BIG PRIZE**

PAPEETE, Tahiti, Sept. 1.—(By Mail)—Dancing girls of Papeete won a prize of 1,000 francs given the best hula dancers at last week's five-day celebration here of the Fall of the Bastille, the French holiday. At the celebration ancient customs of the Polynesian people were revived, the "himeles" or folk songs were given and the natives appeared in their dances depicting adventures and romances of the south seas.

Another prize of 1,000 francs, given for the best men dancers, went to a group from the Haapape district, who went through their symbolic motions of paddling one of their great war canoes and picturing the dangers met in journeying from one island to another. The men were dressed in the costumes of years ago and each carried a paddle with which he described the motions of the boat, the battle at sea, a fight with sharks and finally the landing.

Songs which originated years before the first white man sighted the islands were chanted at the celebration. There were songs of the poi poi feast, songs of kava drinking, chants of war and love ballads of the Polynesians. People of the islands do not sing their folk songs as they do in other countries. Instead of each singing the same notes in unison, there are at least twenty different parts, ranging from a low undertone by men to shrill calls by the older women and light melodies by the girls.

Street parades, the like of which probably cannot be seen in any other section of the world, opened the celebration. They were led by native musicians, whose instruments were oil cans or hollowed logs, with pig skins stretched across them, and beaten in monotonous rhythm. Following the drummers came the hula dancers grouped six abreast, zig-zagging back and forth across the roads singing their feast songs.

A fete in Papeete's lagoon closed the week. The natives draped their canoes with palm branches, banana leaves and tree ferns and, with torches for illumination, paddled recklessly from coral reefs to the shores, singing the native songs to the accompaniment of guitars.

**AGGIES PREPARING FOR GRID BATTLES**

CORVALLIS, Ore., Sept. 1.—Football men of the Oregon Agricultural College here are getting ready for the 1920 games of the Pacific Coast Conference. First practice will be held September 15.

New tackling dummies are being set up on the football field, charging machines are being put into shape and members of the squad and the coaching staff are beginning to report after their summer vacation absence.

Pacific University of Forest Grove, Ore., will be the first opponent of the Oregon Aggies this year. The game will be played here October 9. The Aggies meet the University of Oregon for the state intercollegiate championship here November 20.

Frank Munsey, now one of America's foremost newspaper and magazine publishers, tried his luck as porter, telegraph operator and grocery clerk before adopting journalism.

**WEATHER RECORD**

Hereafter the Herald will publish the mean and maximum temperatures and precipitation record as taken by the U. S. Reclamation service station. Publication will cover the day previous to the paper's issue, up to 5 o'clock of that day.
