HAVE YOU INSURED YOUR HAY?

Fires have caused more property losses than have been caused by all the wars, storms, floods and other agencies of destruction of historical record. Nothing is immune from destruction by fire, even though fireproof materials are above, below, or all around it. Think how easy it is to lose your hay crop through fire, for hay is one of the most combustible properties you can think of. Fire insurance would be your only protection against financial loss if your hay crop should be destroyed by fire. We offer you this protection through the most reliable insurance company in existence. See me, Jas. Driscoll, Room 4, Loomis Building.
