## We Try to Make You Like It

And our continuously increasing patronage assures us that our endeavor is successful. We are speaking about cafe service, of course. There's a world of force and meaning in the oft-given advice: "Practice what you preach," and that's applicable, figuratively, to cafes as well as to anything else. The supervisors of this cafe relish only the best, and are sure that their patrons desire the best also, and are entitled to the best, and the best is what you get at the

## LOG CRUSHES MAN AT KENO

Marion L. Griffin, aged 49, died this morning at 5 o'clock at Keno as a result of an accident yesterday afternoon while unloading logs.

Griffin, who was an employe of the Stewart-McCullum mill at Keno, was unloading logs when one of the logs rolled on him, breaking six ribs, his back and crushing his skull. The accident occurred about 2 o'clock.

Dr. E. D. Lamb was called to attend the injured logger, but his hurts were too serious to leave hope for medical aid.

The deceased man leaves a wife and six children in Grants Pass. Mrs. Griffin was notified of the accident and left Grants Pass yesterday at 4 o'clock arriving at Keno at 11 last night. She made arrangements for taking the body to Grants Pass.

## VERNON MANAGER DEPENDANT IN \$50,000 LIBEL ACTION

LOS ANGELES, Sept. 1.—"Babe" Borton, former first baseman of the Vernon team, today filed suit for \$50,000 damages, for alleged libel, against William Essick, Vernon manager.

The suits is based on statements made by Essick regarding Borton's charges that Vernon players contributed to a fund to aid the team to win the 1919 pennant.

Some women, like horses, can never be broken to trot in double harness.

If people wouldn't bite until they find out whether it is bread or stone there would be fewer dental parlors.

## FARMERS WILL BUILD HEAVILY

An attempt has been made by the forest service to get at normal and probable lumber requirements of the farming industry. The estimates of county agents indicate an average annual utilization per farm unit of about 2,000 board feet. For practically all the middle western section an increased future demand for lumber is predicted in order to take care of improvements looking toward better equipment and improved living conditions, provision for increasing population and the development of new farm units.

Due largely to inadequate transportation facilities, it is certain that many more farm storage buildings will be required this year than in the past. In many sections not all of the 1919 crops have been moved, to say nothing of the necessity of storing a goodly portion of those of the present season. The farms consume generally a very large aggregate of construction lumber, according to the recent report of the forest service. Cheap high grade building material has aided powerfully in the rapid development of farm lands.

There is no use to wait for building costs to shrink to their former level, for they will not. Neither wages nor material are going to perceptibly decrease in the next few years—the demand is too great for both.

The big problem of Pacific coast mills at the present time is more cars and such an adjustment of the new freight rates as will enable them to meet competition east of the Missouri river.

Relief is possible says Robert B. Allen, secretary of West Coast Lumbermen's association, if transcontinental lines can file tariffs yielding necessary revenue and at the same time restoring competition conditions in the large consuming territory from the Missouri river to the Atlantic seaboard.

## FOOTBALL FIELD IN GOOD SHAPE

UNIVERSITY OF OREGON, Eugene, Sept. 1.—Hayward field, the new athletic field of the University of Oregon, will be in fine condition for the opening of the football season this fall, the grass which covers the field having been watered and kept trimmed during the summer. A local airman observed that Hayward field was the greenest spot in the city of Eugene.

The field will not be used for practice this year, and only two or three games will be played upon it. Idaho and Washington are scheduled to play in Eugene this season, and an early practice game with Multnomah or Willamette may be scheduled.

## BIG FELLOWS TRAINING HARD FOR LABOR DAY

Change in the boxing program was made necessary today, when Hobby Wagner, who has been under the weather for several days, was pronounced by Dr. Campbell to be seriously ill with pneumonia. Matchmaker Smith started looking for a substitute and thinks he has a man who is an equal match for Kid Hartley and will be able to make definite announcement tomorrow.

With the dawn of the day of battle only five days in the offing, Earl Ritchie and Wild Bill Reed are training faithfully for the momentous occasion, and both boys frankly concede that this fracas will be the supreme test of their battling abilities. The boys are comparatively evenly matched in weight, height, age, experience, and in the desire to bring home the victory.

Ritchie followers are becoming more numerous as the days go by, and this is the natural sequence when his ring record is given a careful "double O."

Right in the midst of Ritchie's record are three "goes" with Champion Jack Dempsey, and even the Jack got away with the victories Earl made him travel at an unusually fast clip, and the victories were won by miserably scant margins. And, it must be conceded that, considering Dempsey's kayo record, any man who can evade Jack's sleep-producing hooks and make him extend himself, is entitled to be considered a top-notch in the ring game.

Earl says he is out to win, and that he is going to win, and at the same time modestly admits that Wild Bill will be a mighty serious contender in this rumput.

Ole, the Swede, known off the boards as Dave Williams, who played here Monday night, was corralled in the lobby of the White Pelican hotel yesterday and was induced to loosen up on the fight situation in general, and this one in particular. "Ole" has witnessed several battles in which these boys were engaged and it is his opinion that it will be a wild and woolly go. For aggressiveness and earnestness he believes this bout will shade the Dempsey-Misake bout far, as he says, neither Ritchie nor Reed have done any backsliding in their fistic careers, and as the boys are remarkably shifty for big men and from all he has been able to learn, have never made the acquaintance with the word "quit," that is, when the word "voluntarily" was connected with it.

Wild Bill isn't saying a great deal, but there's a whole volume in what he does say, and the essence of his statement is that he is going to win the bout or "bust" a vertebrae trying. It looks as though it is going to be a scrumulous affair.

Two live preliminaries head the card, and the referee and two judges will be chosen at the ringside. Hostilities will commence at 8:30.

Tickets will be on sale Thursday at the Jewel and Rex Cafes, and reserve orders from outside places, including Weed, Bend, Sacramento, and Dunsmuir are coming in by mail and by wire.

From all indications the S. R. O. sign will be in evidence as soon as the bouts get under way.

## CAN'T FIND HOME; EDUCATOR RESIGNS

Because, he asserted, he was unable to find a dwelling for his family in the city, J. D. Koch, for the past three years commercial instructor at the local high school, this morning handed in his resignation and departed for California. Mr. and Mrs. Koch have an orchard near Exeter, Cal.

Mild consternation was caused among the directors by the resignation. It is hoped that if a home is secured Mr. Koch may be prevailed upon to return.

Necessity knows no law and is usually too poor to hire a lawyer.

A man full of himself is as disagreeable as a man full of whisky.

There is more action in an ounce of kitten than a ton of elephants.

If a man is wise he never jars a hornet's nest to find out what's in it.

If you take care of the pennies the dollars will probably be blown by your heels.

The home rule party in this country consists of women.

Women seldom mean the pleasant things they say to other women, or the unpleasant things they say about men.

## SCHOOL TIME IS MUSIC TIME

All Music Teachers agree that a piano in the home is a necessity if you would have success in Music therefore if you have not already purchased an instrument permit us to show you the finest and largest stock of new and used pianos in Klamath County. "Do not put off until tomorrow what should be done today"
