FRIDAY, SEPTEMBER 3, 1930

FIGHTERS ARE EVEN MATCH

After thoroughly digesting Wild Bill Reed's ring record, the one big, indestructible impression remaining with you is that the Reed-Ritchie scrimmage on Labor day will be an exhibition of skill, hitting ability, endurance, and aggressiveness such as fandom has seldom been privileged to witness. The principals in this bout are as evenly matched physically as it is possible for them to be. By a singular coincidence, Ritchie's measurements, with the exception of a fraction of an inch here and there, are identical with Champion Jack Dempsey's.

Localities who saw Ritchie dispose of Soldier Marples in this city not many months ago cannot figure where Reed has the bulge on him. In this fight Ritchie bested a man who was hard as nails and fit to battle from every standpoint. His three terrific battles with Dempsey, his four-round bout with Phat Willie Meahan when the latter was at his best, and his bouts with Sailor Petroskey, Jimmy Barry, Terry Kellar, and a host of others stamp him as a fighter who must be accorded a whole barrel full of consideration in any fight.

Local boxing fans are about evenly divided in their opinions regarding the outcome. In the Rex cafe, the other evening, just about the busy time of the day, a straw vote was taken, and out of 32 men and three women approached in the matter 15 believed that Reed will win, and 16 were for Ritchie. The other four didn't know what to think about it, and it is evident that it will be a toss up, with the element of luck playing an important part in the outcome.

Ritchie, being a local boy, naturally has a long list of admirers and well-wishers, and as he now holds the title of coast champion, he is going to do his best to retain it, and to show his friends here that their confidence in him has not been misplaced. Ritchie is feeling fit as a fiddle and, as he says, the man who beats him will know he has been in a fair-to-middlin' scrap before the decision is announced.

The semi-windup for this card will be a six-round affair between Durward Howell and Lester Hill, two energetic, clever 130-pounders of this city. These boys are two of the likeliest prospects in the flint line that have been seen here in a long time, and the six rounds they are billed to go will be worth a million dollars a minute to anybody who likes to see plenty of action and ambition in the roped arena.

Two flyweights, George Sherman, 97 pounds, and John Bean, 95 pounds, will make local ring history for four rounds. These little fellows mean business, and it will be a half-a-million battle clear to the end of the last round.

Riley Loomis and Leodor Gerue, the two bantams, who put up such a willing battle during the last fight program here, will mix it again on this occasion. Their battle was called a draw the last time, and each lad is intent upon landing the decision this time. This go will be a beauty.

Tickets are going fast, both the Jewel and Rex cafes reporting a large number of sales. Ringside tickets are in demand, and it will be necessary to acquire a little speed if any fight fan wants to be sure of getting one.

Matchmaker Smith has received several offers from top-notch fighters who want to meet the winner of the main event, and more good fights are in the horizon.

It is not so very long ago that copper was used in Sweden as the chief medium of exchange, and at times merchants had to take wheelbarrows with them when they went to receive payment of considerable sums.

ANOTHER SCRAP DUE CHICAGO'S "GOLD COAST"

CHICAGO, Sept. 3.—"Streeterville," in the "Deestric of Lake Michigan," a part of Chicago's famous "Gold Coast" is about to be the scene of the thousand and first battle in his history, according to notice served on United States Marshal Bradley by Captain George Wellington Streeter, 30-year-old claimant to a \$50,000,000 portion of the exclusive Lake Shore Drive section.

"Cap" Streeter and William H. Niles, one time "military governor" and commanding general of the army of the "deestric," having notified the federal authorities that they are about to again try to enforce their claim that Streeterville is not in any state in the union, have invited the American Legion to assist them and set the date for the opening hostilities as September 6. A letter to the Legion post, a copy of which was also sent to Marshal Bradley, invites former soldiers to "meet me at the foot of Superior street in uniform, armed and carrying a flag, and help to end by force of arms the treasonable acts of judges or stand against a wall before a firing squad." A postscript invites the legionnaires to bring their lunch.

Captain Streeter has been fighting since 1886 to establish his claim to one of the most valuable sections of Chicago's lake front. In that year his steamer, the Reutan, stranded on the beach during a storm. Captain Streeter built a breakwater about the stranded boat, 450 feet off shore, and made it his home. The rapidly shifting sands filled in the space between boat and shore and added 193 acres to the city's area. To this land Captain Streeter laid claim, and in the next quarter of a century battles by two hundreds were fought in an effort to oust him.

On one occasion 500 police besieged Streeterville. "General" Niles proclaimed himself "military governor of the district of Lake Michigan" and with 50 men of his "escort" erected breastworks surrounded by barbed wire and stood off the police for several days, before desertions in the ranks so weakened the defending force that a lone policeman finally executed a flank attack and carried the fort.

The courts in 1915 ruled that Streeter had no title to the property and his brick castle, which had succeeded the steamboat home, was wrecked by deputy sheriffs and then burned.

In 1902 Streeter and two friends were convicted of manslaughter in connection with the death of John S. Kirk, killed in one of the frequent assaults on the castle. All were sentenced to life imprisonment, but after a few months were released.

The site of the "deestric" is now covered by more than a dozen skyscraper apartment buildings and hotels. The land is valued at more than \$50,000,000. Many of the present owners have purchased deeds from Streeter as well as the state in order that their occupancy may not be interfered with by the 80-year-old fire-eating veteran.

Streeter's claim is based on the contention that the act creating the state of Illinois fixed "meander line" of his lake as the boundary, and that therefore his "deestric" was outside the state and owed allegiance to no one except the United States. The courts held, however, that Illinois extended to the center of Lake Michigan, and that all land created by natural accretions of the lake belonged to the adjoining property owners; and that all land created artificially belonged to the state. The stranding of Streeter's steamship created land artificially, it was held.

SUES TO SECURE LUMBER OR CASH

The Crater Lake Box company has filed suit against H. E. Crane and Louis and Edith Rahn, to replevin 300,000 feet of sawed lumber, which it is alleged defendants are withholding from Plaintiff, in violation of a contract for its delivery. A value of \$9,000 is placed on the lumber, and Plaintiff asks for either the lumber or the money.

In a suit of Crane against Rahn, filed recently, the former alleged he was willing to deliver the lumber, wanted to badly in fact, but the Rahns had taken possession of it and refused to allow him on the premises.

A natural curiosity of Japan is the "insect bell." It is a black beetle, which emits harmonious sounds like those of a little silver bell.

MAIL ORDERS PROMPTLY DISPATCHED

LAST DAY OF INSTITUTE

Public schools should bear a larger share in teaching the necessity of social hygiene, was the message delivered by Dr. Grant, of the state hygiene society to the teachers of the county institute, and a few parents and others who responded to the invitation issued the public yesterday.

The development of the race demands attention to this subject, and teachers should not leave enlightenment entirely with the parents, said Dr. Grant, who delivered an interesting and instructive address on the subject.

The teachers elected officers today as follows: J. B. Rees, president; Miss Twyla Head, secretary and treasurer. Robert Goetz was chosen delegate to the state teachers' association convention, with Mrs. Wood and Fred Peterson as alternates.

Sectional meetings occupied the remainder of the day, the final day of the session. Many of the teachers plan trips to Crater Lake and the lava beds, some leaving today. Others will go tomorrow.

Last evening the visitors were entertained by the chamber of commerce with a trip through the industrial district by automobile and sight-seeing among the plants, followed by a dance at Parker's pavilion.

GUAM ALONE HAS NO SONS IN L. A.

LOS ANGELES, Sept. 3.—The belief, held by many residents of Los Angeles, as well as by people in many other parts of the United States, that Iowa had contributed more citizens to the permanent population of this city than any other state in the union, was disproved by the census figures.

Of the 575,480 residents credited to Los Angeles, Illinois lost 39,083; Ohio, 30,792; New York, 29,644; Missouri, 23,644; Pennsylvania, 21,169, and Iowa, 21,071.

Every state and territory of Uncle Sam's found representatives in Los Angeles, except Guam, the little island in the mid-Pacific.

WEATHER RECORD

Hereafter the Herald will publish the mean and maximum temperatures and precipitation record as taken by the U. S. Reclamation service station. Publication will cover the day previous to the paper's issue, up to 5 o'clock of that day.

	Max.	Min.	precipitation
Sept. 1.....	88	49	—
Sept. 2.....	89	55	—

When showing the violet shade, the thickness of the film of a soap bubble is only about one million two hundred and forty thousandth part of an inch.

CAL. PRINTERS IN WALKOUT

SACRAMENTO, Sept. 3.—State printing department employees, both men and women, who walked out yesterday will not return to work until Carleton Johnson, head of the proof room, is reinstated. This decision was announced after a mass meeting today.

Johnson was suspended by State Printer Robert Telfer for signing a communication on behalf of the employees in which charges of misconduct in the state printing department here were made.

SACRAMENTO, Sept. 3.—Agitation among employees of the State Printing office reached the stage of a physical encounter Wednesday afternoon when foreman J. W. Bowman and Jack Welsh entered the office of Carleton Johnson, head proof reader who recently signed a 28-page communication, representing the employees and sent it to the State Board of Control. The communication demanded the dismissal of State Printer Robert Telfer and the immediate granting of the Saturday half-holiday on full pay.

Fists were brandished in the air and strong language used, but the enraged men were separated by fellow employees. Bowman then informed Johnson that he was discharged for "inefficiency of management and disobedience of orders practically amounting to insubordination."

The controversy had its origin in the demand of the employees for a Saturday half-holiday on full pay. State Printer Robert Telfer declined to grant this concession and feeling daily is growing more bitter.

The State Board of Control is considering the petition which makes some grave charges against Telfer. He is accused of neglecting official work for private business and also is described as an "ingrate to labor."

AUTO ACCIDENT ON TOPSY GRADE

Mr. and Mrs. H. L. Frain were in town yesterday from their ranch near Topsy, California. They report a slight accident to a tourist and his wife and two children on the grade. They were coming down Topsy grade in a Ford car when the brakes gave away. The man whose name was not learned steered his car into the bank and the impact turned the machine over on the occupants. Two little girls jumped out and one of them was unconscious for a short time but other than that none of the party was seriously hurt.

VISITING TEACHERS

Are cordially invited to visit our music store and secure a free copy of the book "The Victrola in the schools" and other literature on school room music. 507 Main Street, Earl Shepherd Co.

TOO LATE TO CLASSIFY

We wish to express our heartfelt thanks to those kind neighbors and friends who assisted us in our sad bereavement.
Mr. and Mrs. W. C. Ezell.

The Kellogg apartments for lease by owner. Apply at 813 Pine. 3-10*

LOST—Between 8th and Jefferson and Central garage, one red boot. Phone 2502. 3*

OFFICE ROOM FOR RENT—Call 205 South Fifth street. 3-1f

AND TELEGRAPH CO.

Watch K. Sugarman's windows. 3-4

FRESH FRUITS IN MID-WINTER

WASHINGTON, Sept. 3.—Fresh berries and cherries in midwinter are possible, the experts of the Department of Agriculture announce after extensive experiments. Successful methods of storing fruits and berries in frozen condition have been demonstrated and, the government experts say, these should be more fully utilized in relieving the market of surplus receipts of highly perishable fruits while in sound, edible condition. They declare that preservation by freezing is cheaper than canning, especially, when tin containers are costly, as at present, and an important industry of steady development is looked for in this line.

Fruit held at proper temperatures, the experts say, has a more natural flavor than when canned or dried and is fully as satisfactory as fresh fruit, is superior to canned and dried fruit in making ice creams and sherbets and for cooking in the form of pies, preserves, jellies and other desserts and confections.

Strawberries, red and black raspberries, blackberries, loganberries, blueberries, gooseberries, currants and sour cherries have been found to keep successfully after being frozen. Berries can be frozen in the crates in which marketed in temperatures from 10 degrees Fahrenheit to zero and below and withdrawn from cold storage when wanted. The fruits become waterlogged when taken out and collapse and therefore must be used immediately. Government experts say, however, that they retain their natural flavor and in every way are comparable to the best fresh product.
