HOT WATER FOR SICK HEADACHES

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headaches are caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilid, aspirin or the bromides, which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphated hot water cure to rid your system of toxins and poisons.

tax for certain forms of semi-professionals and many kinds of new business licenses are to be imposed.

About 36,000 enumerators will be employed next year in taking the decennial census in Great Britain.

Braille characters are, of course, read by the fingers, but one armless blind man has been taught to read with his tongue.

In Bilbilid, Filipino prisoners, both men and women, are allowed a certain number of cigarettes a day at government expense.

HAVE YOU INSURED YOUR HAY?
Fires have caused more property losses than have been caused by all the wars, storms, floods and other agencies of destruction of historical record. Nothing is immune from destruction by fire, even though fire-proof materials are above, below, or all around it. Think how easy it is to lose your hay crop through fire, for hay is one of the most combustible properties you can think of. Fire insurance would be your only protection against financial loss if your hay crop should be destroyed by fire. We offer you this protection through the most reliable insurance company in existence. See me, Jas. Driscoll, Room 4, Loomis Building.

About Other People-- and About You!

There are two kinds of news in the paper. Part of the news is about the affairs of other people; their sayings, doings and goings to do; things that have happened—may happen—didn't happen.

But there's also a lot of news in this paper—if you know where to look for it—about your affairs.

That's the part of the news you'll find in the Advertisements. There's valuable news there about things you want or will want; perhaps about things you have that others want.

Every Advertisement carries a message to someone. Many Advertisements carry messages of interest or value to you. You can't afford to miss the Advertisements because so many of them are news relating directly to you or to your affairs.
