HAWKINS BUYS FINE HERD OF HOLSTEINS

W. H. Hawkins, of the Hawkins dairy, has just purchased a herd of registered Holstein cows from Charles Lewis, who operates a ranch near Merrill. This is admittedly one of the finest herds of cattle in Klamath county and will be a noted addition to the Hawkins herds.

The speed of an otter under water is amazing, fish having no chance against him. In some places in India otters are kept by the natives to catch fish for them. They are tied to stakes like dogs when not working, wear plaited straw collars, and seem happy.

PURE BLOOD URGED BY GOVERNMENT AS LIVESTOCK IDEAL

IN CLOVER

REGINA, SASK.—J. C. Robertson, provincial commissioner of agriculture, said recently in a review of the livestock industry, that the value of cattle in Saskatchewan would be increased \$30,000,000 if purebred bulls were used in all herds.

"Many purebred sires were distributed among the farmers by the government," said the commissioner. "Grade females also were bought for cash and sold on easy terms of payment to breeders. Grade ewes were sold on a similar plan. New blood was introduced into the flocks by the importation and distribution of purebred rams. Much work was done toward the eradication of stock diseases. The examination of stallions has been carried on energetically and the unit have been weeded out by refusal of certificates to owners. Livestock in western Canada is gradually working toward a pure-

THOR, PUREBRED

bred basis." The Canadian government for years has conducted a campaign of education and financial assistance to farmers in an effort to get the horses, cattle, sheep and hogs of the province to as nearly a pure-

bred standard as possible. As a result, scrub animals have been almost completely eliminated. Much of the livestock has a good percentage of pure blood and purebred herds of all kinds are now widely distributed.
