SACRAMENTO, Sept. 16.—A near double tragedy was enacted in the Sacramento bank building at Fifth and J streets early Monday when Ralph Knight of Oakland went on a wild rampage with a revolver and attempted to kill Frank Gafney and H. N. French, attorneys.

Three bullets fired at French and

two at Gafney went wild and penetrated a bookcase and a side wall. The gunman, following the shooting, surrendered.

Gafney, as referee in a property dispute, had incurred Knight's enmity.

WOODLAND, Sept. 16.—Andrew Yeager, itinerant, aged 48, who went on a hunger strike when he was arrested on a vagrancy charge and

lodged in the city jail about 15 days ago, died Monday at the county hospital.

SACRAMENTO, Sept. 16.—General denial of the charges of insubordination and inefficiency made against him by State Printer Robert L. Teller to obtain his dismissal from the state service, is made by Carleton H. Johnson, suspended head of the proof reading room of the state printing plant, in his answer filed Monday with the state civil service commission.

SACRAMENTO, Sept. 16.—Commissioner of Public Health and Safety Charles A. Biles reported adversely Tuesday upon the petition of cemetery superintendents for the passage of an ordinance prohibiting Sunday funerals.

A petition to this effect was presented to the commission last week. It seeks to revive a movement begun in 1918 for enactment of a law prohibiting Sunday burials in the city.

SACRAMENTO, Sept. 16.—Smashing all records in the point of attendance and the value represented in the products and resources of California, the 1920 state fair was brought to a close Sunday night amid a spectacular flame of fireworks. There was a high pitch of praise over the success of what is conceded to have been the best yearly exposition covering a period of more than half a century.

HAS SUPERB WATER POWER

That of British Columbia is Said to Equal Five Niagaras in its Possibilities.

The potential water power of British Columbia, experts declare, is equal to that of five Niagaras. Pouring down from the mountains comes enough water to develop 3,000,000 horse-power. Niagara falls, when all the water that is available on the Canadian side has been harnessed will produce only 650,000 horse power.

Only 125,000 electric horse power is now developed by the plants supplying Vancouver, New Westminster and the towns in the vicinity. This power turns the wheels of mills and factories, propels the street cars of these cities and provides lights for the streets and homes. If the entire wealth of British Columbia in water power were harnessed it would be sufficient to develop power, light and heat for 40 cities the size of Vancouver and New Brunswick combined. With this cheap power available, economists predict that some day the province will become one of the greatest manufacturing centers of Canada.

Fine Tune Will Live.

Probably the majority of churchgoers will agree with the vicar of Wellborough in his refusal to allow the church bells of his parish to ring out "Tipperary" in honor of the great peace, for in these matters one must of course draw the line somewhere.

Yet, when the vicar asks: "If 'Tipperary,' why not 'Tommy, Make Room for Uncle?'" the analogy is not very apt. Both songs, it is true, are not well, classical music. But the glorious associations of "Tipperary" have raised it far above such criticism; and though the famous tune may never reach the height of a church belfry, it is, nevertheless, likely to go down to posterity as the immortal "Marseillaise" of the Old Continentals.—London Chronicle.

Happy on His Way.

In one of the Indianapolis schools recently the teacher announced to her pupils that they would study China during the afternoon, and told the children to bring various products of the country. Very excitedly a little chap rushed into the grocery store and told the grocer to give him a nickel's worth of saffron, as he was to study China at school, and the grocer told him she must have said Indiana, but he gave him Gunpowder and Imperial mixed, instead of the good old Hoosier product, and sent him happily on his way.

A One-Funnel Cunnard.

The new Cunarder Seythia, according to an English newspaper, is to have only one funnel, for all her 20,000 tons. Time was when a liner's standing was in direct ratio with the number of her funnels. Four funnels indicated A1 rank. One famous steamship was, it is said, equipped with an unnecessary fourth funnel simply for appearance's sake. But now, it seems, the funnels are to go, for only one is really necessary.—From the Outlook.

Seals Migrate Early.

The protective measure adopted by the government for the benefit of the seals in American waters has been entirely successful, as indicated by the great number of animals seen to be migrating to the Arctic seas. The migration was three weeks earlier than usual, and an unusually large number of animals were noted on their way to the north.

COMB SAGE TEA INTO GRAY HAIR

DARKENS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur. An easier way is to get the phur recipe at home, though, is to use the preparation improved by the addition of other ingredients, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it is done so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes dark, glossy, soft, and luxuriant, and you appear years younger.
