

The First Touch Tells

The minute a good musician places her fingers on the keyboard of one of our pianos the first touch tells them it is a real quality instrument for the price.

Musical instruments with us are not just a sideline to be handled like hundreds of other commodities but they reflect the study you would expect from "Fifty Years, One Business, in One Family."

Naturally with our convenient terms and over twice the stock of all other dealers combined our store is the logical place to purchase.

Remember! We are always glad to show you our stock whether you care to buy now or later.

painful bump on the head. Mrs. Windham stepped from the curb to the street as the truck started to turn the corner. She saw its proximity and started to dodge back. The result was the collision. Mrs. Windham's husband works at the O. K. blacksmith shop. Dr. A. A. Soule treated Mrs. Windham. He said the injuries are not serious.

WEATHER REPORT

OREGON—Tonight and Tuesday, rain.

150 Shaves!

Every tube of Purolo Shaving Cream contains the "makin'" for about 150 cool, satisfying shaves. Each particle of cream multiplies itself hundreds of times with water.

We waited years before we put out a "Purolo" Shaving Cream. We were not satisfied to put the "Purolo" name and guarantee on record until we had a cream that represented a real improvement.

Now, make this test! Take a several days growth of beard—those boasting of tough, wiry beards, especially invited. Use hot water and a pinch or so of Purolo Shaving Cream. Sixty seconds of lathering and you'll have the face covered with the creamiest, softest lather a man could want. It'll retain its creaminess without replacing until you've been over the face, and leaves a comfortable, exhilarating impression that lasts long after you shave.

Get a tube at your druggist's. Try it tomorrow, and if Purolo Cream doesn't do what we say, the trial is on us. That's our guarantee.
