LEGION TAKES FIRM STAND FOR EXCLUSION

CLEVELAND, Sept. 29.—The report of the committee on Americanism of the American Legion today recommended the cancellation of the "gentlemen's" agreement with Japan and advocated rigorous exclusion of Japanese immigrants from the United States. The report, which was adopted, recommended that "we earnestly request the state department not to consider any proposition granting naturalization to this unassimilable people."

CAMPAIGN IS WORKING O. K. SAY LABOR MEN

While the non-partisan political committee of the central labor council is functioning smoothly, according to those operating the machinery, official announcement of candidates and platform is being deferred, pending the outcome of several committee meetings to be participated in by all unions. It was said today that a full statement would be available tomorrow.

In the meantime petitions are being prepared and circulated and vigorous efforts being made to secure registration of all eligible voters before registration closes Friday night.

The labor men maintain that their campaign will be entirely unbiased and non-partisan, and endorsement and support of candidates will be based solely on qualifications of the office seekers as regards merit and good citizenship.

Machinists Back President

The machinists' union at its meeting last night unanimously endorsed the ticket approved at last Friday night's meeting at the labor hall. It was reported that every eligible voter in the union was registered, and all present pledged themselves to work for the election of W. B. Conkling, president of the union, for councilman from the first ward.

Labor's Candidates

So far announced the choice of the labor council's political committee are: Will T. Lee for mayor; W. S. Conkling, Ed. Martin, J. C. McCollum, J. B. Vollmer and Bert Hawkins for councilmen.

In the county races the preliminary meeting endorsed J. P. Lee for assessor and Lloyd Low for sheriff. The choices in the county court, district attorney and county clerk contests have never been announced.

STATE DECIDES TO BUILD ROADS

PORTLAND, Sept. 29.—The state highway commission today decided to grade 18 miles of road from the Jackson-Klamath county line toward Keno, providing the right of way is secured.

The commission also agreed to grade the road from Bartlett Springs north to the fork of the road beyond Fort Klamath, and 13 miles from Trail to a point near Agate.

It was also decided to complete the unfinished portions of the Ashland-Klamath Falls highway.

BRITISH TROOPS SACK AND BURN IRISH TOWN

CORK, Sept. 29.—The town of Malow was sacked by the Seventeenth Lancers last night following a raid on the military barracks by the Sinn Feiners in which a sergeant was killed. The attackers burned the town hall and some forty other buildings.

MARKET REPORT

PORTLAND, Sept. 29.—Hogs lower, \$16.50 and \$17; eggs, firm; other quotations steady.

DANGERS OF LOW INTEREST BILL SHOWN

There is a measure on the ballot in Oregon limiting interest rates in Oregon on borrowed money to 5 per cent. The danger in the bill is that people desirous of securing 5 per cent money may get the impression that they will be able to secure loans at this low rate if the bill carries.

If 5 per cent money were possible in Oregon, the measure would be fine; but 5 per cent money is not possible. The private citizen who has money to loan would not put his money out on notes or mortgages at 5 per cent when he could get good securities that pay six and up or lend his money in other states at eight. He would either invest in bonds of some sort or lend his money in some other state. To lend his money in another state might cause a man in possession of surplus money to move out of Oregon and in that way leave the state without surplus money in the hands of private individuals. Many people of the state keep savings in the banks and get about 4 per cent interest. This money is put out by the banks among people who need working capital. The usual rate is 8 per cent. It is sure that the banks could not pay present rates for savings and put the money out at 5 per cent. The bank must have money to cover running expenses.

Then if the banks could not lend money for 5 per cent, what would happen? The merchant or the stock man who borrows money for operating expenses would either have to reduce his business operations to suit the amount of cash or find some way of getting the money. About the first noticeable result would be the springing up of brokerage businesses in Oregon. The man who wanted money would make notes and sell them through the broker. The banks could buy the notes at a discount and in that way get a living rate of interest. No doubt interest would range around 10 to 12 per cent.

There are few active men who would not like to borrow money if they had plenty of cheap capital. The merchant would like to pay for his fall stock of merchandise with 5 per cent money and when his stock is sold pay the money back. The stock man would like to have 5 per cent money at times when his herd is absorbing more cash than it is bringing in. But the old way of letting competition settle the matter of rates is the best way. If some man has more money than he can lend at 8 per cent, he might let it out for less. But when Oregon tries to force money-lenders to lend money for less than the market value of money, a mess will be made of it. The only kind of people needed in Oregon are those

CANNING CLUB MEMBERS OFF TO STATE FAIR

Edna Flackus of Pelican Bay and Helen Kroesing and Gertrude Musto of Mills addition, Klamath county's canning team, accompanied by Miss Fannis Virgil left for the state fair this morning where the three little girls will compete with other canning teams of the state for the state championship.

Canning of fruits and vegetables is one of the projects in the county club work. Miss Virgil has trained three teams and planned on giving a demonstration at the county fair last Friday, but owing to the bad weather the fair demonstration was given up and held at Miss Virgil's home economics department at the Central school Friday evening where Miss Cowgill, state leader of girls' club work, decided in favor of the three girls whose names appear.

Considerable interest is being shown in this move as it is the first time Klamath county has entered any of the contests of the state fair, and much interest is felt by friends and teachers. It is hoped the local team will win, but regard of the outcome of the state fair is not connected with the club. The girls will buckle down and prepare for next year when it is hoped to send more than one team.

who can pay fair profits for what they get. People who can successfully work capital are needed in Oregon, but if the capital is chased out of the state they will not come here.

Many a large industry locates where it can get money for operations. If a \$10,000,000 manufacturing concern came to Klamath Falls to locate, one of the first things done would be to call on the banks to see if money could be borrowed in sufficient quantities to carry on the business. When it was learned that the Klamath Falls banks could not lend money by the millions, the manufacturing concern would seek another location. So it may be seen that such a law would run the borrowers and the lenders out of Oregon and when they were gone the other people of the state would follow them. It would injure the state less to pass a law fixing the maximum price of potatoes at one cent a pound. Such a law might stop the production of potatoes here but the good spud would decorate Oregon tables just the same as long as Oregon people had the money to buy the products of other states.

RUMORS OF PLOTTING ARE RIFE IN LONDON

LONDON, Sept. 29.—Rumors of plots, ranging from conspiracies to assassinate King George to the blowing up of public buildings, have been current in London for the past few days. The reports have caused fear that the lives of public men in great Britain might be jeopardized should any Irish hunger strikers die, particularly now that the "black and tan" police have made reprisals in several Irish towns.

Investigation of the rumors obtained only negative results. One man giving an Irish name and having in his possession four rifles and some Irish Self Determination League literature was arrested.

NEW GARRETT GARAGE ALL READY FOR USE

Size, serviceability and fireproof construction are the outstanding features of the J. H. Garrett & Son garage on Sixth street, which has now reached a stage of practical completion. The concern is doing business in the new quarters and all essentials are in place, although carpenters and glaziers will be working for a week or two, putting in glass and partitions in the sales room and rest rooms and doing other finishing work.

When J. H. Garrett started laying the foundation for the building last fall he declared that he would have when completed one of the best buildings for garage purposes in the state and he has spared no expense since in carrying out a policy in which safety from fire and convenience of arrangement were two prime factors.

Virtually the only wood in the building is in the roof, which is of laminated construction, two by four set edgewise and securely spiked together. The roof is covered with an asbestos layer and painted with two coats of fireproof paint.

All else is brick and steel construction, except the blacksmith and repair shops, 52 by 100 feet, in the rear which have stone walls.

The main garage space, exclusive of the shops covers an area of 100 by 100 feet. The floor will hold 50 cars without blocking aisle space. By crowding a little it will hold 75 cars.

The sales room occupies 40 feet of frontage in the center of the building and is 20 feet deep, enclosed in glass on all sides and a model for display purposes.

A commodious ladies' rest room occupies one corner of the garage and the office and stockroom the other corner.

With a big glass front and two rows of skylights extending the entire length of the roof the interior of the building gets all the available sun light and is as bright as out-of-doors.

Garrett & Son are handling the Columbia and Malbohm automobiles and Mack trucks. They have been very successful without adequate quarters and with one of the best buildings in the state for handling their agencies they expect to increase their business constantly. W. H. McPherrin is in charge of the sales department.

P. O. TO MOVE TOMORROW

Tomorrow will be moving day for the Klamath Falls postoffice. If everything goes well patrons of the office will be receiving their mail from the new quarters in the Evans building Friday morning and the old office which has served several generations of citizens with postal facilities will be closed as far as Uncle Sam's purposes are concerned.

While the new office is not entirely equipped it is in serviceable shape and it is desired to move in on October 1, which marks the beginning of a new quarter.

SOX PLAYERS ADMIT BRIBES; MORE INDICTED

CHICAGO, Sept. 29.—Further confessions of White Sox players who have been indicted will supplement the confessions of Eddie Cicotte and Joe Jackson in connection with the "throwing" of the 1919 world series, within a day or two, it is expected. Announcement that other confessions were impending was made by Alfred S. Austrian, attorney for the Chicago ball club.

Following the confession of Claude Williams, who named "Chick" Gandil as chief go-between for the White Sox team and two men named Brown and Sullivan, gamblers, in last year's negotiations, the grand jury today voted indictments against both Brown and Sullivan. Williams was not certain whether the men were from New York or Boston.

Williams said he received \$10,000 for his part in throwing the series. He said that Gandil told him that Bill Burns, pitcher, and Abe Attell, former pugilist, were fixing it so that the Chicago players would get \$100,000 in all.

NEW YORK, Sept. 29.—District Attorney Lewis announced today that he would start immediate investigation of the report that a clique of gamblers plan to bribe members of the Brooklyn Nationals to lose games in the coming world series.

BARBER SHOPS SHORTEN HOURS

A conference was held last night between the boss barbers and representatives of Barbers' Union #41 to consider a proposition laid before the owners to close local shops thirty minutes earlier. The question was considered from all angles and a lengthy discussion ensued.

The question of whether the new closing hours would work hardship on the public, and possibly entail financial loss upon proprietors and the barbers themselves, was accorded much attention.

For the men, the point was raised that no actual shortening of working hours was involved, this due to the fact that by readjustment of meal hours, the net daily time will be the same under the new arrangement as at present.

Eventually it was agreed to inaugurate the new closing schedule on Monday night, October 18, which will result in the shops closing at 6:30 p. m. instead of 7 p. m., except on Saturdays, when the closing time will be 9:30 p. m. instead of 10 p. m.

A written working agreement will be drawn up, valid for one year, assuring continuance of present wages, etc. A mutually protective clause will be inserted in the agreement providing that by mutual consent, upon proper notice, a conference may be called to seek modification, revision, or adjustment of any clause in the agreement that might work unequally to either party.

The proposed agreement will be presented to the barbers' union at a special meetin, for ratification. Last night's discussion, while very spirited at times, was harmonious. Shop-owners present included Messrs. Bean, Ryan, Swanson, Johnson, Wimmer and Perkins. The barbers union was represented by D. Crowe, L. E. Alexander, Wm. C. Hultz and D. O. Taylor. The president and secretary of the Central Labor Council participated in the discussion by consent of both parties.

SUMMER SCHOOL DIST.

P.-T. ASS'N MEETING

A short program will be given by the Parent-Teachers' association of Summer school district at the school-house Friday evening, October 1. Lunch will be served by the ladies of the district.

County candidates are invited to be present and will be given an opportunity to speak.
