GOLD STOCK DWINDLING

WASHINGTON, Oct. 14.—Fear that the declining gold production in this country would make it difficult to retain the nation on a gold standard basis during a popular campaign for credit restriction, issued today by Chairman McFadden, of the house banking committee.

Mr. McFadden is the author of a bill pending before congress under which a tax of \$10 a ounce would be levied on gold used in the industrial arts. This tax in turn would be paid to producers to stimulate their efforts. In his statement Mr. McFadden declared that unless some relief was furnished the American gold mining industry would be compelled to shut down soon because the legally fixed price of \$20.67 an ounce for gold was less than current production costs.

"The continued depletion of the gold stock by excess exportation and industrial use," Mr. McFadden said, "will seriously impair the public confidence in the nation's and currency unless a normal gold output is insured."

"The United States mint sold for industrial consumption during 1919 nearly \$22,000,000 more gold than was produced from the mines of the United States, while this year the drain on the monetary stock will probably be \$40,000,000. Since the industrial consumers of gold are the

only ones in the country receiving raw material at the pre-war price, it is evident that they are being heavily subsidized."

Failure of the United States to act, Mr. McFadden asserted, will permit the British empire to gain an unquestioned supremacy in the world's gold production. South African producers, who mine the bulk of the British gold, he added, have been receiving an exchange premium as high as 50 per cent since July, 1919, and the French government, in addition to imposing an exchange discount on industrial gold, has levied a sumptuary tax of \$2.73 an ounce for gold used in fabrication of articles, other than money.

"This year the contribution of the United States to the gold production of the world," Mr. McFadden said, "will probably be not more than 12 per cent, about half of that which it contributed in 1915, while the stimulating effect of the British exchange premium will probably increase the quota which the British empire will contribute to 75 per cent."

WELCOME FOR DEPORTEES WAS SHORT LIVED

LONDON, Sept. 23.—(By Mail)—The spectacular welcome accorded at the Russian-Finnish frontier to the anarchists deported to Russia from the United States early this year was short-lived, according to information obtained from Americans in Moscow by The Associated Press correspondent who recently crossed Russia. It was learned that the revolutionary programs advocated by the deportees from America, the majority of whom are anarchists, not communists, differ fundamentally from bolshevik methods.

To the bolshevik, the revolutionist who adheres to the anarchist creed is at almost as wide variance from the Lenin-Trotsky idea of government of an imperial form of government or the creation of a constitutional regime.

Few of the anarchist deportees from America, it was learned, have succeeded in obtaining positions of responsibility under the bolshevik, the majority having been assigned to clerical work in the various departments of the red headquarters at Moscow.

Emma Goldman and Alexander Berkman, most prominent of the deportees from the United States, are considered to have received the prize appointment, an assignment to the control of a train which left Moscow early in the summer for a trip through the Russian provinces for the purpose of gathering and recording statistical and historical data regarding the Russian revolution.

Although this work carries with it no opportunity for assisting in actively directing the bolshevik movement, it enables the former agitators in America to travel into the country districts, and therefore to obtain more food than in Moscow.

Propaganda printed in English supplied to The Associated Press correspondent in Moscow attacked the anarchist idea of communal life, and the exponents of the system were held up to ridicule, the favorite method of attack in bolshevik propaganda.

To Americans in Moscow, who have appealed to the bolshevik foreign office for permits to leave Russia, soviet officials have stated that Americans in Russia will not be permitted to leave the country until the United States government negotiates with the bolsheviks and offers to release from custody in America a number of communists supposed to be detained there.

Replying to the statements on the part of the Americans that several hundred revolutionists already have been deported to Russia, the bolshevik officials, according to statements by the detained Americans to The Associated Press correspondent, replied that the deportees from America to Russia are anarchists, and are not wanted there any more than they are wanted in America.

Vote for George Chastain For County Judge

HE STANDS ON THE PLATFORM OF PROGRESS

His election means for Klamath County an administration of county affairs in which money will cease to be paid for attorneys fees and more money will be available for road building; in which no money will be paid to private detective agencies and more money will be spent in school development.

If you as a taxpayer and voter stand for progress, how can you do otherwise than endorse the attitude shown by this extract from Mr. Chastain's signed and published statement:

"I hope to have an administration that will mean progress for the county, good roads, schools and a careful business management of county affairs that will advance the community and reflect credit on me and I do not feel that I can accomplish this if I must always have the clanking chains of three courthouses dragging around with me the carcass of an issue that has been too many long years unburied."
