

Warren Hunt Hospital

We are constantly reminded by the many courtesies of the good will extended by the public towards this Hospital.

It has filled a big need in a big, first-class fashion.

It has not lacked for patronage or appreciation. Whatever good in Hospital care, medicine or surgery, may be found here.

The methods of this Hospital and its Staff, governed by the ethical standards of the American Medical Association, are the criterion of Southern Oregon.

The co-operation of the public in the maintenance of this Hospital is imperative. Hospital care is expensive, but it is continually the bridge from disease to convalescence and health.

The Management of this Hospital wants your support, and in return it offers you the conveniences and ideal care of your sick, afforded by talented nurses and modern equipment.

Warren Hunt, M. D. Lawson L. Truax, M. D.
George A. Massey, M. D.

All the Members of the Staff of the Hospital have their offices on the Administrative floor of the building. No downtown offices.

CORNER FOURTH AND PINE STREETS

Vote for George Chastain For County Judge

HE STANDS ON THE PLATFORM OF PROGRESS

His election means for Klamath County an administration of county affairs in which money will cease to be paid for attorneys fees and more money will be available for road building; in which no money will be paid to private detective agencies and more money will be spent in school development.

If you as a taxpayer and voter stand for progress, how can you do otherwise than endorse the attitude shown by this extract from Mr. Chastain's signed and published statement:

"I hope to have an administration that will mean progress for the county, good roads, schools and a careful business management of county affairs that will advance the community and reflect credit on me and I do not feel that I can accomplish this if I must always have the clanking chains of three courthouses dragging around with me the carcass of an issue that has been too many long years unburied."

COLONIES OF FRANCE ARE DEVELOPING

NEW YORK, Oct. 15.—Unusual progress in the development of commerce and natural resources in the French colonial possession and dependencies has brought them wealth ranking next to that of the British colonial empire, according to a survey made public here by the French commission. The French colonies, with an estimated population of 50,500,000, have an area of 4,000,000 square miles.

Total exports from the colonies in 1917, with the exception of Algeria and Tunis were valued at approximately 1,108,000,000 francs. Since 1914 exports in the various possessions increased from 25 to 100 per cent. The increases are attributed to the thrift of natives following the war's ending.

Total Algerian exports in 1919 were more than 1,334,000,000 francs an increase of about 555 millions over 1918. The port of Algiers alone handled exports approximating 475,158,000 francs, an increase of 200,822,000 francs, according to estimates. Chief imports were cotton, clothing and linen, skins, coal, sugar and coffee. Chief exports were wines, fruit, tobacco, wheat, oats, barley and wool. Amounts of imports and exports were greatest in the order mentioned.

National roads in Algeria have a length of 3,310 miles, while 2,202 miles of railway were open for traffic in January 1919.

Tunis, essentially an agricultural country had bumper grain crops in 1919, as follows: Wheat 6,590,553 bushels; barley, 5,428,222 bushels; oats, 3,444,722 bushels. The cork industry is important, cork trees covering more than 600,000 acres. The annual mineral production averages in value more than 20,000,000 francs.

The spring estimate of 1920 harvest on the French zone of Morocco valued the crops at 1,000,000,000 francs, and it was expected there would be a large surplus for export, the survey states. Exports to France in 1918 were valued at \$2,062,220 francs, the imports at 155,224,925 francs.

The French possession in India consists of five separate colonies with an aggregate area of 1,960 square miles. Rice, sugar, cotton, cocoa, coffee and ground nuts are grown. The principal export from Pondicherry, the chief possession, is oil seeds.

French Indo-China has a population of about 17,000,000. The territory tributary to Saigon is almost entirely agricultural, being one of the great rice regions of the world. The minerals are coal, lignite, wolfram, tin and zinc.

In the other possessions including Madagascar, French Equatorial Africa, French Somaliland and French West Africa, which is the largest of the colonies, commerce has almost doubled since 1914, the survey says. French West Africa, comprised of Senegal, Haut-Senegal-Niger, French Guinea, the Ivory coast, Dahomey, the military territory of the Niger and Mauritania, covers approximately 1,840,000 square miles. The general budget amounts to about 25,000,000,00 francs annually. The agricultural resources are most important. The production of cotton is growing, while jute, agave and sisal are cultivated extensively. Rubber is the most important product in the forest resources. Cattle raising has increased. The mineral wealth is great. The commerce of this possession increased 500 per cent since the French administration was created in 1895.

The French colonies in America, consisting of Guiana, Martinique, Guadeloupe and St. Pierre and Miquelon are principally noted for their lumber products, sugar, rum, cocoa and codfish. Agriculture takes an important role in the smaller provinces, especially in New Caledonia, said to be one of the richest countries in the world.
