**OREGON Must Have a PORT**  
Equal to Any Port on  
THE PACIFIC COAST

Initiative measure No. 310 on the ballot gives to the Port of Port-  
land means to create such a port.  
The primary object of this bill is to furnish the means to insure  
the opening and maintaining of a 30-foot channel from Portland to  
the sea and of building and establishing port facilities at the City of  
Portland sufficient to handle the foreign and coastwise shipping of  
that port.  
The cost of this improvement will be met by the people living  
within the boundaries of the Port of Portland.  
When you go to the polls November second, vote 310 YES and  
give to the Port of Portland the power to maintain its 30-foot channel  
to the sea and to build adequate port facilities to handle all of the  
great products of the interior of the state.  
The passage of this bill means lower freight rates for the pro-  
ducts of Oregon in reaching the markets of the world and a consequent  
greater profit to the producers.  
This is the most important and the most valuable measure that  
has ever been put up to the voters of the interior portion of the  
state.
