### FRANCE TO OCCUPY ARMENIA, ANNOUNCED

NEW YORK, Oct. 21.—French military authorities in Cilicia, Turkey, have informed officials of the Armenian national union that France is going to occupy the entire region to the full extent of her mandate and that Armenians will be afforded complete protection, according to advices reaching Near East relief headquarters here from agents in Aleppo, Syria.

Both Urfa and Mardin, now lying well within admittedly Turkish nationalist territory, are to be occupied, these advices state. Urfa was the scene of a massacre by Turkish nationalists of French forces garrison the city last spring.

According to the information received by the relief organization, the French have sent word to Kemal Pasha, nationalist leader, that they have not forgotten this massacre and that if any further outrages are committed against any Christian, Armenian or otherwise, in Urfa, the city will suffer.

Relief officials are inclined to believe that the only solution of the present critical situation in Cilicia is a firmer French policy in holding the occupied areas.

According to latest information received at relief headquarters conditions are chaotic throughout Cilicia. Where the nationalists are not fighting the French at Aintab, Adana, and nearby cities they are persecuting the Armenians. Eighteen Americans are cut off in Adana by the siege that nationalists have been conducting against the French garrison since June 28.
