

Letters From The People

SAYS PRINCIPLE INVOLVED IN COURTHOUSE FIGHT

Bonanza, Ore., Oct. 20, 1920
To the Editor of the Evening Herald: Dear sir: As a subscriber to your paper, a voter and a tax payer, I should like to be heard through your columns on this courthouse question.

I believe in a fair deal everywhere and all the time, to everybody. I believe in representative government, in majority rule. The majority may not always be right, but if our government is to stand, the expressed will of the majority of the people must be our law.

A "newcomer" reading your paper recently would get the impression that we are a pack of fools, devoid of civic pride or common sense. I hardly think that is fair.

Years ago we recognized the need of a new courthouse. We voted the funds; we selected the site; our employees began a building. Then we thought it advisable to change employees. The new man was pledged, both publicly and privately, to carry out our will. Had he done so that building would have been completed and occupied long ago, an ornament to our city, and a source of pride and satisfaction to us all.

Why didn't he do so? Who authorized him to abandon that building,—to throw away our money? Who told him to select a different site, and to erect a different building?

His building was half done before we knew anything about it, and he managed to complete it in spite of all we could do.

Who then is responsible for the present disgraceful muddle? Is it the men who are trying today to carry out the expressed will of the people who have to pay the bills, to uphold the fundamental principles of majority rule; or the man or men who by trying to thwart our will brought this condition upon us?

Let us be fair. I do not raise the question of the relative merit of the two locations, nor of the relative merits of the men advocating each. That is not the question. It is: Shall we have representative government, or shall we not?

No man hates litigation more than

I. No man will sacrifice more than I to avoid strife. But there's one thing I won't sacrifice, and that is a vital principle. I will gladly spend my part of that \$25,000, and that much more, if necessary, to maintain the sovereignty of the people and to show our chosen officials, from president to poundmaster, that they are not the masters of the people, but their servants, hired and paid to execute our expressed will.

If I should order a suit from a tailor, select material and pattern, and deposit \$50 on it, and then when I called for my suit he should inform me that when he had it half finished a friend of his happened in and that it was not what I needed, and he would select other material and a style better suited to my age and complexion; that he would guarantee his selection to please me,—What would I do?

Would I take the suit of his friend's selection; pay for it; lose the \$50 deposited on my choice, and take it home for my wife to use for mop rag? I WONDER IF I WOULD? WOULD YOU?

Yours respectfully,
H. M. DANIEL.

MAKE OFFER FOR ROAD SETTLEMENT

Klamath Falls, Ore.,
Oct. 18, 1920.

To Whom It May Concern: We, the undersigned farmers, would make the following offer to the County Court of Klamath County:

If the County Court will build the Klamath Falls Merrill highway along the Modoc Northern railroad survey from the Ebehalt place into Klamath Falls instead of building it past the houses of Burrill W. Short, Lum Short, the John A. Short estate place and by Judge Bunnell's place and Mr. Fordyce's place, we will give the county court rights of way through our lands free of charge.

We do not wish to impede highway building but we do object to the county commissioners using the people's money to build roads past their places in order to feather their own nests. Enough of this has been practiced in the past and we feel that it is now time to call a halt to this form of squandering the people's money.

Had the highway followed the Modoc survey into Klamath Falls every man and woman coming into Klamath Falls from Merrill and Malin

would save just three miles on each round trip to the Falls. The distance from the Ebehalt place to Klamath Falls is shorter by the Modoc Northern survey route than it is by the places of the county judge and commissioners. The county court could have saved just one mile in road building if they had made the highway follow the Modoc survey so as to connect with the Slaughter House road near the old Stilts place. In other words, the distance from Ebehalt's place to the connection with the Slaughter House road would have been one mile shorter than from Ebehalt's place to the connection with the Lakeview highway at the old John A. Short place. Readers of this will kindly refer to the map published in the Evening Herald on October 18, 1920.

All we ask of the county court is a square deal. We knew that they have not given us one. If they had to go straight with the highway, why did they turn off when they reached the Merrill ranch just north of Merrill instead of going straight through it the same as they have done with our places.

We have been informed that the county court allowed the John A. Short estate, owned by a relative of one of the commissioners, \$1400 for three acres of lands covering right of way for the highway through the three acres of land covering right of way less than one third of this sum per acre for our lands. The Short estate lands are dry lands. Our lands are fully irrigated and seeded to alfalfa and other crops.

BIG EATERS GET KIDNEY TROUBLE

The American men and women must guard constantly against kidney trouble because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times a night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidney; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

HAVE YOU A FAIRBANKS MORSE ENGINE?

It will be of interest to the many local users of Fairbanks Morse engines that a factory expert will be in this locality in a very short time.

It has always been a policy of the FAIRBANKS MORSE CO. to keep in close touch with the products of their factory, to observe them in their home surroundings.

If there is anything about your engine you do not understand, any questions you would like to ask, in fact, if you have an engine problem of any kind, he will consider it a favor to hear from you.

AT THE THEATERS

◆ ◆ ◆
There's many a husband who thinks his wife was "easy to get." They never know how close they came—lots of them—to losing out entirely!

◆ ◆ ◆
That was the case with Milly Morehouse's husband. And she happened to hear him make a remark once that made her sore. She determined to make him get her all over again, so that he could never again say she was easy to get!

◆ ◆ ◆
Did she succeed? Well, she sure did. The poor chap had the hardest job in his life.

◆ ◆ ◆
Come and see it all done! It's a delight from start to finish; Marguerite Clark is the star. "Easy to Get" is the title tonight only at the Star.

◆ ◆ ◆
Henry B. Walthall's splendid acting has never been more strongly emphasized than in the characterization of the man who took the greatest sporting chance in "A Splendid Hazard," which will be shown at the Star theater.

If the Wood Dealer Sold Service

We do not sell current; we sell service. That sounds odd doesn't it?

Well, suppose the wood dealer sold service instead of wood, he would tend to your furnace and your range, take away the ash and clean the flues. You would buy so much heat.

Now you buy so much light, although you pay according to the current you consume. But the service is performed for you by this company at the substations and power plants.

That is what we want to give you—efficient service. It is the aim of this company to have none but satisfied customers. No matter what it is, if you have a grievance, or are dissatisfied about your bill or do not understand our rates, please come in and see us or write us about it.

If you have any suggestions to make, we will gladly avail ourselves of them as our aim is constantly to improve our service to you as fast as the development of science and human ability permit.

NOTE—Remember that election night, November 2nd, we will have a special Western Union wire in the Theatre, giving us national election news. The Theatre will be open all night and local election news will also be announced.

DID YOU EVER STOP TO THINK ABOUT WOOD? Maybe you do not realize that SLAB WOOD IS BODY-WOOD. The only difference being that the slab-wood comes already split. There is more bark in the slab, that is true, but there is as much heat in the bark as there is in the wood, so in a cord of slab you buy as much heat as in a cord of body or limbs for much less money.
