Which—A Million Dollars for Roads or Another Courthouse?

(Continued from Page 1)

Are you by your voice and vote going to help carry on this struggle to the bitter end or are you going to join with those who have stopped long enough to count the cost and offer a fair compromise for the settlement of the whole controversy? Are you going to get in the way of a million dollar program that will place Klamath county on the highway map of the west and make it the Mecca of the immense traffic that is yearly increasing by leaps and bounds until it is the amazement of the world? Are you going to stand in your own light and by your vote say that you do not want turned into the business channels of this county one million dollars; that you do not want donated to the people of Klamath county \$750,000 of highway money that will come here if we build roads instead of courthouses? Are you going to say to the farmer that you are going to make him travel through mud and mire, because you want to squeeze out of him his share of the \$175,000 needed to build another courthouse, instead of giving him a million for more and better roads?

AND YOU, MR. FARMER, WHAT ARE YOU GOING TO DO?

Do you, Mr. Farmer, think it is better to gaze upon the classic outlines of the handsome structure that graces the heights of the Hot Springs courthouse, site, than it is to be able to travel twelve months a year over roads that are not hub deep in mud? Can you recall a winter or spring when you have been able to come to Klamath Falls without wading knee deep in mud, smashing wagon or auto and tearing to pieces the harness and killing your horse? Do you have paid your share of the cost of courthouses and the litigation growing out of this fight. Do you want to pay more? Do you want your taxes increased by adding to them your share of the \$175,000 that will have to be paid if the Hot Springs building is finished and occupied? Or do you want the money on hand taken out of the courthouse fund and used in building roads? Do you want one million dollars spent on roads within Klamath county, or do you want another courthouse in Klamath Falls?

That is the issue in this campaign. You may talk about your lawyers; about your tax rates; about the county debt—everything under the sun, but when you have exhausted every argument and played every card and taken every trick, you are going to find yourself confronting the same thing—do you want a million dollars for roads or do you want to build another courthouse?

Hanks was recalled because he undertook to build another courthouse when we already had one partly completed. Why elect Bunnell to do the same thing? Why elect Bunnell and Short with instructions to throw away a building that will not cost the county a dollar and spend \$200,000 on one we do not need? Will the people do it? They will not!

LICENSED TO WED

Marriage licenses were issued Saturday afternoon to Franklin Leo Carlson and Ruth Biglow Brown, both of the Klamath Agency, and to Charles S. Richards and Alice Laura Brown of Shippington. The latter couple were married later by N. J. Chapman, justice of the peace.

Cox-Wilsonism

BY SCOTT C. BONE

Candidate Cox stands for Wilsonism and all it implies. The Democratic platform commits him to Wilsonism without reservations, and he, in his daily utterances, is underwriting and sealing this commitment in all that it implies.

What is Wilsonism? A record made at Washington these past eight years answers this question and illuminates it fully. Wilsonism stands for an orgy of governmental extravagance unparalleled in history.

It speaks of incompetence and inefficiency. Wilsonism stands for waste unspeakable—waste that did not stop with war, which inevitably means waste, but wanton waste in all directions and involving millions since the armistice.

It spells taxation heavier than was ever borne before. Wilsonism stands for one-man government—"The State, it is I"—and an individual rule hitherto unknown to this American Republic.

It exemplifies autocracy. Wilsonism stands for mounting prices, profiteering and consequent hardships in all walks of life.

It is high cost of living. Wilsonism stands for the profligate cost-plus system during the war that entailed governmental burdens that cannot be wholly lifted for generations to come.

It emphasizes graft and scandal. Wilsonism stands for a League of Nations that would have nullified the Monroe Doctrine, plunged this nation into the maelstrom of European politics, and made for war—not peace.

It means involvement in foreign entanglements and disregard of the teachings and warnings of all the American presidents that have gone before.

Wilsonism stands for an administration unprepared for peace, as it was unprepared for war, and an utter incapacity to deal with problems of the day and hour.

It reveals unfitness to govern in every sorry chapter written at Washington during the costly regime now drawing to a close.

Candidate Cox, standing for Wilsonism, stands for all the things here enumerated and set down—not to mention Burlesonism, Danielism, Beberism, Palmerism and all that these names at once imply.

Does the country want four years more of it? This is what Cox promises—Wilsonism—that's all.
