

PERSONAL MENTION

George L. Metz, jeweler at Daventport's, has returned from San Francisco, where he was called by the death of his mother, Mrs. Christiann Metz. He was absent ten days. Mrs. Metz was struck by a falling brick in the earthquake of 1906 and had since been an invalid.

John Moore of Detroit, Michigan, arrived last night and is visiting his cousin, Sam Holdin. Mr. Moore may make his home here in the future.

Joe Miller was in town this morning from Modoc Point attending to matters of business.

Crushed rock is being spread on Washington street this week and grading is nearly completed and curbing finished on Conger avenue. These two streets will easily be finished before winter.

There will be a meeting of the American legion, at the City Hall tonight. It is urged that all members be present to help with the business to be taken up at this time.

News has been received by friends of the marriage at Bainville, Montana, of Mrs. E. J. Maggini and Chester Elde, rancher of that place. Mrs. Elde is a trained nurse and spent several months in nursing in Klamath Falls last spring.

Friends have received word of the birth of a son to Mr. and Mrs. Harold V. Wygant of Klamath Falls. The event occurred at Salem. Mr. Wygant is in the employ of the state highway commission here.

A Halloween party, to which the candidates are most cordially invited will be held Saturday, October 30, at Keno. The school house is to be the scene of this party and a basket supper will be served.

Otto Ellis, of Centralia, Washington, has arrived to take a position with the Western Union company here. He is taking Mrs. Don Belding's place which was vacated when she accepted a position with the Klamath State bank.

John Boyle, engineer for the California-Oregon Power company, left this morning for San Francisco on a flying business trip.

J. R. Sisemore is a business visitor here from Port Klamath.

Mr. and Mrs. L. A. Richardson, Frank Obenchain and daughter, Marie, are visitors in the city today from their ranches in the Bly country.

J. T. Bailey is in town from Medford today attending to business matters.

A. A. Whitlatch is a county seat visitor today from his ranch at Round Lake.

Austin Hayden left on a business trip to Bonanza this morning.

Mr. and Mrs. W. C. Dalton spent yesterday in the city from Malin.

Mrs. Charles Pickett was a Klamath Falls visitor yesterday afternoon from her home at Merrill.

Mr. and Mrs. McNary, who have been spending the summer at Pelican Bay, left this morning from here for their home in Medford.

T. N. Cunningham purchased supplies from Klamath Falls merchants yesterday for his ranch at Pine Grove.

Ollie Howard is in town for a few days from Bly on matters of business.

Mr. and Mrs. J. F. Gribble, a forest ranger for the Crater Lake district, came in from Rock Point yesterday and will leave soon for Medford where he will spend the winter.

James Goldthwaite Jr. is in town from Chiloquin for a brief visit. He is a guest at the White Pelican hotel.

James Hilton of the local police force, is suffering from an attack of lumbago, and is only able to get about with the use of a cane.

Mr. J. F. Gribble, a for-happy parents of a baby girl born yesterday. Dr. A. A. Soule was in attendance at the birth.

GOLDEN RULE
VANNICE BROTHERS

We Have Just Received
a New Shipment of

'Easy Vacuum'

**Electric
Washing
Machines**

There are only six (6) of these machines in this shipment, and they will not last long, if past sales are any indication.

One of the "Easy Vacuum" machines is set up in the store, and we are very glad to demonstrate it for you at any time. In this way you are able to see how much longer your clothes will wear if given into the care of an "Easy."

The "Easy Vacuum" Electric Washer Is Different!

The "Easy" Washer differs in appearance and washing principle from other washing machines and washes clothes clean and rapidly by air pressure and suction.

The two vacuum cups, or plungers, force the soapy water through the mesh of the garments without friction or rubbing. These double vacuum suction cups move up and down 60 times a minute and change positions automatically. They work all the clothes in every part of the tub.

This method creates vigorous water force which dirt cannot resist, and at the same time the action is so gentle as not to injure the most delicate fabrics, as there is no dragging or jerking of the clothes.

The "Easy" Washer is 97 per cent metal.

If an electric washer, simple, easy to operate and to understand and of extraordinary washing efficiency is desired, there is none superior to the "Easy."

A Robbins & Myers or General Electric motor is used to operate the "Easy."

The Wringer is a real labor-saver. It revolves in either direction, and is adjustable to any position. The rollers will last indefinitely and the tension can be regulated with a minimum of trouble. The tub is solid copper.

The "EASY VACUUM" Will Not Eliminate All the Work from Your Washing, But It Will Make It Far Easier

The "Easy Vacuum" or any other piece of machinery cannot take all the work from washing a tub of clothes! But it does take the rub on the work and the effects of the rub from your clothing! Think of the wear your clothing must withstand if subjected to a hard rubbing once a week! Fully a third of the wearing quality of most clothing which is washed regularly is rubbed out in a tub! That extra wear would soon pay for the "Easy."

Still Sold At the Old Price, \$175.00

Tho the price of the "Easy" has advanced to \$185.00 in the large city stores, we are still selling them at the old price—\$175.00. They advanced in price a very short time ago, and may possibly go higher still, but we will sell them at the old price—at least until our present stock is exhausted.

**LET US DEMONSTRATE THE "EASY VACUUM" FOR YOU TODAY
BOYS' AEROPLANES FREE!!**

Next Saturday Afternoon, between 2 and 4 o'clock, we are going to give away 100 "Junior Scout" Monoplanes!

We have only 100 of these planes, and the first 100 boys who are here will get them!

If you want one, come to the store between 2 and 4 o'clock, next Saturday afternoon.

THEY'RE DANDY FLIERS! YOU WANT ONE!

**50 SIGN FOR
BIG DINNER**

The community Harvest dinner which will be the big activity of the Klamath county chamber of commerce for this week bids fair to be the biggest event ever held in Klamath county. Plans are being rapidly completed for the big affair and the following members of the chamber of commerce have signed up to attend with a guest:

- W. H. Mason, E. S. Henry, Don Belding, E. T. Ludden, Bert C. Thomas, Ross Nickerson, A. L. Leavitt, Arthur R. Wilson, J. R. Kelley, A. B. Collins, W. M. Dunnean, W. S. Wiley, E. B. Hall, T. B. Watters, W. A. Wiest, E. M. Chilcote, D. M. Smith, L. J. Bean, H. D. L. Stewart, W. A. Deisell, W. O. Smith, G. C. Lorenz, O. D. Burke, J. Percy Wells, J. E. Howie, T. L. Stanley, A. J. Voye, Capt. Siemens, R. H. Dunbar, James Driscoll, L. L. Brownell, P. S. Pope, Paul Lambert, Leslie Rogers, Ed W. Vannice, Will Baldwin, A. A. Bellman, Fred A. Houston, Van Bellan, E. R. Reams, A. L. Wishard, R. E. Smith, H. N. Moe, W. H. McNealy, George Walton, W. T. Lee, and M. A. Callaghan.

This gives us over half of the required number signed up at the present time. The balance will probably be on the list before the day is over

and a very live time is expected by all who attend. Sign up at the chamber of commerce at once if you wish a plate reserved.

This dinner is being given by 100 Klamath Falls chamber of commerce members to 100 invited guests from the country tributary to the city, and is being prompted with the idea of bringing about a better spirit of cooperation between city and county.

AMSTERDAM HAS 647,125

AMSTERDAM, Oct. 26.—The population of Amsterdam, according to latest figures just announced, is 647,125.

Experiments have shown that more eggs will hatch if the hen is set when the moon is new, or very close to that period, and that the young chicks hatched at that time will be stronger and more vigorous, and will not last off this claim but will

grow more rapidly. On the other hand, chicks hatched when there is no moon are often more weakly, and do not make such strong and vigorous fowls, nor are they such good egg-layers.

Lobsters can be hypnotized by stroking their backs. When under the "stroking" influence they will stand on their heads or tails, and only on being thrown into the water will they regain their habitual ferocity.

Eight hundred eggs, eighty pounds of flour and sixty-five pounds of sugar were among the ingredients used to make a mammoth cake which was presented to the founder of the San Francisco local of the United Commercial Travelers at the recent silver jubilee celebration of that organization. The cake was 13 feet in circumference and weighed 254 pounds.

In some of the out-of-the-way rural districts in England the people have a superstitious belief that ointment should never be applied with the first finger, as that finger is venomous.

Pearls, like people, have a habit of growing ill, and the outward expression of their illness is a sick-yellow color. This may be prevented, say experts, by continually wearing the pearls next to the skin.

By means of the crescograph, a device invented by Sir Jagadis Chandra Bose, an Indian savant, a number of scientists in London have been able to watch a plant growing, and study beating of what in vegetable life corresponds to the heart of an animal.

While 20 per cent more male children die of consumption than females, 25 per cent more girls die of cancer than boys.
