

Lyon & Healy Apartment Grand

This Grand is suitable for a small apartment and is the only one equipped with the Electric Candelabra Lights and the Silent, which is an extra soft practice device so satisfying that father may read his evening paper without annoyance.

For so fine an instrument the price is very conservative and our terms make it possible for you to purchase now.

Be sure your Baby Grand is a distinctive one, in which case you will naturally select the Lyon & Healy.

Tweedie BOOT TOPS

More Than a Spat

You'll never go back to the old style spat once you have worn Tweedie Boot Tops. They more than just "cover the ankle"—their grace and shapeliness reflect the wearer's good taste.

We carry the guaranteed genuine with the Tweedie label sewed inside each pair.

V. E. O'Neill is in the city today from Chiloquin attending to business.

Miss Elizabeth McCurdy, who has been visiting relatives and friends in the east for the past few months returned home last night.

W. B. Crawford is visiting in the city today from Chiloquin. He is registered at the White Pelican hotel.

Floyd Oden arrived last night from Rogue river and is stopping at the White Pelican hotel.

Lloyd Low made a business trip to Algoma yesterday afternoon.

Low Davidson was in the city yesterday attending to business affairs from Chiloquin.

Harry Nichols drove into town from Bly yesterday and purchased supplies from Klamath Falls merchants.

A. Kalina of Malin was a county seat visitor yesterday.

Miss Gladys Loftus who has been visiting her mother in Lakeview during her vacation, has returned home yesterday, her vacation yesterday.

Mr. and Mrs. W. B. Barnes were in town yesterday from Modoc Point looking after matters of business.

T. B. McKimel was a city visitor yesterday from Chiloquin.

Dr. and Mrs. J. H. Jefferson of Akron, Ohio, who have been here visiting their son, E. H. Jefferson and family, left this morning for Los Angeles.

Orders by Pigeon-Post

An entirely practical use of homing pigeons is reported from England. The inventor of the system is a butcher's son, who employs his birds regularly to carry orders from outlying districts—presumably where there are no telegrams—to his father's shop. The plan works excellently.

When the boy goes to collect orders he takes six of his fastest birds in a trap with him. After he has gone a mile or two and collected a dozen orders he liberates a pigeon with the slips inclosed in a little metal case attached to the bird's foot. Before five minutes have elapsed these orders are in the shop.

At the various stages of his round, which usually takes three hours, the other birds with more orders are set free, and by the time the shop is reached all the orders received by this pigeon post have been dispatched.

To Paint Sing Sing Chimney

The best climber in Sing Sing, who once made a sensational escape from the prison, has been selected by Warden Lawes to climb the 75-foot chimney of the power house to re-paint it. Emil Totterman, who was a sailor before sent to prison for murder, is a former stepladder man. Since his imprisonment he has not used his climbing powers much except when he made his escape. He was re-captured a few months later. He is one of the few prisoners serving a "natural life" sentence. Totterman is to go up the square chimney and fasten a rigging from its top. He will paint the chimney yellow to conform to the new coat of paint just placed on the exterior of the various prison buildings.

Waste of Gasoline

Those who have studied the subject say that one-half gallon of gasoline per car is wasted daily in Canada through carelessness, the overuse of cars, and needless mileage, which means 200,000 gallons wasted daily in the country, or 73,000,000 gallons per year, if all motor cars were operated every day.

Wood Advancing

Bill—Everything in the way of woodenware is advancing in price.
Gill—I know it. Even the fellow with a wooden head doesn't care to have a large "bean" in the morning any more.

Vacuum Best Known Insulator

In answer to a question, the Scientific American says:

"A vacuum is the best insulator against heat which is attainable. A perfect vacuum would be a complete insulator and would retain or exclude heat indefinitely. The common thermos bottle is an example of the use of a vacuum for keeping liquids either hot or cold. Heat is retained in hot liquids and kept out of cold liquids. However, there is a difference between heat from a white hot body like the sun or an electric lamp and heat from a liquid or solid such as may be contained in a thermos bottle. The intense heat from a white hot body will pass easily through the best

\$50.00 Worth of Value FREE!

That Is Just What We Give You When You Buy a

MANDEL PHONOGRAPH

We are willing to prove this assertion if you will allow us to. And this is the way we will prove it:

We will place one of these machines in your home without any obligation on your part except that you compare it with other machines costing \$50.00 more than the Mandel you are considering. Then go to any other dealer and have him put any *make of Talking Machine* costing \$50.00 more than the Mandel in your home so that you can compare them under the same circumstances, and with the same records.

If you will give the Mandel Phonograph a trial alongside of any other machine, you will at once see why we say that you receive at least \$50.00 worth of value free!

The Mandel plays all records, and is **GUARANTEED FOR AS LONG AS THE CASE HOLDS TOGETHER!**

Think what this means! In any machine, regardless of make, the mother spring will sometimes break. If the spring on the Mandel should break, it costs you *nothing* to have a new one put in! And this is not for a month, or a year, but for as long as there is a Mandel.

When you buy a Mandel, the first price covers *everything!* Of course you furnish your own needles and records, but the first price is all you will ever be called on to pay for the machine.

And in addition to the lack of repair costs, you will get a machine equal to any other you might buy, costing \$50.00 more; the equal in mechanical perfection, the equal in appearance, the equal in size.

Will you compare the Mandel, for your satisfaction, and ours?

We have machines in the store at the present time priced at the following: \$135.00, \$165.00, \$185.00 and \$200.00.

Will you try one in your own home?

GOLDEN RULE
VAN NICE BROTHERS
