 VANNICE BROTHERS

Again! We are Able to Sell a First Class Corset for \$2.00

For many, many months, a \$2.00 Corset has been an unknown article on the market, but recently we were able to obtain a limited quantity in sizes of from 19 to 28 which we can sell for this amount.

These are a wonderful value, and a short time ago they would have sold for at least double the price we will sell them for.

They are low bust, with long hips and elastic tops, and are made from a fine brocaded coutil. The hose supporters, of which there are four, are of a splendid broad elastic, and the corset would be a good value at double what we are asking for it.

Sizes from 19 to 28. While they last, \$2.00.

We have a large and splendidly selected assortment of colors and weights, and are selling them at

**Germany Wants American Cows**

BERLIN, Oct. 25.—(By Mail)—The German department of agriculture and the German Red Cross are trying to help Americans who have offered to send 5000 cows to Germany to obtain a cargo space in vessels to send the cattle across the Atlantic. The inter-allied maritime board announced that it was unable to supply the tonnage required. The department of agriculture has sent an expert to the United States to find the ships needed to bring the cows to Germany. Meantime the Red Cross has been trying to smooth away the difficulties here and obtain permission to receive the much desired animals. These obstacles are due to confusion of authority in the government regarding the issue of permits and inspection of the cattle when they arrive. The Red Cross officials estimate that the ocean freight charge will average \$50 a head. While no restrictions are placed upon the breed of cows needed, it is pointed out that Holsteins more readily acclimate themselves, as that is the predominant breed in Germany.
