Episcopal Guild to Have Big Rummage Sale Next Week

The Episcopal Guild ladies will hold their big rummage sale next Friday and Saturday, November 19 and 20, in the rooms next to the W. O. Smith Printing company on Fourth street, recently occupied by the Herald office.

They have a big stock on hand, constantly being added to. Clothing, shoes, fruit, everything from attic to cellar, will be offered at this sale, and prices will be right. Donations will be welcomed. Persons already solicited who were out, or for any reason delayed giving at the time they were called on, are

asked to phone to one who solicited from them. Those who have not been approached, but who desire to help, may get in touch with the Guild by phoning either 339-W, 46 or 81.

Co-Operation of Bankers With Farmers Urged

(Continued from Page 1)

"The successful business man who sees an opportunity to make one dollar produce two doesn't pass it up because he does not have the dollar, nor does he wait until he can save it. He borrows it, puts it to use, and in addition to his own gain, the banker who loans it makes a profit, the community takes a step forward, and the nation progresses. When extensive tests have clearly proven, as in some localities, that 14 worth of fertilizer will increase the yield of an acre of wheat \$10 to \$12, why lose the added profit because one does not have the \$4 in cash. When farming-with-power units have proven their ability to pay for themselves, often in one year, why do without them just because the cash is not on hand to pay for them? Under such a policy one is likely never to have the money.

"The man who puts his farm on a business basis, who studies the possibilities before him, and plans to make the most of them, who will learn that business thoroughly, with the opportunity to work with and intelligently present the banker him in the development of his farm and the community, will get the cash and the co-operation of the real banker."

CHILDREN NEED FOOD, POLAND

LONDON, Oct. 23.—(By Mail)—One of the aftermaths of the Polish-Soviet war is that Americans will be called upon to feed and clothe more than 1,250,000 Polish children this winter through the American relief administration. Up to the time of the latest outbreak of hostilities, destitution had been so reduced that the relief administration officials believed that Poland, with the organization the Americans had perfected, would be able to carry on the work after this autumn. That is considered impossible now and preparations are underway for caring for as many children as during the dark days of last winter.

This decision came after receipt in London of reports of a complete survey of the country begun immediately after the bolsheviks were driven back. Trained observers report that the Poles themselves have not painted the pictures black enough. After two armies had fought over the ground there was little left for the children, they report, and each requested immediate shipments of food and clothing. As far as possible, distributing agents of the administration are complying with these requests.

The organization by which about \$19,000,000 worth of food and clothing was distributed in Poland in 16 months at a cost of approximately \$80,000, is virtually intact. It includes between 15,000 and 18,000 Poles whose services are paid for by Poland but who worked under the direction of a few American administrative officers. The Poles also pay for transportation from the ships, warehousing and distribution. In addition they supply all flour credited by them through a \$200,000 receipt granted them by the grain corporation.

Although the distributing organization was considerably disarranged during the recent fighting, officials here say they can get into working order again very quickly after railroad repairs have been completed.

CARD OF THANKS

I wish to take this opportunity to express to my friends and the voters of the county, my sincere appreciation for their support in the recent election and to assure them that I will leave nothing undone to justify their confidence in me.

Everyone Should Drink Hot Water in the Morning

Wash away all stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick-headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify, and freshen the entire alimentary tract before eating more food.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.
