

Are You Ready To Join Us

In every progressive movement undertaken by any individual, or individuals, you will always find plenty of people who will tell you that the idea is wrong, and that you have nothing to gain through aligning yourself with such undertakings, and more or less criticism and skepticism is expressed or implied, UNTIL THE NEW IDEA HAS FIRMLY ESTABLISHED ITSELF.

However, did you ever stop to inquire whether these so-called advisers were REPRESENTATIVE OF THE SUCCESSFUL MEN of your community? Also, if after acting upon the advice of such people, you later found that you had incurred a real loss thereby, DID ANY OF THEM EVER OFFER TO COME FORWARD AND PAY YOU FOR ANY LOSS THAT YOU MAY HAVE INCURRED?

We Want to Assure You

that Mint-growing in Klamath county IS A SUCCESS, and that the day is coming when it will mean an annual return of \$250,000.00 to this community, AND IT'S UP TO YOU whether or not you will participate in the earnings of this company.

Five Reasons Why You Should Join This Company Now

FIRST—Because it is trying to accomplish for itself and stockholders, as well as for the upbuilding of Klamath county, a business which will pay dividends larger per acre than any other crop grown in this community.

SECOND—Because this is not an experiment, as you will see from our display in the windows of the K. K. K. Store a sample of what was produced the past year. Roots planted in the spring matured in 120 days, crop was harvested, distilled and the oil ready for market, which showed a return of \$320 per acre.

THIRD—Because this company now owns 1300 acres of what has been proven to be the BEST MINT LAND ON THE PACIFIC COAST, and now have 35 acres planted to Mint, with sufficient roots on the ground to plant 15 acres more, weather permitting, and nursery stock available to plant 500 acres in the spring. Own and operate their own machinery and distillery.

FOURTH—The reason that we are offering a LIMITED AMOUNT OF STOCK for sale at this time is because we are anxious to reach a maximum production of 50,000 pounds of oil per annum, at the earliest possible date.

FIFTH—Because our stock is fully paid and non-assessable, and is being offered in shares of \$50 each par value, on terms that you can handle.
