SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs Kidneys, then the Back hurts

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulates them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

TO STUDY SCHOOL SYSTEM

BATAVIA, Java, Oct. 13.—(By Mail)—The Dutch government has decided to study the American school system in the Philippines, with the view of possibly adopting similar methods for the Javanese. A commission will go from here to Manila in January.

WHEN BLANKET IS REMOVED

Russians May Be a Great People When the Bolshevik Cloud Has Been Disipated.

Nobody can tell what a horse looks like until his blanket is taken off. Who knows! When this unspeakable bolshevik screen is removed maybe the Russians will emerge as a great race. Every people has done hard and queer things at times. "Girard" writes in the Philadelphia Press.

Oxford university is, perhaps, the intellectual center of the earth, and yet Oxford was so benighted that it burned the books of John Milton, as blasphemous. It was Oxford, also, which declared during the Revolutionary war, "that Americans as a people have forfeited their lives and their fortunes in the justice of a state."

Now look at the other side. In that same war, the czar of Russia refused to sell 20,000 soldiers to King George to fight against George Washington.

And we, here in the United States constantly abuse the Turk, who kills an Armenian now and then, and forget how we killed the Indians for three centuries. On one occasion, the zealous Christians of New England, not far from Harvard, shut up 700 Pequot in a modern prison and, according to John Fiske, all but five were burned to death or murdered.

So I say that in the next century the Russian and the Turk may travel around the circle as fast as John Bull and Uncle Jonathan have in the last hundred or two years.

WHEN LIGHT DAWNED ON HIM

Young Man Understood Why the Maiden at First Shrank From His Warm Embrace.

After the glory of the setting sun it was dark. The man felt afraid as he stumbled on after his companion who, woman-like, went straight ahead, regardless of all obstacles.

Angry murmurs from the unseen people whose toes they trampled on followed them like the wash of a steamer. But she said no heed; to him fell the duty of muttering apologies.

Just as despair was seizing him he saw her straight ahead. She had obtained a seat. And investigation showed that the one next to hers was empty. Into it he sank thankfully. The picture was one of love and bravery, with the usual fair heroine and handsome hero and beetle-browed villain. As they watched he slipped an arm around her slender waist and drew her to him.

She struggled for a moment, much to his surprise. Then she yielded, and he felt her nestle close to his manly chest.

Five minutes later the picture ended, and the lights went up. Then he understood—he was embracing the wrong girl.—London Answers.

Beautiful Oregon Waterfalls.

Waterfalls that rival in beauty the most splendid cataracts of the Pacific northwest have just been discovered on the western slope of the Cascades in Oregon. Although within 40 miles of Portland, a city of 200,000 people, no white man, so far as the records show, had ever seen them until recently.

The falls lie almost in the center of Bull Run forest reserve, set aside by the government to protect Bull Run river the source of Portland's water supply. The reserve is closed to all visitors except employees of the government, and of the city of Portland, who may go there on business, a precaution taken to protect the timber of the watershed against fires that might be started by careless campers.

The reserve, which includes 222 square miles of mountains and forest, was set aside by congress in 1892, and has been closely guarded ever since.

Seems Like Decree of Fate.

After being in a number of the worst battles fought during the World war, where he successfully dodged bullets and all other death-dealing missiles to the extent of saving his life, although hit 22 times in a way to cause grievous wounds, Richard J. Foran, thirty-two years old, was instantly killed by lightning a few days ago while standing under a tree a short distance from his home near Paterson, N. J. The bolt marked his forehead with a scar, as well as his right thigh and right leg from the knee to the ankle; tore off the rim of his hat, both shoes and his trousers from the hip.

Foran served in the war with the Three Hundred and Ninth Machine Gun battalion and seemed to have led a charmed life. But when old Jupiter Fulminator hurled a bolt at him there was no escape. Fortune had deserted and his career was ended.

Mark Memorial Trees.

Regardless of how thoughtfully the trees have been selected and how thoroughly the planting has been done, there remains intelligent care to have them live and thrive, says the American Forestry association of Washington, which will register your memorial trees on its national honor roll. Many planters have been disappointed with the results of their work because they considered their job completed when the last shovelful of soil was placed around the tree.
