Medals Ready for Eligible Marines

The local marine corps recruiting station has just received word that victory medals, clasp, stars and Maltese crosses have been received and are now ready for distribution to former marines who served between the dates of April 6, 1917 and November 11, 1918. The following procedure will govern the issue of these medals. All men will forward their discharge certificates, with their present address, to the marine corps recruiting station, third and Alder streets, Portland, Oregon. It is preferred that this be done by registered mail as this office cannot be held responsible for discharges lost in the mail. Upon receipt of the discharge, the number of stars, clasp, etc., will be checked and the medal will be forwarded together with the discharge and a receipt card with return envelope, in which, card must be signed by the man concerned and returned immediately.

It is advised that all former marines residing in Klamath Falls act quickly on this matter and receive their victory medals before the present supply is exhausted.

Youth Confesses Mail Car Theft

(Associated Press)

COUNCIL BLUFFS, Iowa, Nov. 15.—Postoffice inspectors admitted the arrest of Merle Phillips, aged 20, mail sorter, in connection with robbery of mail car here last Saturday night. Detectives have been busy on the trail since the robbery.

The postal inspectors say that Phillips has confessed to having had part in the robbery and implicated two other men. He said that he was riding on the tender at the time the actual robbery occurred, acting as lookout. No estimate was made as to the size of the loot.

Swimming is the latest, the world over. Everybody join the crowd at the Hot Springs bath house. 16

BELGIAN CHOSEN TO HEAD LEAGUE OF NATIONS BOARD

(By Associated Press)

GENEVA, Switzerland, Nov. 16.—Paul Hymans, former Belgian foreign minister, was elected president of the league of nations late yesterday. He received 35 out of 41 votes.

Melba's are longfiller hand made cigars. 15-20

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash poisons and toxins from system before putting food into stomach

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment.

A splendid health measure is to drink, before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the alimentary canal before eating more food.

A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make anyone an enthusiast on inside bathing. —Adv.

At the Theaters

AT THE LIBERTY THEATRE

"Life's Twist," the unusual Robertson-Cole Special with Bessie Barriscale as the star, opens at the Liberty theatre tonight.

The play shows that Kipling was right when he said that Judy O'Grady and the Colonel's Lady were sisters under the skin. Miss Barriscale has received high praise for her interpretations of the two leading woman roles.

The newest picture Harold Lloyd hands the laughs out in is "From Hand to Mouth." It is two-reels of the essence of joy and will be shown at the Liberty theatre on Wednesday.

Joseph J. Dowling, foremost character of the screen, is seen in a beautiful story of the south at the Liberty theatre. The story is that of imperishable friendship laid among the purple hills of Kentucky, adapted from the novel of Opie Read, and presented by the National Film corporation, for release by the W. W. Hodkinson corporation.

It is a photoplay that is as refreshing as a summer breeze, and it is laden with all the sweetness, the pathos, the romance, and the charm of life in the old south.

AT THE STAR THEATRE

William Collier, affectionately referred to throughout the country as "Willie," and whose record in stage history discloses that he helped make laughing a pleasure, has capitulated to motion pictures. Heretofore only those theatregoers who patronize spoken comedy have had opportunity to see and hear Collier, but tomorrow he will be shown at the Star theatre in "The Servant Question," a select picture which transfers the infectious Collier humor from stage to screen.

"The Servant Question" is a photoplay which gives Mr. Collier opportunity to solve many problems besides that of domestics in his inimitable, laugh-provoking and rib-tickling manner. He "cleans up" crooked card games, impersonates a butler, runs down some international gem thieves, and wins

SUPPLYING TELEPHONE SERVICE

Occasionally subscribers move and ask us for a continuance of telephone service at their new location. They may be told that compliance with their desires is immediately impossible owing to lack of "telephone facilities" in a particular locality. "Why," one will say, "the poles and wires are on the street and the house is already wired."

We wish the problem were as simple as it sounds. There may be poles and wires, but every wire may be in use in giving service to others. There may be a cable, but every circuit in it may be assigned to telephones already installed. There may be a telephone in the vacant house or apartment to which you move, but no spare wires and circuits from your location to the central office. There may even be sections of switchboard in the central office, but not available for operation on account of the lack of necessary switchboard apparatus, such as ringing keys, relays, etc.

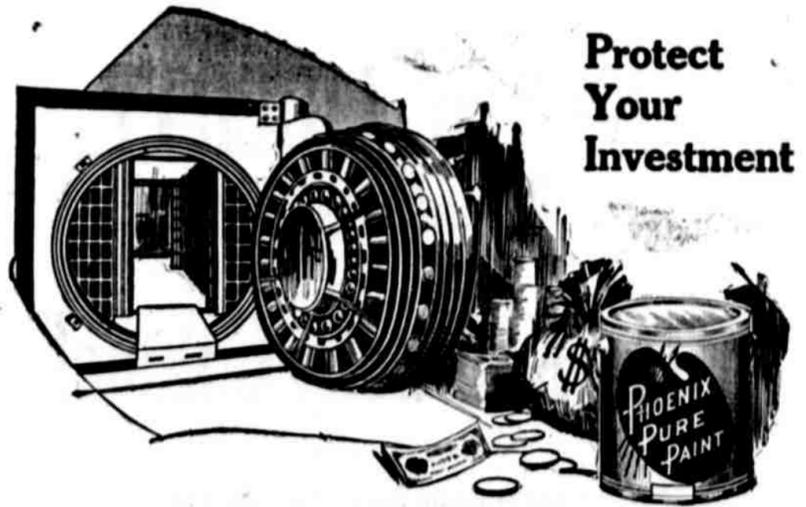

The reason for the shortage of telephone equipment is simple. During the war period we were unable to maintain our reserve of stock plant as the same materials we use were required and taken for government purposes and for industries properly favored by the government. Since the war, with the unexpectedly prolonged problems of reconstruction, production and delivery of materials needed to meet even current demands have been delayed. Every business concern is having similar experiences. The manufacturers of telephone equipment have been bending every effort to fill our orders, but they, in turn, are meeting the same difficulties in securing rubber, paper, silk, glass, porcelain, tin, thread, shellac, metal parts and other articles not generally associated in the public mind with telephone service.

At the same time with this abnormal situation with reference to materials there exists an unprecedented demand for telephone service, and even under these circumstances our record is one of fulfillment and demand.

In the first nine months of 1920 we made a total net gain of over 7,500 telephones in the state of Oregon. A fact worthy of consideration in our operations is the large number of telephones handled in proportion to net increase. In those nine months we disconnected, connected and moved 41,140 instruments to secure the net gain above mentioned.

We desire to give service as much as a patron wishes to receive it. We desire to promptly comply with the suggestion of public authorities who have taken a proper interest in the situation. We are facing abnormal conditions, but we are trying to overcome our difficulties.

A Message to Property Owners
Paint Is The Best Building Insurance You Can Buy

Buildings that are well painted last for years. A coat of Fuller's Phoenix Pure Paint will materially increase the value of your property, improve its appearance and insure it against decay. In every section there are many dilapidated and unsightly houses that tell a story of sad neglect. Time and weather have actually been allowed to impair property that a few gallons of Fuller's Phoenix Pure Paint could have preserved and beautified. One of the best reasons for painting today is, the present high cost of materials has greatly increased the value of property. It is wise to protect the original investment plus the increase.
