

DEAR PETEY:

Winston-Salem, N. C.
Monday

Get you a house and lot you'd stay in W-S a month if you ever got to know folks here like I have. Between business and Reynolds factories and a bully time—well my date book has been bubbling over! And, I'm still running into facts that would stagger even your imagination, old football, with all your kick!

Pete, take it straight from government figures direct to you, that every work day in the week R. J. Reynolds Tobacco Co. buys from our "Uncle Sam" enough revenue stamps to pay for a duplicate of the handsome new Winston-Salem post office building! Ever hear of such a thing?

And, if you want to get an eyefull of an army of more than 15,000 people, be down in the Reynolds factory district when the whistles blow! Never saw such a cigarette firing-up time in my life!

Peter, everytime you light a Camel in the future, call back on what I've slipped you about Camels — absolutely, the greatest cigarette at any price—for quality, for refreshing flavor, for mellow mild body, for freedom from any unpleasant cigarettey aftertaste or odor! It's worth the busiest smoker's time to compare Camels with any cigarette in the world! Camels are simply a revelation! You know that.

I'll open my eyes in Atlanta tomorrow! In the meantime here's a wad of best wishes I have in stock!

Yours

Shorty.

Idaho Coal Mine Producing Heavily

(By Associated Press)
LEMMON, S. D., Nov. 17.—The Claremont coal mine, owned by the state of South Dakota, is now shipping 200 tons daily. The product is of the quality known as blue lignite.

The Claremont mine was purchased last summer to insure state institutions against coal shortages. Fuel is furnished to the state normal school at Spearfish, the penitentiary at Sioux Falls, the school for blind at Gary, the school for deaf at Sioux Falls, the soldiers' home at Hot Springs, and other state institutions. Individuals may purchase coal at the mine.

The mine is located at Haynes, N. D., just over the line from Lemmon. The original owners began the grading for a spur railroad from the mine to Lemmon. The state of South Dakota is now building this railroad. It is estimated that when the line is finished the mine's output can be tripled.

New Electric Plant of Treble Capacity

MALIN, Nov. 17.—A new electric lighting plant, which will generate 110 volts, is to replace the old 35-volt plant in use by Frank Wilde, proprietor of the Malin hotel, and Louis Boldscher of the Malin State bank.

The old plant was sold to Joe Smidl, proprietor of the Malin general garage. He will furnish lights to the postoffice, his garage and the butcher shop now under construction.

Mr. C. V. Holmes, proprietor of the Malin Mercantile company, has also an electric plant to supply his needs. Several other plants are in prospect.

NEXT GRANGE SESSION IS COMING TO OREGON

BOSTON, Mass., Nov. 17.—The national grange voted yesterday to hold its next annual session in Oregon, probably at Portland.

GOOD CITIZENS FROWN UPON NIGHT RIDERS

(By Associated Press)
LITTLE ROCK, Ark., Nov. 17.—Responsible sentiment in this state is running strongly against night riding which has been undertaken in this and other cotton growing states to prevent the ginning and marketing of cotton at the present low price. Representatives, planters, bankers and business men feel strongly that this lawlessness is giving the south a "black eye."

At a recent meeting of the Arkansas division of the American cotton association here, nightriding was condemned as an act of gross ignorance. Gov. Brough has taken a vigorous stand against night riding and he has had further support, among others, from Claude Fitzpatrick, president of the Arkansas bankers association. All the forces of the state and local governments in Arkansas are now cooperating to prevent further lawlessness in the cotton ginning centers.

This counter movement is believed to be doing much to stop the activities of night riders. Mass meetings have been held in many towns and the co-operation of the citizens has been proffered officers in maintaining order.

Acts of violence for which night riders have been given credit in Arkansas have taken various forms. In addition to the burning of gins, warehouses and other property, farmers who attempted to market their cotton have been threatened with death or severe punishment, and in some cases have been badly maltreated. Negro families have been intimidated and driven from their homes because they sought employment or worked as cotton pickers. Hundreds of cotton gins in various sections of the state have been posted with warnings against continuing to buy and gin cotton, the threatened penalties for not heeding the warning including destruction of the plants and forfeiture of the lives of the owners.

In one county eight men now are awaiting action of the grand jury on a charge of setting fire to a gin, and in another section of the state three white farmers have been sentenced to a year's imprisonment and assessed heavy fines for intimidation of negro cotton pickers.

"Drys" Will Keep Wary Eye Open

(By Associated Press)
CHICAGO, Nov. 17.—Notice that the prohibition party will continue in operation for the next two years at least for the purpose of guaranteeing a continuation of a bone dry congress two years hence, is given by Virgil G. Hinshaw, chairman of the prohibition national committee here at national headquarters.

"We have a mission still," Mr. Hinshaw said. "If anyone of the major temperance organizations were to stop now it would give a chance to the wets to come back and possibly pass a beer and wine amendment to the Volstead law."

DISPUTES ASSERTION OF LUMBER CO. MANAGER

CHICO, Butte Co., Nov. 17.—H. K. Sears, real estate dealer of this city and who is building 21 houses in the Gerber section, takes issue with the statement of W. B. Dean, local manager of the Diamond Match company, that lumber prices in Chico are lower than in the rest of the Sacramento valley.

Sears declares prices have not dropped in proportion to the reductions made elsewhere and as a result building operations are held up.

CALIFORNIA NEWS

ONTARIO, Nov. 17.—A disagreement over a game of pool at Cucamonga, near here, resulted in the death of one man, the probable fatal wounding of a second and serious injury to a third. It was learned here, when Diego Hernandez died in an Ontario hospital from a gunshot wound.

SACRAMENTO, Nov. 17.—Old Chinatown, with its mysteries and its incongruities of filth and cleanliness, is scheduled to go. A crusade of the police and health departments, seconded by the chamber of commerce, has been launched, and John Chinaman is to be helped to a healthier existence, whether he will or no.

YUBA CITY, Nov. 17.—Sutter county boasts a blooming cherry tree on the Frank Gansby place near Bogue Station, with every indication there will be cherries if the frost does not come too soon. The only explanation offered is that the red spider got busy when the tree should have blossomed, and the leaves dropped off, retarding the growth of the bud. Irrigation and the recent warm spell have caused the tree to take on spring life, and it is attracting much attention from passersby.

GRASS VALLEY, Nov. 17.—Quick-silver is one of the commodities used in gold mining that has really taken a respectable drop in price. During the peak of high prices for this product it commanded a price approaching \$500 per flask. A month ago it was selling for \$85, and this week it is quoted in the local market at \$62.50 per flask, but \$20 below the pre-war figure.

ANGELES CAMP, Nov. 17.—Rediscovery of the long-lost one-time rich gravel channel of the Central Hill is now believed to have been made by David R. Oard & Co. of this place, two miles from Angels, in the Rough Diamond claim. The shaft has reached the rim of an ancient river channel and within recent weeks some handsome nuggets have been taken out.

LOS ANGELES, Nov. 17.—High rents have caused two southern California pastors, the Rev. M. C. Dewese of the Western Avenue Methodist church, Los Angeles, and the Rev. Warren Elising of the Presbyterian church at VanNuys, a suburb, to move their families into their churches, it became known here.

SACRAMENTO, Nov. 17.—The California Farm Bazaar federation has decided upon a bold step forward in the marketing of staple crops. The new bulk grain terminal elevator at Oakland tidewater has been taken over by the federation under a lease.

SACRAMENTO, Nov. 17.—Sacramento is in the grip of a building trust, operating, it is charged, in violation of the Cartwright anti-trust law, stifling competition and hampering all classes of building in this city. These charges are made by P. J. O'Brien, contractor and dealer specializing in brick work, who has been ostracized from the Sacramento Builders' Exchange and boycotted by all members of the exchange because, he claims, he refused to "play their game of framing on competitive bidding and keeping off jobs that had been fixed for certain contractors at their own figure."

WHO IT HITS

The request of the telephone company for increased rates will affect its greatest class of customers, the two-party people. Once the telephone, like the bathtub, was a luxury. Now, "they have to have them." —Oregonian.
