quired for irrigation in the Klamath basin

Senator Chamberlain and Concressman Sinnott, he said, had both declared to him that under the new coal, oil and gas lands leasing act. the government would receive great ly increased revenue for reclamation. He said the reclamation service could get some of this money to build the dam-if they would ask for it, and he believed that the best safeguards for all lay in government construction of the dam.

speedler action in reclamation matters from the power company than from the government. Reclamation Service Stand.

Harry Holgate, attorney for the United States reclamation service, read a portion of a statement prepared by H. D. New II, tending toward the position that the public interest was sufficiently protected in the existing contract between the government and the power company; that the building of the dam for a verification or denial of the

For some time the Burke family Today, their ambitions were realized. A telegram reached Papa Burke this morning apprizing him that 25 girls had arrived at his home, and that all of them, including their mother, were doing well. As the Burke home, temporarily, is in Scobey, Montana, Mr. Burke saw the futility of looking up Mr. Stork and of doing odd and sundry injurious things to him in retaliation for the delivery of the multitude of little heiresses at his home, so he did the next best thing and instructed the local telegraph office to wire at once be given first cohice.

The burning question of the hour R. E. Bradbury, not as a director in Mr. Burke's mind at least, whethmorrow.
