

Boston is to have eight policewomen whose particular duty will be to keep the girls from flirting on Boston Common.

Miss Marie Majereva, well-known as an author, has been appointed director of the national theatre in Prague.

What Is Chiropractic?

It is the greatest science known to the world today.

WHAT ARE ITS BASIC FACTS?

FIRST—That the physical causes of all so-called disease is vertebral mal-alignment and nerve impingement.

SECOND—That only Chiropractors with trained hands by adjusting the partially misplaced vertebrae will remove the cause, and nature will do the rest.

The Red Cross is now a recognized institution in every country on the globe. While it has been in existence for a long time, and carrying out the purpose for which it was organized in its own quiet way, it was not until the late war came upon us that it seemed to come into its own. The great war educated us to the needs of an organization to perform works of mercy.

Give to the Red Cross. You never know when misfortune may overtake you, and if it does you know you can rely on these angels of mercy to take care of you.

CHANGES IDEAS ABOUT YANKS

LONDON, Nov. 20.—H. W. Nevins, a well-known journalist, lecturing on "America" at the national liberal club here, said his visit to the United States had upset nearly all his pre-conceived notions about Americans.

He said he found Americans most polite, very kind and hospitable and only too ready to take trouble for others. He did not find them particularly businesslike and hard-working. One thing that struck him as terrible was the individual subservience to the state and the tendency of the police to dominate everything and he gave instances of what he regarded as savage sentences of 10 years imprisonment on a "perfectly innocent and harmless gentleman," and of 15 years upon a girl of 20, who had distributed a pamphlet urging American soldiers not to fight against Russia.

There was no real political labor party in America, which was 40 years behind England in that matter. Concerning anti-English feeling in America, he said he was constantly confronted by the shame of Britain's treatment of Ireland and he confessed that when he found the house of commons jeering at dying men, and heaping insults on a country struggling for political freedom, it was almost like going home and seeing his own mother drunk on the floor.

ADDING TO MILL

NORTH BEND, Ore., Nov. 20.—The Willamette-Pacific Lumber & Box factory is now building an addition to its main building. The plant is turning out box hooks and lumber of all kinds.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. —Adv.

The people who are running the Red Cross throughout the world are mercy workers. Think of it! While you and I are running after dollars and thinking only of our own individual desires, they are moving quietly about giving aid and comfort to those who are in distress. Truly, they are God's own chosen people.

Give liberally to the Red Cross and you will be benefited many fold. Remember the saying—
