BOWMAN, Nov. 23. The Bowman farm center, at its last meeting went on record as being opposed to the teaching of foreign languages in any schools, except as part of the regular curiculum of high schools and universities. The members also voiced opposition to public gatherings being addressed in any but the English language.

SACRAMENTO, Nov. 23,-The hop market has opened on a small scale here, some of the brokers being out with offers of 40 cents a pound They report little success, however, declaring the majority of the growers are holding for a better price. Some of the growers declare they will not release holdings until the market reaches \$1, which they believe will be shortly after the first of the year.

WOODLAND, Nov. 23 - Rain and sloppy yards alone saved the West Valley Lumber company the loss of a big hauling truck which thieves tried to steal from the company's garage near the Southern Pacific depot. The big truck, valued at \$6500 mired down in soft ground, and it was thought for a while that a switch engine would be pressed into service to dislodge it.

BACRAMENTO, Nov. 23.-Police records show that 493 arrests for miscellaneous offenses have been made for the 19 days of November, an increase of 11 arrests over the full month of November, 1919,

WILLIAMS Nov. 23 .- A. C. Panzer was found bound and gagged at an early hour on the street Saturday morning by Archie Metzka. Panzer, who is a truck driver, says three unmasked men attacked him and robhed him of \$149.

CHICO, Nov. 23 .- Grant Weilder, of Klamath Falls, Ore., was taken oft a Southern Pacific train here suffering with ptomaine poisoning. He is in a critical condition and is unable to tell where he ate his last meal. An attempt at suicide is suspected.

YREKA, Nov. 23,-Grand jury re ports to the superior court that it has found that a great deal of alcoholic liquor is being manufactured and sold in Siskiyou county. As it is

a violation of the federal probibition laws the grand jury directed that the federal prohibition officer in San Francisco be requested to give attention to the flagrant violations of law in Sisklyou county, as county and state officials are powerless to do anything.

REDDING, Nov. 24.—Redding entertained a large number of train tourists last week from all parts of the country who had no intention of stopping here. Reason being that Southern Pacific trains 54 and 16 were tied up here and crews released for three hours on account of a bad washout near Coram.

MARYSVILLE, Nov. 23 .- Two holes were bored through a plate glass window of a store at the corner of Fifth and D streets—one as though made by a pistol shot-when an automobile had been jacked up for repairs on the opposite side of the street suddenly dropped from the jack and shunted two small rocks into the glass.

The breakage is covered by inother breaches of discipline at the surance. The rocks were thrown a distance of 50 feet.

#### CREW IS STRANDED ON ISLE

Castaways From Liner Carawa Pass Four Weeks on Galapagos After Vessel Sinks.

Sydney, Australia.-Four weeks' experience on the Galapages islands was sufficient for the crew of the Australian government liner Carawa, who, like the original Robinson Crus were castaways on that island group last April.

The Carawa last March left Port Arthur, Tex., for Australia with benzine and case oil. When in the Pacific it encountered a inunch containing six men, which had been blown out to sea. The liner towed the launch to Chatham islands in the Galapages

On Chathum Island the Carawa struck a reef. Her stern post and rudder were torn away and she began to leak badly. The crew made for shore and watched their boat sink.

The men lived in a tent made from canvas from the ship and subsisted on canned meat and potatoes. The food supply was limited and sleep was out of the question on account of the mos quitoes. In addition, convicts on the island stole the castaways' belongings. After four weeks a schooner carrying cattle and hogs picked the men up and landed them at Guayaquil. Here they shipped on a steamer for Colon, where the Australian government liner Australange, bound to Sydney, picked

them up early in July. Iron and bleet work in India.

India has already laid the basis of a steel industry in the establishment of two important and successful iron and steel works; namely, the Bengal Iron and Steel works at Kulti, which turns out 100,000 tons of pig fron per and the Tata Iron and Steel works at Sakchi, about 155 miles from Calcutta, which has a monthly production of about 20,000 tons. Most of this pig iron is converted into steel, which is largely used locally in the production of rails and the smaller structural shapes, but even with the additional furnaces now under construction, which in the case of the Tata works will more than triple its previous capacity, not more than a fraction of India's needs of iron and steel will be supplied from these two works.

East Holds Rubber Supremacy.

Until ten years ago rubber meant rubber from Brazil. Today Brazil's supremacy is gone. In less than a decade the far east has jumped to the front and now is producing nine-tenths of the rubber of the world. In the late sixties, just when the first experiments with the automobile were under way, an Englishman, H. A. Wickham, who had spent much time in Brazil, conceived the idea that rubber plants could be grown on plantations.

Securing a commission from the India government he boxed up thousands of seeds, chartered a derelict ship up Amazon, and started for India. The first trees grew at Heneratgoda in 1881, and that same year the first experiments in tapping began.

Eight-year-old Raymond came from small village to visit in Indianapeis the other day. In the village there was no water works and Raymond watered the flowers with a sprink ling can. Neither did they have a bathroom at home. And he eyed it and the shower it contained with won

Finally he made his comments to his uncle, who was very tall. "No wonder you all grow so big here in Indianapolis." he said. "Why, you have that big sprinkling can in the bathroom so that you can water

yourself all the time."

MODERN CRANKCASE for clean oil in a clean engine

**TOUR ENGINE** requires an internal bath frequently. Road dust, carbon from the combustion chamber, and fine particles of metal worn from the bearing surfaces get into the lubricating oil in the crankcase. All this dirt circulates with the oil through the engine. If it isn't drained out regularly there's bound to be excessive wear and tear.

Gasoline also escapes past the pistons and dilutes the oil.

Modern Crankcase Cleaning Service gets rid of the dirty, diluted oil, flushes the crankcase thoroughly and refills with clean, fresh oil,

The garages listed below are now equipped to perform this needed service quickly and for a nominal charge. We use Calol Flushing Oil, which cleanses thoroughly without danger of contaminating the fresh Zerolene refilled into the cleaned

TODAY: Bring in your car for Modern Crankcase Cleaning Service, It will result in better engine performance and longer life for your car.
