

**OUT OF REACH**

Most of the folks who think they can't afford a piano are simply misinformed.

Our piano deliveries have been specially numerous this fall, many of these instruments going into the homes of people who had very little idea of purchasing until they had visited our store and ascertained our reasonable prices and terms.

Procrastination never advanced or benefitted anyone, so for the sake of your home or children, let's talk it over and give due consideration to a piano.

**SALTS FINE FOR ACHING KIDNEYS**

We Eat too Much Meat Which Clogs Kidneys, Then the Back Hurts

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

**If the Wood Dealer Sold Service**

We do not sell current; we sell service. That sounds odd doesn't it?

Well, suppose the wood dealer sold service instead of wood, he would tend to your furnace and your range, take away the ashes and clean the flues. You would buy so much heat.

Now you buy so much light, although you pay according to the current you consume. But the service is performed for you by this company at the substations and power plants.

That is what we want to give you—efficient service. It is the aim of this company to have none but satisfied customers. No matter what it is, if you have a grievance, or are dissatisfied about your bill or do not understand our rates, please come in and see us or write us about it.

If you have any suggestions to make, we will gladly avail ourselves of them as our aim is constantly to improve our service to you as fast as the development of science and human ability permit.
