## By Overwhelming Majority National Plebiscite Clinches Victory for Greek Royalist Forces

(BY ASSOCIATED PRESS)

ATHENS, Dec. 6.—The returns from the plebiscite held yesterday throughout Greece indicate that there has been an apparently overwhelming majority in favor of the restoration of King Constantine to the throne.

A crowd of at least 200,000 persons gathered last night near the king's palace when it became apparent that the result was favorable to Constantine and made a frenzied demonstration of approval.

### Elks' Speaker Makes Strong Plea For Americanism

The Elks annual memorial service yesterday afternoon at 2:30 o'clock was well attended; and an impressive and instructive service was given in memory of the honored dead of the order.

The Hon. Walter Evans of Portland gave the principal address. His subject was a plea to red blooded Americans to protect their country from the rebels whose aim it is to tear down all principles of true government. The musical program, rendered by local talent, won the approval of those in attendance.

### GARAGE MAN PURCHASES CLAREMONT ROOMING HOUSE

One of the largest transactions in residence and rooming house properties that has taken place this year has just been closed in the sale of The Claremont, 228 N. 4th street, by Mr. and Mrs. Henry Boivin to N. E. Dennis. The price paid was \$10,550 cash. This is one of the best located and desirable properties in the city. It has a large number of well finished and well furnished steam-heated rooms, with hot and cold water in each.

The new proprietor has been identified with the automobile and auto stage business in this city for some time and recently has become associated with the Dunham Auto company. This concern handles several lines of cars and trucks, including the Chalmers, Studebaker and Franklin cars and the Republic and Sterling trucks.

### GROWING CRIMPT!

The thermometer touched 13 above at the reclamation service station yesterday morning, the lowest point so far this season.

### Grand Jury Chosen; Auto Case on Trial

Grand jurors drawn for the new term in the circuit court this morning are Jacob Rueck, foreman; T. B. Watters, C. W. Lewis, F. C. Markwardt, Clayton Cornish, Jesse L. High and R. F. Tuttle.

Attorneys this afternoon are examining trial jurors to secure a panel for the trial of the suit of the Chewacan Land & Cattle company against Central garage of this city. Plaintiff claims damages through alleged injury to an automobile in custody of defendant's agent. The complaint asserts that plaintiff stored a auto in defendant's garage two winters ago. Later the garage was notified to deliver the car to plaintiff's representative at Lakeview. While en route under care of defendant's driver, it is alleged, the car was wrecked.

The suit of Stiltz against Glendenning, the first case on the term calendar, was dismissed this morning. The court was informed a settlement had been reached.

### Bride of Three Months Succumbs In Woodland, Cal.

Dorothy Kindell, wife of Vernon Kindell, a bride of three months, died November 29 at Woodland, Cal., as the result of complication following a surgical operation for ear trouble. She was 17 years old.

The dead girl was the sister of Mrs. Lena Vandell of Klamath Falls and was well-known here. She worked in the Klamath Superior laundry for some time. Mr. and Mrs. Vandell were in Woodland for the funeral.

Besides the local relatives the decedent is survived by her parents Mr. and Mrs. Geo. Simmons and a brother Dewey Simmons, of Woodland.

### Teachers' Exams. Start Dec. 15

Miss Twyla Head, county school superintendent, has announced December 15, 16 and 17, as the dates for the examinations to be given applicants for state certificates. The place where the tests will be held has not yet been decided upon, but will be announced at a later date.

Following is the schedule: Wednesday a. m., U. S. History; Wednesday p. m. physiology, reading and composition; Thursday a. m., arithmetic, psychology; Thursday p. m., geography, American literature; Friday a. m., theory and practice, orthography and physical geography; Friday p. m., school law, civil government and algebra.

### Sheep Men Will Graze New Forest Area; No Allotments

No specific allotments of grazing privileges on the newly annexed territory in the Modoc national forest were made Saturday as the result of the meeting of the sheep men, cattle men and forest service officials at the Carr school house in Modoc county. Gene Hammond, president, and J. H. Carnahan, secretary of the county wool growers association, attended the meeting.

Grazing privileges were guaranteed homesteaders and other cattle owners living in the territory affected and a large area of the lava beds was set aside for the use of sheep men. Specific allotments will come later. There are about 450,000 acres in the added acreage.

Chief Ranger Harry Garrison presided at the meeting. Nothing has yet been heard in answer to the wool growers' protest over the tentative grazing rates—18 cents a head from December to May and five cents a head during the lambing season.

## BOX MAKER IS OPTIMISTIC FOR BETTER TREND

Better times are coming for box factory operators, said G. A. Krause, manager of the Klamath Lumber & Box company, yesterday with the maturity of several California crops, that require large quantities of shooks for handling, fast approaching. He predicted that a few weeks would end the present slack season and said that after the first of the year he expected to see local box plants running at 75 per cent of their normal capacity.

Already northern California orange growers are picking the crop. South of the Tehachapi there is said to be a banner citrus crop, marketing of which will begin about the first of the year and last for several months. Sacramento asparagus growers and the Los Angeles lettuce raisers will be in the market for crates, says Mr. Krause, and he predicts that the shook market will rally strongly.

The Klamath Lumber & Box company is now running with a reduced crew, operating three or four days out of the week. The Ewauna also is down to a winter basis, reported Mr. Shallock. The California growers (the Chelsea) reported a 50 per cent normal production, with a reduced crew, and A. J. Voye, of the Big Lakes reported similar conditions.

All of the plant heads interviewed said they did not anticipate a shutdown this winter. Present operations are about 40 per cent normal, averaging all plants, it appears.

It was pointed out, however, that this is the usual December condition, heightened somewhat this year, perhaps, by the slow market for canned fruit and other products that are handled in boxes, but nevertheless customary at this season. As the new year approaches producers everywhere are busy inventorying and until they find what they have on hand they will not add to their stock. The first of the year, it is generally felt by the box makers, will see an upward trend, although Mr. Krause is the only one to present reasons in concrete form.

With the exception of the Big Lakes mill, which will operate only a short while longer, the Lamm Lumber company and the Modoc Lumber company, all mills are shut down for the winter. This is the usual December 1 shutdown, due to ice-locked mill ponds.

An innovation that will probably change this condition next year is the action of the Klamath Pine Manufacturing company at Shippington, whose new plant has just been turned over to the owners by the Sawmill Engineering and Construction company. The company has installed a network of steam pipes in their pond and figure on operating all winter. This, however, is an entirely new departure.

The Pelican Bay plant closed down Friday, having saved more than 50,000,000 feet of lumber this season. They were handicapped by a late start, owing to delay in material and machinery for the new mill. The plant has a capacity of 70,000,000 feet.

A. J. Voye, secretary of the Lumbermen's association, reports that, despite handicaps and drawbacks, delay in shipment of material for new mills at the beginning of the season and slackened demand for lumber products at the close, the mills of Klamath county surpassed all previous records in the season just ended, sawing approximately 250,000,000 feet of lumber. The largest previous season was around 225,000,000 feet.

With four large mills, the Ewauna, Big Lakes, Klamath Pine Manufacturing company and the Shaw-Bartram plant up, and the Klamath Logging company mill promised for next spring, next year's output will easily be doubled. Many small mills are also added in other parts of the county. The Saddle Mountain Lumber company's mill at Sprague River, which has not started cutting commercial timber yet, will add about 15,000,000 feet to the annual cut. At least seven other small mills were started this year, with a combined capacity of 40,000,000 feet, and others are in prospect.

During the winter the Algoma Lumber company will electrify its plant and increase its capacity. The Modoc Lumber company, now cutting something like 40,000,000 feet a year, intends also, it is reported, to greatly increase its capacity.

The Big Lakes mill on the Lake Ewauna front, a 50,000,000 foot plant, got started about November 1 and has turned out 3,000,000 feet

## Colleagues Give Harding a Great Ovation in Senate

(By Associated Press) WASHINGTON, Dec. 6.—Co-operation and friendly relations between the white house and congress was forecast by President-elect Harding in a short address today from the floor of the senate, followed a great ovation when he answered roll call when congress reassembled.

Though disclaiming any desire to criticize the present administration, Mr. Harding declared it was one of his ambitions to insure better team work between the two branches of the government.

President Wilson did not indicate to a committee from congress, headed by Senator Lodge, which called upon him today to inform him that the congress was in session whether he would address the nation's lawmakers tomorrow. The committee received the impression that he would not.

Senator Harding said he had asked senators during conferences today to expedite all appropriation bills in order to get that legislation out of the way and the decks cleared for a special session of congress as soon as possible after March 4.

### GUILD ANGORA WILL BE GIVEN AWAY WEDNESDAY

The handsome Angora cat, on display last week during the Episcopal guild bazaar will be presented to its owner Wednesday afternoon at 3:30 o'clock at the Baldwin hardware store. The animal will be on display in the Baldwin window and anybody who feels like adopting it should inquire within the store or of Mrs. H. E. Harris, 1125 Main street, regarding conditions.

## SIEMENS IS IN FULL CONTROL OF FIRST STATE

Negotiations that have been underway for some time ended late Saturday in the purchase by Capt. J. W. Siemens from G. W. Mattern and A. B. Epperson of their interest in the First State & Savings bank. The price involved was approximately \$190,000. Messrs Mattern and Epperson controlled about 40 per cent of the bank's stock.

The sellers have been connected with the bank for the past three years. By their relinquishment of the full control passes back to Captain Siemens who has been the guiding genius of institution since its inception.

The First State & Savings bank started 13 years ago as the savings branch of the old Klamath county bank, before the latter was merged into the First National. It was originally known as the First Trust. Through judicious handling it has developed with the growth of the community until it is recognized as one of the leading financial institutions of southern Oregon.

Captain Siemens has been the executive head of the bank since the beginning.

So far, the mill in the timber west of town cut about 5,000,000 feet this season.

## Sonoma Sheriff, 2 Detectives Killed; Storm Jail for Slayer

(BY ASSOCIATED PRESS) SANTA ROSA, Cal., Dec. 6.—Two assaults were made last night on the jail where George Boyd, accused of having shot and killed Sheriff Petray of Sonoma county and Detective Sergeant Jackson and Detective Dorman of San Francisco was hovering near death.

Boyd was shot by Jackson after Jackson had fallen, mortally wounded.

Charles Valenti, identified as the owner of a San Francisco cottage where, according to charges of peace officers, more than a score of girls had been assaulted, and Terrence Pitts, his companion, are also held in the county jail. No charges have been filed against Valenti and Pitts so far.

Dorothy Quinlan, said to be a friend of Valenti and a witness of the shooting, is also held.

## CONGRESS MAKES READY TO RAISE FIVE BILLIONS

BUDGET ESTIMATE SUBMITTED BY SECRETARY HOUSTON IS ONE BILLION MORE THAN CURRENT YEAR'S EXPENSE LIST.

(By Associated Press) WASHINGTON, Dec. 6.—Another peace time estimate of nearly five billions for the government's expenses during the fiscal year 1922 faced congress when it reassembled today. The exact figures as transmitted by Secretary Houston were \$4,652,856,759, an increase of nearly one billion dollars over the appropriations for the current year, but \$211,000,000 less than the estimates submitted a year ago.

Continuing war costs were directly reflected throughout the estimates, indicating that the government might be on a four billion dollar basis for some years to come as compared with the one billion dollar maximum preceding the war. The single item of interest on the public debt was almost the pre-war maximum of all appropriations, this total being \$922,659,000. In addition, there was an estimate of \$265,754,864 for the war debt sinking fund. Of the individual departments, the army and navy, as usual, asked for the greater amounts, the estimate for the military estimate for the military establishment being \$699,275,502 and for the naval establishment \$658,522,231.

The total estimates as given by Mr. Houston follow:

- Legislative (congress) \$9,324,040.
- Executive (white house and government departments) \$125,446,379.
- Judicial (supreme court) \$1,680,216.
- Department of agriculture \$41,989,359.
- Foreign intercourse \$11,982,848.
- Indian affairs \$11,989,702.
- Pensions \$265,190,000.
- Panama canal \$16,187,255.
- Public works \$250,628,194.
- Postal service \$585,406,902.
- Miscellaneous \$675,154,741.
- Permanent annual appropriations \$1,309,776,361.

These estimates, prepared by the democratic administration, are for the operation of the government during the first fiscal year of the new republican administration. Republican leaders in the senate and house already have forecast a sharp cut in the total and within the week the house committees will begin work.

Included in the estimates for the army and navy is a total of \$95,000,000 for development and maintenance of the air service in the two defensive branches of the government, the navy asks for \$35,000,000 and the army seeks \$60,000,000.

Chief among the estimates for the navy is one of \$184,000,000 to continue the 1916 three-year building program.

The army's greatest single item is \$215,659,830 for the pay and mileage of officers and men. An appropriation of \$74,808,000 is proposed for the national guard.

Expenditures on public works sug-
