

### FREE RENT FOR COOLIDGE IS PLAN

WASHINGTON—Vice President-elect Calvin Coolidge may not have to worry about his rent the next four years. If the plans of an informal committee of senators do not go astray. These senators, it is understood, will offer a resolution to Congress favoring the purchase, by the federal government, of a home for future vice presidents. The so-called "Embassy Building," at 16th and Park-rd. seems highest in favor. Above is shown the "Embassy Building" and below Coolidge on the porch of his Northampton residence. Inset is picture of Coolidge.

## If the Wood Dealer Sold Service

We do not sell current; we sell service. That sounds odd doesn't it?

Well, suppose the wood dealer sold service instead of wood, he would tend to your furnace and your range, take away the ashes and clean the flues. You would buy so much heat.

Now you buy so much light, although you pay according to the current you consume. But the service is performed for you by this company at the substations and power plants.

That is what we want to give you—efficient service. It is the aim of this company to have none but satisfied customers. No matter what it is, if you have a grievance, or are dissatisfied about your bill or do not understand our rates, please come in and see us or write us about it.

If you have any suggestions to make, we will gladly avail ourselves of them as our aim is constantly to improve our service to you as fast as the development of science and human ability permit.
