Extraordinary Announcement

SUED FOR DIVORCE

MILWAUKEE — Captain Wallace Schutz, an engineer of Milwaukee, has filed suit for divorce from Nadejda Troubetskoy because, as he claims, she already has one husband. Mme Troubetskoy, said to be a Russian princess, and once called "the most beautiful Red Cross nurse in Europe," was married to a former officer of the imperial guard, a Russian prince. He was believed dead. Now Captain Schutz says he has been discovered to be alive and living in New York state.

smith, stands six foot nine inches in his stocking feet and tips the beam at 287 pounds. The recruiting officers had to get permission from the higher authorities to enlist him, as he tops the height limit of the marine corps by seven inches. Pratt will make an ideal drum major or will come in handy for straightening out the colors when they get tangled on the flagpole. As soon as his tailor made uniform arrives he will be assigned to duty at the New York recruiting office.

PLANS BETTER PARK SERVICE

WASHINGTON, Dec. 8.—Definite approval by congress of a comprehensive plan for development of the national park system will be sought by the national park service of the department of interior in submitting its 1922 appropriation estimates.

The estimates, which were outlined in a statement today by the park service, total \$2,473,594, and provide for construction of roads, sanitary systems, camping grounds, and electric lighting plants for the public camps and hotels in addition to the regular expenses of maintenance and administration. The estimates exceed the appropriation for the current year by approximately \$1,500,000—all of which the service plans to use in inaugurating its development program.

"The increase asked for," the statement issued by the park service said, "is admittedly large, but it should be remembered that these pleasure grounds, the property of the people, comprise an area larger than the combined states of Massachusetts and Connecticut."

The service said it would submit with its estimates figures showing that each year the national parks return to the federal treasury in the form of revenues a large dividend on the investment. These revenues in the 1920 fiscal year were said to have amounted to approximately 35 per cent of the cost of maintaining the parks that year while the revenues this year are expected to amount to 40 per cent of the year's cost. The suggestion is added that should the development program be approved it is expected that the revenues within a few weeks will be brought to a figure approximating the cost of administration, maintenance and protection.

The estimates for the fiscal year of 1922 to be submitted by the service for the various parks follow:

Yellowstone national park, \$492,300; Yosemite national park, \$575,537; Glacier national park, Montana, \$333,100; Mount Ranier national park, Wash., \$214,400; Sequoia national park, Cal., \$175,217; Grand Canyon national park, Ariz., \$169,000; Rocky Mountain national park, Colo., \$150,000; Mesa Verde national

park, Colo., \$54,250; Lafayette national park, Me., \$50,000; Crater Lake national park, Ore., \$26,400; Zion national park, Utah, \$20,000; General Grant national park, Cal., \$10,000; Mount McKinley national park, Alaska, \$10,000; Hawaii national park, Hawaiian Islands, \$10,000; Wind Cave national park, S. Dak., \$3500; Platt national park, Dak., \$38,500; Platt national park, national park, Cal., \$5500.

TALLEST MARINE COMES FROM DENVER

NEW YORK, Dec. 8.—Because there are no uniforms in the marine corps large enough to fit him, Reuben A. Pratt, 29 years old, a husky recruit who arrived here today from Denver, is having a special outfit of military togs made to order by the quartermaster department.

for clean oil in a clean engine

How many miles have you driven your car?

HOW many miles—with-out changing engine oil?

Dirt accumulates in the oil of every engine—carbon, road dust, fine particles of metal, and gasoline that has escaped past the pistons. This dirty, diluted oil circulating through your engine causes unnecessary wear on bearing surfaces.

Have it drained out—now—and fresh oil put in the crankcase.

We can do that for you conveniently, quickly, economically—with

Modern Crankcase Cleaning Service. We use Calol Flushing Oil, the new, scientific flushing agent, which cleanses thoroughly without danger of contaminating the supply of fresh oil. And to assure correct lubrication we refill the cleaned crankcase with Zerolene of the correct grade.

Bring in your car today. Modern Crankcase Cleaning Service will give immediate better engine performance. Done regularly it will lengthen your car's useful life.
