Nevada Would Abolish State Tax Commission

WINNEMUCCA, Nov., Dec. 9.—A move for the abolishment of the Nevada state tax commission and some other commissions at the coming session of the legislature, and for drastic reductions in state expenses has been started by the Nevada live stock association, which met here recently.

W. C. Noteware, an expert on land values and taxes, said the legislature would be presented with a balance sheet showing that ranchers and live stock raisers cannot continue in business at the present rate of taxation and the present prices they receive. Noteware is preparing a table which will be presented to the legislature, showing how taxes have outgrown production while at the same time the state's population has decreased in the last ten years.

J. Sheehan, state senator-elect, and W. A. Brown, assemblyman-elect, expressed themselves as in accord with the live stock association. Sheehan saying he believed a cut of 50 per cent could be made in state expenses without affecting the efficiency. Referring to the plan to build a new prison, Sheehan said:

"With a population of only 77,000 they must think we are all criminals if we build a new prison."

LIFE OF SARDINE STUDIED

UNIVERSITY OF OREGON, Eugene, Dec. 9.—Does the sardine lead an adventurous life or does he find his existence muddy, stale and unprofitable? This question will be answered by Harlan Holmes, a senior in the zoology department of the University of Oregon, who has accepted an offer from the fish and game commission of California to develop the life history of the sardine in his laboratory work.

PROPOSES TO MAKE LOANS FOR FARMERS EASIER

(By Associated Press)
WASHINGTON, Dec. 9.—A bill introduced by Senator Hitchcock today proposes that the earnings of the federal reserve banks this year, totaling approximately \$70,000,000, should be made available for loans to farmers to ease the situation brought about by falling prices.

Electricity Will Be Future Fuel Predicts 'Wizard'

PHILADELPHIA, Dec. 9.—Dr. Charles A. Steinmetz, electric "wizard of Schenectady," believes it will be illegal to build a fire in the limits of cities of future, which will be smokeless and dustless. He made this prediction at a dinner of the Bala-Cynwyd neighborhood club in this city. He painted a word picture of a present-day city in the throes of an "electricity strike" and showed how a city depends on electricity in transportation and manufacturing.

"But," said Dr. Steinmetz, "Although we are absolutely dependent on our electricity today we have still only begun to use it."

"In the city, present methods of manufacture will be replaced with electrical methods. The present city with its dust and smoke will be unknown. It will be against the law to have a fire in the city limits. Life then will be worth living in cities."

Arizona Gambling Law Can't Touch Crap Shooters

TOMBSTONE, Ariz., Dec. 9.—Although Arizona has an anti-gambling law, two men could get out on the street corner and shoot craps for money and invite the sheriff to watch them do it—and they could beat the case if arrested, in the opinion of Judge A. C. Lockwood of the superior court of Cochise county. He discharged Thomas Ragsdale who was before him on a charge of having violated the anti-gambling law and who was accused of having shot craps.

In general, according to the court, the law specifies certain games which are prohibited and erects a complete barrier against all percentage games or those with a banking feature. Craps, unless banked, would not fall within in either prohibition, he said.

Inasmuch as crap shooters are being arrested almost daily in various towns of the state, lawyers believe Judge Lockwood's ruling will be used frequently as a precedent.

MATHER LEADS LION HUNT IN CAL. PARK

VISALIA, Cal., Dec. 9.—The first "official" lion hunt in the Sequoia national park ended with the bagging of one large cat and the evident fatal wounding of a second, both shots W. B. Bruce, official hunter of the state. The party was led by Stephen T. Mather, director of national parks, and included park and state officials. The hunters spent but two days "on the trail" and came out with the belief that at least a dozen cats might have been killed had time permitted. The park regions seem to have attracted the lions this season, more having been seen there this year than ever before.

13 MORE SHOPPING DAYS TILL CHRISTMAS

Wedgewood

For a perfectly cooked Christmas dinner—for the very best cooking results every day in the year—we have just the range to meet your requirements.
