TANLAC DISPLAY MAKES GREAT HIT

UNIQUE AND ATTRACTIVE DISPLAY OF CELEBRATED MEDICINE ATTRACTS MUCH ATTENTION.

An advertising display which has attracted unusual interest, has been placed in the show-window of The Star Drug company 5th and Main street, in this city, the local agency for the well-known and highly successful proprietary medicine, Tanlac.

The display is not only interesting from an advertising standpoint, but is educational, combining in an attractive and artistic manner beautiful scenes from many foreign countries where the ingredients of this preparation are obtained.

It has occasioned such favorable comment in the city that the proprietors of the store state that it will remain in their windows several days longer.

Work of Great Artist

The display is the work of one of America's greatest lithographic artists and the manufacturers of Tanlac state that the total cost will exceed sixty thousand dollars, which is said to be a record price for window displays. It is in ten distinct and natural colors, and presents scenes from the Rocky mountains, as well as from Europe, Asia, Peru, Egypt and other foreign countries.

The natives are seen in their natural habitat and environment, gathering the roots, herbs and barks that form the medicinal ingredients of Tanlac, packing them upon the backs of camels, elephants, llamas and other beasts of burden for transportation by land and sea to the immense laboratories at Dayton, Ohio, and Walkerville, Canada.

LOST AND FOUND

LOST—Skid chain for Ford, between home and office, Dec. 8. Return to R. H. Dunbar. 9-10

LOST—An Elgin open face watch between the Academy and 10th and Grant. Finder please phone 201 or call at Underwoods Pharmacy. 7-11*

WHO GOT THE OVERCOAT?

When the ladies of the Episcopal church held their rummage sale in the room formerly occupied by The Herald, they sold, by mistake, an overcoat that was hanging on the wall. The coat belonged to a person who left it at The Herald office until he could call for it. He is calling for it now and we would like to deliver it to him, and if the person who purchased it will please return it to this office, we will see that he is reimbursed. 7-12

One of the most striking features of the display is the reproduction of the magnificent laboratory at Dayton. Here the artist has very effectively and impressively portrayed the popularity of Tanlac by introducing a group of people in all walks of life, who are looking at the Tanlac laboratory with expressions of confidence, plainly indicating their belief and faith in the medicine.

Another distinctive feature is the bulletins accompanying the display. They tell briefly and concisely of the marvelous growth and development of Tanlac, until today it has the largest sale of any medicine of its kind in the world. These bulletins also quote various standard medical authorities as to the therapeutic value and physiological effect of the medicine.

60,000 Bottles a Day

From these bulletins one also learns that the new Tanlac laboratories at Dayton and Walkerville have a combined daily capacity of 60,000 bottles and that the medicine is now selling at the rate of approximately 10,000,000 bottles per year.

That Tanlac is a preparation of exceptional merit has never been disputed, which accounts for its tremendous popularity and large sales throughout the country. It is a powerful reconstructive tonic and body-builder and has a far reaching and most beneficial effect upon the entire system. Many strong local endorsements, from those who testify as to the benefit they received, have appeared in the columns of this paper.

The manufacturers of Tanlac are firm believers in newspaper advertising and have forcibly presented to the public the merits of their products in this way. Their total annual appropriation for newspaper space exceeds one million dollars. Their copy appears in practically all of the leading daily and weekly newspapers throughout the United States and Canada.—Adv.

Danger!

The time of great danger to your storage battery is right now. Unless it is given proper care, winter's cold, icy weather will mean a costly repair bill or a new battery next spring.

Let us store your battery over the winter months. We are splendidly equipped to relieve you of all fuss and worry. Ample storage space and competent battery men assure you of the very utmost in battery service. And next spring when you want to get out on the road—your battery will be ready, with all the "kick" and "zip" you want.

Drive around today and let us examine your battery free, and tell you the kind of storage you should have. You will be surprised how little this storage will cost you.

New Capital Necessary

Expansion and improvement require a telephone company to constantly borrow money. Current earnings, of course, take care of current expenses, and they should be sufficient to pay a fair return on the investment.

Money can only be obtained from one source; from the investing public; those who have surplus money to invest. The investor demands security, convertibility—the ability to change his investment at will without loss—and an assurance of a reasonable and continued rate of return.

Will he—will you—will a bank, trust or insurance company invest money in an enterprise which is unable to meet these requirements?

Today in Oregon we are operating at a deficit. Our property in this state is yielding no return to its owners. Without a return on present capital, how can we expect to attract new capital?

Our ability to borrow depends upon our revenues and our revenues depend upon our rates.

We are asking the Public Service Commission of Oregon to consider the inadequacy of our present revenues and to approve schedules of rates which will guarantee permanency, extension and improvement of the service.

The Pacific Telephone and Telegraph Company
